NO FURTHER MODERATION. The Washington Union of the 4th, has the following, which indicates that the policy of the war is hereafter to be changed. Mercy and Moderation have been found to unavailing with our foce, and the We hasten to tay before our readers the result of people who sustained the administration in earrying he election in this county so far as heard from. It on its late highly magnanimeus course, will rally

"We understand it has been determined by the government to make no further overtures of peace on our part. When Mexico wants peace hereafter, let her sue for it. We are now in the peacession of her district, it will be seen, exceeds Gov. Shunk's.

We think we are safe in saying (in the absence of full returns,) that the majority for Shunk and Longsterth in old Cumberland will be near 400. Our streth in old Cumberland will be near 400. Our Ticket is elected from top to bottom, by a majority of from 400 to 500!

The Democrats of Cumberland have covered themselves with glory. The most infamous means over resorted to by a desperate and corrupt party were used against us, but without avail. The vote in the country has been unusually large—both parties turned out in their strength. A thousand guns therefore for old Mother Cumberland, for, "as goes Cumberland so goes the State!"

Below we give the majorities so nues rendered tributary in every practicable manner to the support of our occupation and government."

The Union adds, that there are ample mans in the

reasury (thanks to the operation of the tariff of 1846) for the most vigorous prosecution of the war, ncluding the organization, equiptment, transportation, &c., of all the new troops required; until some time after the meeting of Congress.

THE REVENUE.

We publish a letter says the Washington Union, from the Secretary of the Treasury in reply to a communication of Mr. Barksdale, by which it appears from the books and accompanying statement of the Register of the Treasury, that the Interproceeds of the first nine months, from duties under the tariff of 1846, exceeds by more than three millions of dollars the nett proceeds of the corresponding nine months under the tariff of 1842. It appears, also, that the rate of augmentation is progressive; and that if the nett revenue from duties for the remaining months of the fiscal year closing on the 1st July, 1848, is in the same rate for the unexpired term as for the first two months of July and August, then the nett revenue from duties for the first entire fiscal year under the tariff of 1846, would be \$45,344,469. Walker estimated it at the sum of at least \$28,000,000; and that minimum estimate was declared by whig senators to be ridiculously large. Their estimate was from sixteen to twenty-one millions as a maximum. The most important part of the tokale result is, that the exports lave increased in a corresponding rate; thus verifying the theory of the Secretary, that the exports would equal our imports.
