REAT IMPROVEMENT IN THE DA CREAT IMPROVEMENT IN THE DA-T GUERREOTYPE ART.—M. A. ROOT'S Daguerreotypes, 140 Chestnut St. HIPLADEL-PHIA, having been pronounced superior, in the cities of Europe and the United States, and been just awarded in the city of N. York the GREAT PRIZE of "the FIRST MEDAL for the BEST DAGUERREOTYPES," again calls attention to his later and still more valuable improvements. This last is thus noticed by the Evening Bulletin.

last is thus noticed by the Evening Bulletin:

.The True Light. A. Root, the great Daguerreotypist of this city, has fitted up a room in the third story of his establishment, expressly to obtain the manifest advantage of the northern light. The light from that direction is necessarily sought by all paint-ers, because of its firmness and uniformity, and himself of this aid, to correct shadows.

The Boston Atlas speaks of the portraits by the distinguished Daguerrectypist, M. A. Root, and was astonished to find that the art had been carried to such a high degree of perfection. Mr. Root, by some new chemical discoveries, has been enabled to transfer the human countenance to the Daguer-

Philadelphians, to learn that Mr. Root took the medal and highest premium for his superb pictures both in New York and Boston, over all competition. This is indeed a great triumph! Root's pictures are as near perfection as it is possible to get. There is thought, delicacy, finish, and the highest degree of artistic excellence in them."
