ENTIRELY NEW LABELS.

THE public will please take notice that the Brand-Red Pills are Genuine unless the box has three labels upon it, (the top, the side, and the bottom), each containing a fac-simile signature of my hand-writing, thus—B. Brandred, M. D. These labels are engraved on steel, beautifully designed, and done at an expense of \$5000. Therefore it will be seen that the only way necessary to procure the medicine in its purity, is to observe the labels. See if the box has three upon it, engraved.

Remember, the top, the side and the bottom. The following respective persons are duly authorized and hold Certificates of Agency for the sale of Brandred's Universal Vegetable Pills, in Cumberland county.

- George W. Himer, Carlisle.

JACOB FRIDLEY & ELEAZER ROBINSON having entered into Co-Partnership, in the Tin, Copper, and Stove business, under the firm of FRIDLEY & ROBINSON, respectfully inform the public that they intend carrying on their business in all its branches, at the old stand of Jacob Fridley, North Hanover street, Carlisle, where they will, at all times, be prepared to serve purchasers with any article in their line, on the most reasonable terms.

In addition to all other varieties of stoves, which they will constantly have on hand, they have purchased of Mr. J. G. Hathaway, the exclusive right to manufacture and sell,

Hathaway's Patent "Hot Air Cooking Stoves."

in the counties of Cumberland and Dauphin; and being entirely convinced of the great superiority of this over all other kinds of Cooking Stoves now in use, they will continue to set them up as heretofore practiced by Messrs. E. Robinson & Co., on trial with all persons who are willing to test their superior excellence.

For the information of those who are not acquainted with the advantages of the Hot Air Cooking Stoves, we submit the certificates of some of the many highly respectable gentlemen who have favored us with their written opinion of the merits of the article.

Carlisle, November 9, 1841.

Messrs. E. Robinson & Co.—GENTLEMEN:—The Hathaway Patent Hot-Air Cooking Stove has been used in my kitchen for some months. I have never had any complaint from it, and I prefer it to the ordinary kind. It is represented as baking remarkably well, and as being a saving of fuel. The circulation of the heat so extensively after it is generated, and before it escapes by the pipe, must lead to this result. There is a great convenience in the use of it, from the numerous and various implements employed about it in cooking, at the same time.

JOHN REED.

Carlisle, November 9, 1841.

Messrs. E. Robinson & Co.—GENTLEMEN:—I have had sufficient time to try Hathaway's Patent Hot-Air Cooking Stove, and I am prepared to certify to its good qualities. I find that large quantities of water can be heated with it in a short time; that for cooking it boils, roasts meat, and bakes bread. The provision in this cooking stove for baking bread is the only arrangement I have ever seen in an article of the kind, and all calculated to accomplish that object. The simplicity of its arrangement is its great recommendation; the entire heat is applied to the purpose intended, and I verily believe a great saving of fuel is effected. Comparing the Hot-Air Cooking Stove with the much celebrated Rotary, the latter is insignificant and a toy, incapable of any thing but boiling. I am of the opinion that no arrangement of iron can be made to supersede the Hot-Air Cooking Stove; nor can I suggest any improvement.

A. McDOWELL.

Harrisburg, November 11, 1841.

Messrs. E. Robinson & Co.—GENTLEMEN:—According to your request, I have given one of Hathaway's Patent Hot-Air Cooking Stoves a thorough trial, and in my opinion think it one of the best now in use. I have had a Rotary stove in use for several years, and am decidedly in favor of your stoves—they do not consume as much fuel as the Rotary, and are better adapted for baking, and equally as well for any kind of cooking.

Your's with respect,

VAL. HUMBEL, Jr.

I do certify that I am now using one of Hathaway's Patent Hot Air Cook Stoves, No. 3, and do recommend it as superior to any stove I have seen. The great saving of fuel and the variety that can be cooking at the same time, makes it an object to those who wish to facilitate the operations of the kitchen.

GULBRICKSON.

Gettysburg, September 6, 1841.

I have in use in my kitchen one of Hathaway's Patent Hot Air Cooking Stoves, and can recommend it as a very superior article. The one I have is No. 3, it has 6 boilers and an oven sufficiently large to bake 6 loaves of bread. The baking, roasting and boiling, can be done at the same time and I have ever used. This stove appears to be particularly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasure in showing the stove to those who wish to see it.

S. WUNDERLICH.

Carlisle, September 12, 1841.

Messrs. E. Robinson & Co.

Gentlemen:—I have fairly tested the "Hot Air Stoves" which you put up at my house and can recommend it as possessing principles of economy and convenience for surpassing any other stove which I have ever seen. The boiler coming in immediate contact with the fire gives it great facilities for boiling, and the oven is heated on such a principle that bread is baked in a fine manner as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adopt it.

