

BRANDRETH'S PILLS.
Public will please take notice that no Brandreth's Pills are genuine unless the box has three lines of gold, (the top, the side, and the bottom), each containing a fac-simile signature of my hand-writing, thus—*B. Brandreth, M. D.* These labels are engraved on steel, beautifully designed, and done at an expense of \$2000. Therefore it will be seen that nothing is so necessary to procure the medicine in its purity, as to observe the labels. See if the box has three lines of gold, engraved.

Remember, the top, the side and the bottom. The following respective persons are the authorized holders of Certificates of Agency, for the sale of Brandreth's Universal Vegetable Pills, in Cumberland county.

GOLD SETTLED ON THE LUNGS is a very common complaint, and can immediately be removed by Dr. Duncun's Expectorant Remedy. This disease produces much suffering and distress, and finally becomes alarming on account of its threatening severity. Physicians are sent for, and medicine prescribed, but no effect, when they at once pronounce the lungs to be entirely gone, and the case hopeless; that the patient must die of CONSUMPTION. In this lingering situation thousands are left under the mistaken idea of their disease ("to be Consumption") when it is nothing more than a "Cold Settled on the Lungs," when the patient is thus neglected, and the lungs actually become diseased. Why is it that so many (pronounced) hopeless cases have been restored to perfect health? The reason is very plain and obvious. They commenced using Dr. Duncun's Expectorant Remedy, and when the lungs were not entirely gone they finally recovered. A fair trial of this Medicine will convince all of this fact.

FRIDLEY & ROBINSON.

Tin, Copper-smith & Stove Business.
JACOB FRIDLEY & ELEAZER ROBINSON having entered into Co-Partnership, in the Tin, Copper-smith and Stove Business, under the firm of **FRIDLEY & ROBINSON**, respectfully inform the public that they intend carrying on their business in all its branches, at the old stand of Jacob Fridley, North Hanover street, Carlisle; where they will, at all times, be prepared to serve purchasers with any article in their line, on the most reasonable terms.

In addition to all other varieties of stoves, which they will constantly have on hand, they have purchased of Mr. J. C. Hathaway, the exclusive right to manufacture a

Hathaway's Patent "Hot Air Cooking Stoves" in the counties of Cumberland and Dauphin; and being entirely convinced of the great superiority of this overall other kinds of Cooking Stoves now in use, they will continue to see them up as heretofore practiced by Messrs. E. Robinson & Co., in conjunction with persons who are willing to test their superior excellence.

For the information of those who are not acquainted with the advantages of the **"Hot Air Cooking Stoves"**, we subjoin the certificates of some of the many highly respectable gentlemen who have favored us with their written opinion of the merits of the article.

Carlisle, November 9, 1841.
Messrs. E. Robinson & Co.—GENTLEMEN:—The reputation of your **"Hot Air Cooking Stoves"** has been in my kitchen for about two months. I have inspected and examined the principles upon which they are constructed. I have also made a particular inquiry into the mode of their operation, and I am very favorable in opinion in regard to the article. It is represented as baking, broiling, and as being a saving of fuel. I have used it, and before it escapes by the chimney, and before it is cooled, it is a great convenience. It is from the numerous and various certificates employed about it in cooking, that I am induced to give you my opinion.

J. C. DOWELL.
Messrs. E. Robinson & Co.—GENTLEMEN:—I have had sufficient time to try your **"Hot Air Cooking Stove"**, and I put up in my kitchen, and am prepared to certify its good qualities. I find that large quantities of water can be heated with it in a short time; that it cooking it boils, roasts meat, and bakes bread. The provision in this cooking stove for baking bread is the only arrangement I have ever seen upon the kind, and it is so calculated to accomplish that object. The simplicity of its arrangement, and great economy of fuel, the entire heat is applied to the purpose intended, and I verily believe a great saving of fuel is effected. Compare the **"Hot Air Cooking Stove"** with the usual mode of cooking, the latter is so inefficient and a total waste of fuel, that I do not butting. I am of the opinion that no arrangement of iron can be made to supersede the **"Hot Air Cooking Stove"**, nor do I suggest any improvement. Your own servant,

