

After the Battle.
The New York Tribune has an article upon the election and its results, of which the following is the closing paragraph:
"The first peril which awaits him is that of being worried to death by the importunities of the legions of office seekers, whom he will find a more formidable annoyance than all the Moslems he ever saw. We have faith, however, that he will not let them kill him; we hope he will not suffer his rest to be seriously interrupted by them. It is a comfort to be certain that the great majority of the greedy, forward, scrambling, pushing crowd must be disappointed. Very likely some unassuming, worthy, capable men, who do not think the party will be ruined if their claims are overlooked and who do not look to offices as a means of getting rich with little labor, will be appointed to comfortable places, which will be another consolation."

Quaker Result.—In all the places where Daniel Webster spoke in Massachusetts, the Free Soilers have majorities—the last place the largest of all.

Still Further Proof
Of the power and efficacy of Thomson's Compound Syrup of Tar in Consumption.
PHILA., March 1st, 1848.

I hereby certify, that in consequence of repeated neglected colds, my lungs, became seriously affected, and for a long time I have suffered with violent pain in the breast, obstinate cough, and difficult expectoration. The symptoms daily increasing in violence, I had recourse to various remedies, with no avail, until I used Thomson's Compound Syrup of Tar, which effected a perfect cure before I had taken three bottles.

Purify the Blood.
DR. KEEFER'S PANACEA,
FOR the removal and permanent cure of all diseases arising from an impure state of the Blood and habit of the body, viz:
Chronic bronchitis, catarrh, pleurisy, coughs, etc., scrofula of the face, neck, head, salt rheum, cutaneous eruptions of the head, face, body, and extremities, chronic diseases of the liver, stomach, and bowels, chronic rheumatism, chronic enlargement of the joints and ligaments, white swellings, hip-joint affections, abscesses, ulcers, syphilitic disorders, morbid and hereditary predispositions, etc.
Spring and summer fevers, agues, and autumnal malarial fevers, and all other diseases which arise in the season and all nature seems to feel the change that is stealing silently on. Man seems to shrink from the coming winter and prepares himself. But how is it with the individual martry to scrofula, liver disease, chest affections, rheumatism, or any of the numerous disorders which take their rise in the organs of digestion and so soon dry up the springs of life. How does he feel the changes!—What gloomy forebodings lie in the future?—The least breath of autumn reminds him that "deceitful as the morning" are already active in their work of desolation. He feels and knows that without relief

With his life's scenes will soon be o'er;
His beating heart will cease to beat.
But he the bounteous hand of nature scattered around us so readily to drive disease from the system and bring again the bloom upon the cheek. Must hours, days, weeks and months, be consumed in anguish and suffering? Our answer is emphatically No. The Panacea is a remedy of unsurpassed alternative powers, and will so far as human agency and foresight can go, drive disease from the system and restore it again to health. From the past we may judge of the future. What has once been done can be done again. From the many advantages conferred on the afflicted by the Panacea, all may reasonably hope for, and expect to derive benefits. Read the following evidence:

Having been afflicted with the nature of the Panacea, it affords me much pleasure to be able to recommend it as a valuable remedy for those chronic, constitutional and glandular diseases, to which it is especially adapted. Those who are afflicted and require medicine as an alternative, cannot obtain it in a more agreeable, active and uniform state, than is to be found in the Panacea. I have used it in several instances with decided success. Yours, &c.

CHARLES OGILBY.
RESPECTFULLY announces to the people in general, that he has just returned from Philadelphia, with a new assortment of the largest, cheapest, and most splendid stock of
DRY GOODS,
that has been brought to Carlisle since it has been a town. Owing to the great reduction in prices of many kinds of Goods, and a disposition to cut at small profits, he invites one and all to call and look for themselves before purchasing elsewhere. His stock of Goods consists in part of a large and general assortment of
CLOTHS,
from \$1 to \$6, Cassimeres from 50 cts. to \$1, 50¢ all colors; Sattinets very cheap, Cassimeres, Delaines, Gingham, Calicoes, of new and beautiful styles; largest and cheapest assortment of CAMBRAYS that he has had for years, Muslins of every description. Also, a large and well selected stock of
Boots, Shoes & Groceries;
and many other articles entirely too numerous to mention. Call and see for yourself—no charge for showing Goods at the old stand, a few doors east of the Market House.
Look out for the big Sign, big Windows, and big stock of Goods!
Carlisle, Sept. 21, 1848.

