than you are. You have been freated just as you descree." And following this outburst of federal sympathy and federal consolation; the whole baud strike up a Jubile scong, over the fullen here. And there lays the Brave, hereic, dying Taggert, the warm blood gushing from his death wound—the smoke of baltie hovering over him, the clash of arms inging in his ears, and ultering a prayer for the idear immales of his new descalate home. What his opinion of the base wretches who saddened his uying hours by their presence and imprecations? We will permit the reader to conjecture this for himself, as also whether the dead man's packets would be safe in such company.—Easton Argus. would be safe in such company .- Easton Argus.

INTEGRITY. Cist's Cincinnati Advertiser has the following unecdute relative to Gen. Reese E. Price, who is remarkable for his punctilious honesty, and for the observance of the precept, "owe no man anything." Mr. Cist says :

by those who know that manufactions, and not do the fact. A variety of propositiona word made by me, but they did not serve to remove his scruples or cover the case. I offered finally to for-give the deht. This did not holp the difficulty in his view of it. He became perfectly nervous, and rushed out of the office in what seemed to me a fixed duccertion. fit of desperation.

I saw no more of the Gen. until late in the day, I saw no more of the Gen. until fait in the day, twhen he returned, apparently exhausted with faiting on the day in the day of the distribution of whole day collecting one dollar, in that pur-. He had not eaten a mouthful since he left

Street, Philadelphic, and at the stous of
certain stars would be 9000 longues in diameter - cyau to 27,000 times greater diameter than the sun; and the most moderate calculation would be 1700 millions. Herebel's last calculation was that Are- iturushad-diameter of nearly four millions of longues- welve millions of miles. If the apparent diameter of two seconds and a half, assigned by Horschel to the Goal, was real, the mass of that star must be more than fourteen millions times greater than that of our sun. But there is no certainty in this, nor mything to question that our sun is a star. The billion deal in the Holy Scriptures that the Creater and all with number, weight and measure, is followed by Plato, who called it the geometry of the heavens. Halley, the friend of Newton, believed hat all stars were of the same magnitude-that of our sun; and that difference of distance only caused the heavens that for stars. The number of stars vial- by means of a tolescope of 20 feet of focal distance have by means of a tolescope of 20 feet of focal distance have by means of a tolescope of 20 feet of focal distance have by means of a tolescope of 20 feet of focal distance have be uncer than five hundred millions. It is af- med by M. Arage that there are certainly stars in the firmament whose distance from the earth is 344 and even 900 times greater than that of the stars tilds to the naked eye. See what a conclusion this leads auto 1. It is admitted that light, with the ve- tore are stars whose light does not reach us unti- there are stars whose light does not reach us unti- there are stars whose light does not reach us unti- there or stars whose light does not reach us unti- there two thousand seven hundred years—an infinity in distance as it is in numbers. A CHAWER OF MIND.—The Ohio State Journell a whig paper, speaking of the productiveness o the Western Sintes, says: "Give us but have sugger the world for a mark set, and no rostricions—and we might almost un ortake to supply the world with bread." This call for free fr	not less than seventy thousand dying annuals white dorangements of the stomach and Lowels alone Does not every feeling of our nature become enlisted in the humane desire to lessen this frightful mortali- ty, are we not bound by every principle of religion to administer relief when in our power; and we dis- charge our duty when we point out the gratest re- medy over yet discovered, for this purpose, to the public. If there is one, or if they have a friend, er a child, or a neghbor, who may chance to read this notice, that is suffering with Diarrhoea, Dysentary, Cholera Morbus, Summer Complaints, Colic, Flau- lency, &c., &c., then let them, try Dr. Koeler's Oor- dial and Carminative, and we guarantee a speedy cure: Lancastor Co., Neffville, Dec. 11, 1848. Dr, Keeler-Sometime last summer your agent left me some of your Infant Cordial and Carminative, urging me to try it. It so happened that I had a case, a young child about six months old, whose sto- mach and bowels were ma very disordered condition, consed by a deficiency of its mother's milk. The child was a mere skeleton, there was much termina, tonesmue and constant evacuations. I administered avery medicine I could think of, with but a slight al- leviation of the complaint. I then thought of giving your medicine a trail commoncing with small doess? I soon however preceived the child could hear a full dow as recommended in directions, before it had taken half a bottjo, the stomach and howals had reo. '' Have no hesistich in asying that your medicine is the very best for the above complaints I have ad- ministered in a 21 years' practice. '' Kay respectfully, your friend.''