J. C. DOWELL.
Harrisburg, November 11, 1841.
Messrs. E. Robinson & Co.—GENTLEMEN:—According to your request, I have given one of your **"Hot Air Cooking Stoves"** a thorough trial, and in my opinion, think it one of the best in use. I have a **"Robby"** stove in use for several years, and am decidedly in favor of your stoves. They do not consume much fuel as the **"Robby"**, and are better adapted for baking, and equally as well for any kind of cooking. Your's with respect,

VAL H. JEMMEL, Jr.
I do certify that I am now using one of Hathaway's Patent **"Hot Air Cook Stoves"**, No. 3, and do recommend it as superior to all stoves I have seen. The great saving of fuel in this stove, that can be cooking at the same time, makes it an object to those who wish to facilitate the operations of the kitchen.

J. CULBERTSON.
Chambersburg, September 6, 1841.

I have in use in my kitchen one of Hathaway's Patent **"Hot Air Cooking Stoves"**, and can recommend it as a very superior article. I have used it for the purpose of baking bread, and for roasting and broiling, and can do at the same time, and with much less wood than required by any stove I have ever used. This stove appears to be peculiarly adapted for Farmers, and for the benefit I write to you, and see this stove used, as I shall take pleasure in showing the stove to those who wish to see it.

W. W. WUNDLICH,
Carlisle, September 13, 1841.

Messrs. E. Robinson & Co.
Gentlemen:—I have fairly tested the **"Hot Air Stove"** which you put up at my house, and can recommend it as possessing principles of Economy and convenience far surpassing any other stove which I have ever seen. The boilers come in immediate contact with the fire gives it great facilities for boiling, and the oven is heated upon a principle that bread is baked in as fast as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adopt.

M. MCLELLAN.
Carlisle, September 12, 1841.

Messrs. E. Robinson & Co.
Gentlemen:—I have during the few days I had your **"Hathaway Hot Air Stove"** in use been convinced of its great superiority over all other stoves I have used or seen—I find by the use of a boiling, roasting, broiling and broiling may all be done at the same time, in a most perfect manner, and with less than one fourth the fuel. I have of course been of the opinion bread could not be baked in a Cook Stove, but I am convinced upon trial that it can be done as well in your stove as in a brick oven. I have also found that the general introduction of your stoves into use will be very beneficial to the public, therefore I shall take pleasure in recommending it to my friends.

COUGH LOZENGES.

DR. PETERS' MEDICATED LOZENGES FOR SUGAR.

Medicine made pleasant to the taste, and effective in subduing disease. One of the greatest discoveries that distinguishes the 19th century, is the combination of medicine in a concentrated form with sugar, making a compound certainly pleasant to the taste.

By this means, the revolting sensation produced by swallowing nauseous medicines, which operates powerfully to aggravate disease, is entirely avoided, and the medicine is left to contend with the disease alone.

PETERS' MEDICATED LOZENGES are the result of long and patient experiments, made by some of the most distinguished Physicians in the Union, with a view to the formation of several safe, pleasant and certain remedies for complaints most prevalent in this country, and they have the satisfaction of assuring the public that their success has far outstripped their most sanguine expectations.

To Parents it is recommended to keep these medicines at all times on hand. Your children will eat them as readily as the most palatable candy.

Coughs—Children usually cry for Peppermint Lozenges, and care should be observed to follow the directions, lest, being so pleasant, they should eat too much.

PETERS' CORDIAL LOZENGES—Are a specific for the relief of the nervous or sick headache, loss of spirits or melancholy, languor and debility, either from previous disease, or too free living, tremors, spasms of the stomach, irritability of the nerves, hysterical affections, drowsiness, cholera morbus, sense of fatigue and palpitation of the heart. From their efficacy in the relief of the headache, they are called by many the Headache Lozenge.

