P. S.—I have this moment learned that official reports have been received in town that the number of Mexicans engaged in the late battle was 1850. So you may judge for yourselves of the gallant defence of 120 men against such odds. I had nearly forgotten to mention that we lost thirty horses killed in the Р.

Yours, in hast,

# FROM VERA CRUZ.

## GEN. SCOTT AT PUEBLA. PEACE COMMISSIONERS APPOINTED BY THE MEXICANS.

SANTA ANNA BELIEVED TO FAVOR PEACE. The following despatches received from our corres pondent at Richmond, brings important news from Moxico. Poace commissioners, it will be seen, have been appointed. Gen. Pearce has set out on his march A report by the passengers from New Orleans, says he has had a battle and defeated the Mexicans, but this does not appear to be confirmed by the authentic accounts received.

RICHMOND, VA., July 30. Arrivals at Now Orleans bring Vera Cruz dates to the 18th inst. Gen. Pearce had taken his departure for Gen. Scott's head quarters, with 2500 men, and encountered a Mexican force of 1440 Mexicans near the National Bridge, which was defeated with a less of 150. Gen. Pearce had returned to Vera Cruz for wind recognition.

cintercoments.

Gen. Scott was still at Puchla, and Gens. Cadwalaer and Pillow at Perote. The Mexicans had been der ann Fillwag at a defeated at Lalloya.

Two commissioners had been appointed by the Mexican government to confer with Mr. Trist.

Santa Anna was now believed to be favorable to

of the 12th July, which states that the Mexican Congress had not then acted on the peace proposition, or found a quorum. The Picayune, however, states that the Courier has made a mistake. That the pipers they have received are to the 12th of July—and what they publish is old news. With regard to the peace proposition the Picayune adds:

"We believe, then, that Mr. Trist has in some shape succeeded in commencing negotiations, in part shape succeeded in commencing negotiations, in part because of the statements already alluded to by the news, said to be from papers of the city of Mexico

adds:

"We believe, then, that Mr. Trist has in some shape succeeded in commencing negotiations, in part hecause of the statements already alluded to by the Vera Cruz papers upon the appointment of commissioners. Where there is so much smoke there must be said for?"

## VERA CRUZ.

The following extract from a letter in the Hartford Beler Gal'n Times contains some incidents of camp life in the Bretz Pet neighborhood of Vera Cruz:

neighborhood of Vera Cruz:

CAMP TWIGGE, VERA CRUZ, July 2, 1847.

Here we are, about 2,500 of us, encamped on the sandy shores; within sight of Vera Cruz, and about litree miles from it, with the open sea for our front, and sandhills covered with chapperal for our rear.—
We have all sorts of tropical fruit for wale in camp, for which they charge an enormous price. I allow layself to cat none of it, with the exception of bandanas, which taste very much like our mushmellon. If a man is sick of this life, all he's got to do is to that a piece of pine apple and drink'a glass of brandy to top it of, and he'll not have time to make his will after it.

The the local of the state of the state

after it.

To the left of our encampment is an enclosur containing about 1,500 mules, mustangs, and horses, which are being trained for our baggage trains.

It is amusing to see our New England boys undertake to train the mules. They are obstinate at first, but when once trained are a faithful creature.

The rainy season has commenced, and the rain plours down in perfect torrents. It is well that I have a floor in my tent, and that raised about eight inches, for the water is about six inches deep all over the camp; and such lighting and thunder you mayor.

inches, for the water is about six inches deep all over the camp; and such lighting and thunder you never saw or heard in Connecticut. The health of the 9th regiment is very good, considering the changes of water and manner of living. Cases of diarrhosa are in abundance, but no bad results. The sun is oxtremely hot at mid-day; we do not protend to go out of the between the hours of 9 and 4 without a wet cloth in the top of our cure; and soldom at that. There are more doaths caused by heat than otherwise. There were four deaths in the 14th regiment yesterday; one dropped while on post as sentinel.

Night before last we had three alarms; the pick-guardwas driven in by a party of ranolugous, who are horering around our camp (within three miles, and sometimes within sight) daily. Our rifle company was sent out to reconnoitre; we saw a party of about twenty, and chased them nearly four miles, with no success; they are not to be caught so casy;

The company will seat in a few days on an exploring expedition, under command of Muj. Soymour, who, by the way is well and in good spirits, as is also Capt. Webb.

All intercourse between here und Puebla is cut off
