to believe, that it will be governed by wise and benificent laws, and that it will be inhabited by a peo ple far more contented and happy, than the subjects of the fickle military power that now misgoverns that country: The Democracy fear not to extend "republican institutions." They have no doubts about the capacity of the people to govern themselves -and this constant comparing our own happy coun-try, and our own glorious institutions, to the miserable

military despotisms of the dark and middle ages; or even to the spanmodic governments of France about the period of her revolution, when the people of that country had been debased for ages, by subjection to arbitrary power, shows the depreciated idea that those who use such comparisons, have of the glorious iberties we as a people enjoy. In promulgating such doctrines, Mr. Clay will find

ebellious spirits among those who have heretofore ocen his warm party friends. He will find some Turke among those whom he would place on a level with the wild Macedonians, the garrulous Greeks, the tyrannical Romans, or the French Sans Culottes

We therefore close this subject by leaving Mr. Clay to do battle with some of his own party friends NR. CLAY AND THE MEXICAN WAR-No. 4.
