Thomson's Compound Syrup of Tar and Wood Naptha will cure Consumption YET ANOTHER CURE!

PHILADELPHIA, April 9, 1846.
Last August a year I caught a violent cold in
onsequence of getting wet in a shower of rain. A consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great oppression from the shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alermed, and my friends considered my situation extremely critical, the more so as loss of appetite, hectio fover, and night sweats rendered me as weak as a child. At night the sweat literally poured off me! This was my condition when I commenced using "Thomson's Compound Syrup of Tarand Wood Noptha." I procured one bottle; and experienced so muc. benefit that I resulved to continue it. I took in all nine bottles, and an now perfectly restored. It is now six months since I ceased using estored. It is now six months since I ceased using the medicine and the cure remains perfect. I firmly elieve this medicine is far superior to every remedy

or consumption of the Lungs.

The above named gentlemen, (constituting hut a small portion of those who have visited Mr. Brocks at our office in Philadelphia, and would certify to the same acts if necessary) are well known, and their high standing in society precludes the idea of their londing their names to carry on an imposition.

And here we say, without the fear of contradiction, that we have not found a case of Scrofula or other disease for which we recommend the Panacea, which the medicine has not speedily arrested.

We have at this time a multitude of philants and the reatment, all of whom are doing well.

Among them is one of CANCER, which was precaded assistance, but from all appearances will be used in a few months.
