CONSUMPTION

OURED DAILY, BY DR. HASTINGS' COM-

imes of the surprising effects of

Dr. Haslings' Preparation! It has been thoroughly tried, not only in the Hospital under the charge of Dr. Hastings, in Location, but also by all the first physicians of England, and all have fully endorsed it as an unrivalled remedy in Consumption, and all other diseases of the Lungs. The following are a few of the opinions expressed by the Medical Faculty of England. Doctor Williamson of Manchester, they writes

son, of Manchester, thus writes:
"Under its influence, I have seen the emaciated being, on whose brow death had seemed to have set being, on whose brow death had seemed to have set his seal, acquire invigoration and strength—and exchange his early mornings of intones suffering and distressing cough for the calm repose which alone accompanies sound health."

Dr. Ware, of Liverpool, says:—"1 regard Hastings' Syrup of Naphtha as one of the first medical discoveries of any age, and consider its agency in curing Consumption as established beyond all doubt by duestion."

Nxack, Rockland Co., N. Y., Sept. 5, 1848.

M. A. F. Harrison—Sir: I wrote to inform you of itce effect your Syrup has had upon my wife. She has been afflicted with the worst form of consumption for two years, and had been given up by two physicians, when I saw your advertisement of Dr. Hastings' Compound Syrup of Naphtha. Being favorably impressed with it I bought one bottle, which had so beneficial an effect that she persevered in the use of it. When she commenced taking it she was confined to her bed, but is now enabled to be up and attending to her household duties, and I feel confident that the use of a few more bottles will entirely cure her. I would also add that my brother's child had been afflicted with a bad cough from its earliest instance, and I was induced to try the effect of the Naphtha Syrup upon her. I did so, and the use of half a beitle completely cured her. You are at liberty to use this letter at your discretion.