Price, 25 cents per box.

PETERS' COUGH LOZENGES—Are now rapidly superseding all other preparations for the relief of Coughs, Colds, Asthma, Whooping Cough, Catarrh, tightness of the Chest, Bronchitis, and other pulmonary affections. It is now well established that a large proportion of cases of Consumption, by which so many valuable lives are annually sacrificed, owe their origin to the neglected colds and coughs, which might easily have been removed at an early period. No medicine will be found so efficacious in curing such cases as these Lozenges. They infallibly allay the cough, by removing the irritation which keeps it up, while at the same time they promote expectoration, and relieve congestion. Price, 25 cents per box.

PETERS' WORM LOZENGES—Are acknowledged by the Faculty of the University of Edinburgh to be the most effective and safe preparation for the cure of worms in children. There are several medicines offered to the public in such cases, but they have proved so uncertain and worthless, as to have lost all confidence with the public. Some of them, indeed, are so violent in their operation, as to frequently lead to fatal results. Five patients therefore, is a constant attendant upon the use of these Lozenges, while they will be found to be perfectly safe, will at the same time never fail, where worms are present, to destroy them.

SYMPTOMS OF WORMS.—These are headache, vertigo, paleness of the lips with flushed cheeks, grinding the teeth during sleep, disturbed dreams, sleep broken off by fright and screaming, convulsions, feverishness, thirst, bad taste in the mouth, excessive flatulence, cough, difficult breathing, itching of the nostrils, pain in the stomach, nausea, superfluity of saliva, diarrhoea, tenesmus, slight chills or shiverings, drowsiness, fatigue, swollen stomach or limbs, rising and choking in the throat, &c.

TO THE READER.—History of the Origin & Progress of Peter's Medicated Lozenges. About a year since, the Proprietors, from a conviction of the utter worthlessness and deleterious nature of a large proportion of the medicines offered to the public as specifics in the cure of coughs, colds, worms, measles, Fever and Ague, &c. &c. conceived the plan of getting up medicines in a palatable and unobjectionable form, which would be the aggregation of each kind, and do away with the increasing evils consequent upon the use of such pernicious nostrums. For this purpose, he compounded several kinds of medicated lozenges, specifying the uses for which each was intended, and the indications which they had been found to fulfil. These, together with the exact composition of each kind, were placed in the hands of six distinguished physicians, who were requested that each would thoroughly try them in their practice, and report to me their several opinions of their merits, with such remarks in regard to their composition as their experience might suggest.

After a trial of several months, their opinions were collected in, and in general, I found that their conclusions corresponded very closely with my own. Some trifling alterations were made in the composition of some of the articles, since which time they have been employed with entire satisfaction, and with the most gratifying results. The public, it is believed, will fully appreciate the importance of having access to medicines, whose efficacy has been fully tested by the hands of six distinguished and fearless physicians, or by manufactured certificates.

These medicines are now prepared in a form suitable for transportation, and in a manner that will insure them from injury from time and climate, accompanied with suitable directions for use, in the English, German, French and Spanish languages.

PETERS' VEGETABLE SHILLING STRENGTHENING PLASTER.—This is not only the cheapest, but the best, neatest, and most comfortable plaster in existence.

Peters' Shilling Plaster is the most effective remedy for pain in the breast, side or stomach, weakness or pain in the chest, loins or back, stiffness of the neck, affections of the limbs or joints, whether produced by rheumatism or other causes, habitual pain of the head or stomach, piles, colds, coughs, liver complaints, weakness of the spine, predisposition to break out in rashes and pimples, listlessness of the frame, and for general debilitation.

Let any person afflicted as above try one of Peters' Shilling Plasters, and we will venture to say that he could not be prevailed on to discard it again, for ten, or most probably for a hundred dollars. Price, only 12 1/2 cts.