PLAINFIELD NURSERY,
And Pomological Gardens,
Five miles west of Carlisle, Pa., (Newville Road.)
NOW contains one of the largest and best selected assortment of FRUIT TREES, ever offered for sale in Pennsylvania, to which the subscriber wishes to call the attention of all lovers of the fruit. Planters will find it decidedly to their advantage to purchase of us, as we have an immense stock of the very finest large healthy trees of the best grafted varieties, such as can not be had elsewhere. Apples, Peaches, Pears, Plums, Cherries, Apricots, Nectarines, Almonds, Raspberries, Strawberries, &c., together with a splendid lot of Evergreens. All of which will be sold lower than ever offered heretofore. Apple trees vary in size, 10 to 14 feet high, strong stocks, perfectly formed heads, of bearing age, at 10 cts each. Ordinary good trees, as are usually sold at Nurseries, at from 5 to 7 cts each. Persons buying to sell again supplied at a liberal discount.
The fact that we are removing our entire stock to other grounds compels us to offer such extraordinary inducements to purchasers. Every tree sent from our establishment is distinctly labeled and carefully packed, so as to give the most entire satisfaction. Trees ordered by letter will be as carefully selected and packed as if the purchaser was present, and can be safely sent in thousands miles. Printed catalogues furnished gratis to all applicants. Valuable Town Property for Sale.
THE subscriber, who intends to move west, offers at private sale, the new and convenient Brick Dwelling House, back Building, and Lot of Ground, now occupied by J. B. Graham, in High street, a few doors west of East street, and adjoining property of George Sanderson on the west, and the widow Neider on the east.
The HOUSE is 22 feet deep by 24 feet front, is entirely new, and finished in the most modern and elegant style, and in point of design and convenient arrangement will compare favorably with any house of similar dimensions in the borough of Carlisle. It has two parlors with folding doors, dining room, kitchen and hall, on the first floor, all of very convenient size, and five comfortable chambers on the second floor. An excellent closet with pump is convenient to the kitchen door. The cellars of both the front and back buildings are dry, and the cellars of the front cellar has a large fire place, is floored and finished, and is convenient for doing all kinds of rough work.
The lot extends 197 feet back, with the privilege of a 16 foot alley, to a private alley extending from Mulberry alley south 28 feet between the property of George Sanderson and J. B. Graham, is under good fence, and contains a number of select and choice fruit trees, such as Peach, Cherry, Plum, Apple, Quince, &c.
This property is a most desirable place of residence, and is well worth the attention of those wishing a good and cheap property. For particulars enquire of the subscriber, residing in High street, Carlisle.

To Butter Makers.
THE subscribers having purchased the right of Cumberland county for making Crowell's Patent Thermometer Churns, they would respectfully inform the Farmers and the public in general, that they will make and offer for sale these churns at the Cabinet Warehouse, of George Spangler, in North Hanover street, next door to David Smith's office. The principal advantage this churn has over all other churns, is that it is so constructed that the top can be raised or lowered, so as to get the cream to the inside of the churn, which makes it convenient to put in Cream and get out the butter. A thermometer is attached to the one end of the churn so as to show the exact temperature of the cream, which experience shows should be 60 degrees to make good butter. A chamber or space is arranged around the bottom of the churn, in which the cream is allowed to stand or warm water, so as to bring the cream to the desired temperature without mixing the water with the cream. The secret in churning butter is to have your cream at the proper temperature—it will produce more and better butter and take less time in churning—it churns equally well in cold or warm weather, no such thing as having acidulated butter—all that is necessary to make good butter all seasons of the year is to get one of Crowell's Patent Thermometer Churns. We would most respectfully invite the public to call and examine for themselves.

CERTIFICATES.
Mr. George Spangler:
Sir—We have been using the Thermometer Churn I got of you for some time and find it far superior to the old barrel churn for several reasons. First, great saving of time in getting butter the average time of churning being about fifteen minutes, (all weather) you have got butter in the short space of ten minutes. Secondly, the butter which is much firmer than that being made in any other churn. Thirdly, my folks say they would not exchange for any other churn and twice the original cost of the Thermometer churn.
Yours, &c.

Mr. George Spangler:
I have the Crowell Thermometer Churn you made for me in use at my place, and I do not hesitate to say no farmer should be without it. Fifteen minutes is all the time required to make butter, and the value of this saving of time and labor cannot be estimated—that it requires no more time at any one season than another, and that the temperature of the cream; necessary to make butter, is produced with certainty and without the admixture of warm or cold water with the cream itself.

To the Public.
For the benefit of the better part of man (woman) I give this certificate after using the Thermometer churn made by Mr. George Spangler of this place. I will have none other in my family. We have been using the old barrel churn for thirty years past and I must say it is not to be compared to Crowell's Thermometer Churn, either for speed of churning or convenience. In the old barrel churn, it took generally from four to six hours to churn the churning now in the Thermometer churn we can churn butter from fifteen to twenty minutes, by bringing the cream to the proper temperature. It is recommended to the public as no cheat.
