As counterfeits of these pills are in some cases sold for the genuine ones, the safety of the public requires that none should be purchased except from those recognived as above.

The provision in this cooking state of the kind, at all calculated to accomplish that object. The simble as Brandrath Pills sold in Carlisle, are all calculated to accomplish that object. The simplicity of its arrangements are its great recommendation, the entire heat is applied to the purpose intended, and I verily believe a great saving of fuel is effected. Comparing the Hot Air Cooking Stove with the much celebrated Rotary, the latter is insignificant and a toy, incapable of any thing but boiling. I am of the opinion that no arrangement of iron can be made to supersed the "Hot Air Cooking Stove;" nor can I suggest any improvement.

I do certify that I am now using one of Hathaway's Patent Hot Air Cook Stoves, No. 3, and way's Patent Hot Air Cook Stoves, No. 3, and do recommend it as superior to any stove I have seen. The great saving of fuel and the variety that can be cooking at the same time, makes it an object to those who wish to facilitate the operations of the kitchen.

1. CULBERTSON.

Chambersburg, September 6, 1841.

I have in use in my kitchen one of Hathaway's Patent Hot Air Cooking Stoves, and can recommend it as a very superior article. The one I have is No. 3; it has 5 boilers and an oven sufficiently large to bake 6 loaves of bread. The baking, roasting and boiling, can be done at the same time and with much less wood than required for any stove I have ever used. This size appears to be peculiarly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasure in showing the stove to those showing the stove to those should be successed in numerous schools throughout the city and county, as well as Eactories, employing numerous gives and amongst whom Tetter and Itch, is well as Hatter and Itch, is well as Superintendants and Proprietors of Factories, could be given, confirming the above, but for the delicacy they feel in having their names published in connection with such loathsome and disagreeable affections.

Messrs. E. Robinson & Co. Messrs. E. Rodinson & Gentlemen:—I have fairly tested the "Hot Air Stoves" which you put up at my, house and can recommend it as possessing principles of economy and convenience far surpassing any other stoves which I have ever seen. The boilers coming in physicians and others, have been frequently published of its efficacy. See directions.

Price 37½ cents a bottle, or three bottles for dollar. recommend it as possessing principles of economy and convenience far surpassing any other stoves which I have ever seen. The boilers coming in immediate contact with the fire gives it great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adopt it.
