No organization of the House. The House of Congress did not succeed in organizing on day, and of course we have received no Message yet. A Washington correspondent of a Philadelphia paper thinks there will be no organination of the House for a week. We incline to the bellef, however, that the organization has been effected before this time. We shall publish the Message in our next.

Supposed Murder of Dr. George Parkman-Arrest of Professof: Webster-Great Excite

A great sensation has been created in Boston by discovery, of the mutilated remains of a body uppoped to be that of Dr. Parkman, whose mysterious disappearance, about a week ago, has been it-self the cause of much wonder and excitement. Dr. Parkman being a man of wealth, large rewards were offered for his discovery, and on Tursday last a reward of one thousand dollars was offered the recovery of his body. Since then parts of body, supposed to be the that of Dr. Parkman, have been found in some secret recess of the Massachu-Medical College, and Dr. John Webster, Prefessor of Chemistry in that Institution, has been arrested and committed to jail, upon suspicion of having commit-ted the murder. We subjoin the following telegraphic desputches in relation to this matter: Boston, Dec. 1.

Last evening, the mutilated remains of a body, supposed to be those of Dr. Purkman, were found under the Medical College, where he was last seen alive. At eleven o'clock, Professor Webster, of the alive. At eleven o'clock, Frotessor weaser, of the Collego, was arrested upon suspicion of having committed the murder, and was lodged in jail. When arrested he displayed the greatest agitation. The whole affair is about to undergo a rigid investigation. The evidence is believed to be wholly of a circular control of the control of the

cumstantial character.

A subsequent dispatch says that Dr. Parkman's remains are reported to have been found in the Medical College, in Dr. Webster's private room mustly burned.

Dr. W. is now confined in the Leverett treet jail. 

ANOTHER DESPATCH. Bosron, Saturday night.

Bosvos, Saturday night.

The excitement in the city growing out of the arrest of Prolessor Webster, charged with the murder of Dr. Perkman, is very great. About the furnace of the accused have been found a jaw bone, some buttons, and some gold. The discovery of the remains was first made by Mr. Littlefield, a porter in the College, who broke through a brick wall into the private wall, to which none but Mr. Webster had access. The friends of the latter are confident of his innocence of the crime, but the evidence is thought sufficiently strong to hold him for trial, provided the remains found can be identified. The excitement prevailing to a very late hour, the authorities have found it necessary to order out the military to provent a popular outbreak.

FURTHER DISCLOSURES.

Boston, Sunday afternoon. Further disclosures have been made to day, relai-ting to the supposed murder of Dr. Parkuian, but nothing positive has been adduced to fasten the clurge of murder upon Professor Webster. In the Professor's labiratory a chest has been lound, in the hotton of which covered with the fastless the ottom of which, covered with tar, further remains of a mutilated body wero discovered.
