An Apprentice to the Printing Business, WILL be taken at this office, if application be fore did not become a law,) along with other De. immediately made. A boy from the country, mocrats, to get rid of the infamous project of Gov. about 15 or 16 years of age, will be preferred. He Johnston, to issue A MILLION OF UNCONrough English education.

Dr. Morron's Lectures. The course of lectures delivered by this gentleman tee, of which Mr. Bonham was a member. As in Education Hall, during a wook past, was not so soon as that infamous scheme was defeated, all the importance of the subjects which the locturer Inclined Planes on the Portage Railroad was abantreated upon demanded. The Lociures, however, of Monday and Tuesday ovenings were much better attended, and those who listened to them were delighted with the able manner in which the Doctor handled his subjects. His Locture on the Humbugs of the Age, on Monday evening, has been pronounced by competent judges, to have been a very able and past, by the action of our Legislature, and is a amusing one. Three lectures more of the course remain to be delivered, which we hape will be well at. tended.