M. McCLELLAN.

Carlisle, September 12, 1841.

Messrs. E. Robinson & Co.

Gentlemen:—I have during the few days I have had your Hathaway Hot Air Stove in use become convinced of its great superiority over all other stoves I have used or seen—I find by the trial that boiling, roasting, baking and broiling may all be done at the same time, in a most perfect manner and with less than one fourth the fuel I have ordinarily used for the same purposes. I have heretofore been of the opinion bread could not be well baked in a Cook Stove, but I am convinced upon trial that it can be done as well in your stove as in a brick oven. I believe that the general introduction of your stoves into use will be very beneficial to the public, therefore I shall take pleasure in recommending it to my friends.

VALUABLE MEDICAL PREPARATIONS

are calculated to produce more real good than can possibly result from the use of any others, for several reasons.—They are not recommended to cure all, and every disease, as is generally boasted of other preparations, (which the most ignorant must be aware cannot be, as different diseases require different medicines,) but each of Dr. Leidy's Medicines are recommended and adapted to different classes of diseases. They do not contain Mercury or the minerals which are combined with most, if not all, other preparations in use. They are perfectly safe and pleasant to take, containing nothing offensive or deleterious, but being composed of Vegetable Extracts—may be employed by young and old, male and female, at all times, and under all circumstances, without restraint from occupation, temperate or moderate living. They are the preparations of a Regular Druggist, (Dr. Leidy,) also Physician, attested by the most distinguished Physicians of the United States, among whom are, Dr. P. S. Physic, Dr. R. Pomeroy, Dr. W. G. M. Dr. S. Jackson, Dr. W. H. H. H. Dr. W. P. Dewees, Dr. T. C. James, Dr. J. Redman Coxe, Dr. R. Hare, &c., &c.; also, by the Rev. W. H. DeLaney, Robert Adams, L. L. D., J. L. Biddle, Esq., and numerous others. They have been employed, in innumerable instances, with the most unexampled success, as thousands can testify, among whom are the principal officers in Washington City, Members of Congress, of the State Legislatures, many of the Clergy, &c., &c. (See certificates and recommendations, accompanying the directions with each Medicine.)

Dr. Leidy's Medicated Extract of Sarsaparilla.—The strongest preparation of Sarsaparilla in existence. One Hundred Dollars will be returned for a preparation equal to it. One Bottle (which is equal to six quarts of the strongest Syrap of Sarsaparilla that can be made.)

Who does not know of Dr. Leidy's Blood Pills? A component part of which is Sarsaparilla. The reputation of Dr. Leidy's Sarsaparilla Blood Pills is so well known, that comment upon their virtues is almost unnecessary. Suffice it to say, that they are the best in existence, and that their use is necessary to their success.

Their efficacy, in one case, is a sure introduction and passport of them to a thousand. Five years employment of them throughout the United States, have made them as the y-axis to be victorious. With the Proprietors and Manufacturers of these Pills, have been endeavoring to introduce their pills, publishing columns of matter and boot-terring them up by made, false, lying certificates, and attributing to their pills the powers of effecting every thing, barely excepting the restoration of the dead to life.

Dr. Leidy has allowed his Blood Pills to become known by their effect; thus establishing for them a character, that can never be taken from them, and which is proof incontrovertible of their qualities. Most other pills have gone out of use since their introduction, many have fallen into deserved disrepute, and some are now as unknown as if they had never existed. It is not the least of our pleasure, to have the public in various ways to introduce their pills, publishing columns of matter and boot-terring them up by made, false, lying certificates, and attributing to their pills the powers of effecting every thing, barely excepting the restoration of the dead to life.

COUGH LOZENGES

THE GREAT OBJECT GAINED.

DR. PETERS' MEDICATED LOZENGES FOR SUGAR DROPS. Medicine made pleasant and effective in soothing disease. One of the greatest discoveries that distinguishes the 19th century, is the combination of medicine in-accentuated form with sugar; making a compound certainly pleasant to the taste.—By this means, the revolting emulsion produced by swallowing mucous medicines, which operate powerfully to aggravate disease, is entirely avoided, and the medicine is left to contend with the disease alone.

PETERS' MEDICATED LOZENGES are the result of long and patient experiments, made by some of the most distinguished Physicians in the Union, with a view to the formation of a safe, cheap, pleasant and certain remedy for complaints most prevalent in this country, and they have the satisfaction of assuring the public that their success has far outstripped their most sanguine expectations.

To Parents it is recommended to keep these medicines at all times on hand. Your children will eat them as readily as the most palatable Candy, and they will be benefited by the Lozenges, and care should be observed to follow the directions, lest, being so pleasant, they should eat too much.
