"Subject to this test, who can doubt that Texas in had the ability to maintain her title to any part of g the territory claimed by her between the Nucces and the Rio Grande? Let the facts give the answer.— After her declaration of independence, and after she had by force driven the Mexican troops across the latter river, (the Rio Grande.) they afterwards re-turned but twice, and were each time driven back; and from the period of the last excursion in 1843, no Mexican soldier ever crossed the fiver, and no civil öfficer of Maxico ever excressed jurisdiction over that part of it to which our (Gen. "This language of Mr. Jshnson shows that he had broken hoses from the shackels of party. The act of May 13, 1846, (which he says he never would have voted for if he had not entertained the sentiments above expressed.) it will be recollected, in its preamabove expressed.) it will be recollected, in its preamble, said that the "war was commenced by the act of

If I have succeeded in show-ing that Texas extended to the Rio Grande, by the destimony of Moxicans, Texans, Domocrats, Whigs, and impartial geographers, who had nothing in pros-floctive to away or influence their opinions, and there are still doubters, the people will perhaps come to the conclusion so well expressed in Hudibrastic threas-
