Family Medicines.

THESE Preparations are the result of long experience and extensive practice. Great science and skill are used in their manufacture, and such are their efficacy and safety in every form of disease, that they truly deserve the name of Family Medicines. Durable, practical, more than two years ago, one of which were on board various public vessels, as Assistant Surgeon in the United States Navy, he has never had a case of severe cold, influenza, or any disease of the throat, that has not readily yielded to his Pulmonic Mixture. Thousands have been saved from a premature grave by its use. To public acceptance and persons of weak lungs it is a great remedy, as it allays irritation and gives tone and vigor to the voice.
DR. TRAPHAGEN'S PULMONIC MIXTURE
has cured and is warranted to give relief in all cases of colds or coughs, bronchitis, influenza, hoarseness, throat, catarrh, asthma, liver complaint, spitting blood, croup, whooping cough, consumption, and every disease with which the throat, breast or lungs may be affected.
The following certificates, from persons of character, will show what the Pulmonic Mixture is capable of performing. No family should be without it in their house.
New York, Nov. 4, 1847.
This is to certify that I had a severe attack of Bronchitis and pain in my back for a long time, and I used only three bottles of Dr. Traphagen's Pulmonic Mixture, and it relieved me in a few days.

CONSUMPTION,

Dr. Drake's Panacea,
THE ONLY RADICAL CURE FOR CONSUMPTION!

ALTHOUGH the great fatality of Pulmonary Disease, at this time shows that there are persons in the community who are afflicted with this disease, and that there are persons in its progress, which having once been reached, recovery is doubtful. Still no one should despair. The writings of physicians, who have given many recorded cases of recovery when the patient had reached a seeming hopeless stage of the disease; and the fact that many persons have recovered from this disease, and that there is a remedy prepared, which has met with the most triumphant success in the most obstinate forms of Throat and Pulmonary diseases—so as to have obtained the sanction and employment in the practice of many physicians.
It is now known that Thomson's Compound Syrup of Tar and Wood Naphtha—the preparation of one of the most valuable vegetable essences, which has met with the most successful results in the treatment of Throat and Pulmonary diseases—so as to have obtained the sanction and employment in the practice of many physicians.

Messrs. ASKNEY & DICKSON—Gentlemen—Having recommended in my practice, and used in my own family, Thomson's Compound Syrup of Tar and Wood Naphtha, I have no hesitation in saying that it is one of the best preparations of Tar, which I have observed in severe coughs and consumptions. But in the above preparation, beside some of our most valuable vegetable essences, there is combined with it the Wood Naphtha, a medicine but lately introduced, but which has been used in England, in pulmonary consumption, especially of a tuberculous form.
