of their industry and resources; there are in this, as in other cases, exceptions to the general rule. Besides, the condition which the theory itself implies of a reciprocal adoption of other nations; experience teaches that so many circumstances must occur in introducing and maturing manufacturing establishments, especially of the more complicated kinds, that a country may remain long without them, although sufficiently advanced, and in some respects; even, pecultually fitted for carrying them on with success.—
Under circumstances giving a powerful inpulsa to Under circumstances giving a powerful impulse to manufacturing industry, it has made among us a progress, and exhibited un officiency which justify the belief, that with a protection, nor more than is due to the enterprising citizen whose interests are now at stake, it will become at an early day not only sale against occasional competitions from abroad but a source of domestic wealth and even of external com-

And again:
"It will be an additional recommendation of pa ticular manufactures, where the materials for them are extensively drawn from our agriculture, and consequently impact and insure to that great fund of national prosperity and independence an encouragement which cannot fail to be rewarded."

President Monroe in his first inaugural address says:
"Our manufactures will likewise require the sys-

'Our manufactures will likewise require the sys-tematic and fostering care of Government. Posses-sing as we do, all the raw materials, the fruit of our own soil and industry, two ought not to depend in the degree we have done, on supplies from other coun-tries. While we are thus dependent; the sudden event of War, unsought and unexpected, cannot fa! to plunge us into the most serious difficulties. It is important too, that the capital which nourishes our manufactures should be domestic, as its influence in that care instead of sphenishing as it may be in for manufactures should be domestic, as its influence in that case, instead of exhausting, as it may do, in foreign hands; would be felt advantageously on agriculture, and every other branch of industry. Equally in portant is it, to provide at home; a market for our raw materials, as by extending the competition it will gation Companies;

32,500 00

chance the price, and protect the cultivator against the causualities incident to foreign markets."

His excellency, Simon Snyder, Governor of this Commonwealth, in his message of Dec. 8. 1815, says:

"The subject of manufactures, from full experience during the restrictive system and the war, is now so during the restrictive system and the war, is now so well understood, as respects the practicavility of advertised on the system and the war, is now so well understood, as respects the practicavility of advertised on the system and and quality and durability of the articles which have had a fair experiment amongst us, that it is deemed unnecessively to urge arguments in their support. The general government, fully aware of the importance of the subject, will, it is bonfidently hoped, follow the distates of political wisdem, and protect our manufactures against injurious foreign completition or combinitions a contrary course would protract the long and anxiously sought real independence of our country and again impose on us a dependence almost colonial."

His Excellence W.M. Finlay: referring briefly to the state of the system and finless.
