The "travelling Governor" is still neglecting he duties of his office, which he was sworn to per acting the part of a political declamor, and, by cunning and misrepresentation, attempting to deceive the people into his support. Gov. Johnston, if he has no respect for himself, should at least respect the high office he holds, and return to his duties, for performing which he is paid from the taxes o the people. But, his anxiety for office will prevent him doing this. He will find his mistake, however and when he attempts to convince the people that he is a faithful public officer, they will begin to enquire how it is that he can be faithful to his trust and yet be absent from his office for three consecumonths at a time?

It is strange that Gov. Johnston should even fo moment suppose that he can be re-elected. He s, in our opinion, spending a great deal of time, a great deal of the people's money, and subjecting Presidents and Secretaries. He might as well attempt to force the Susquehanna to run up stream, as to try to turn the people from Col. Bigler to himself. He is not acquainted with the sentiments of the masses, or he would soon see how hopoless his chance of success is. The people of Pennsylvania are for the Constitution and the Union, and will never, by their votes, elevate an avowed abolitionist to the first office within their gift. Nor will It be forgotten that Gov. ohnaton, no longer ago than last winter, favored the passage of a MAMMOTH LOAN BILL, introduced into the Senate, and supported by the Federalists, by which ONE MILLION OF DOLLARS was to be added to our State debt, by borrowing from the banks that amount in the share of irredeemable shinplasters, which would have devoured the substance of the people for an indefinite period!-Thanks to a Democratic House of Representatives this attempt to increase the State debt, was promptly voted down

That Col. Bigger will be elected Governor, and that too by a sweeping majority, we regard as entirely certain. No strategems, no efforts to blind manner, pointed out the financial measures regamthe people, can prevent it. His majority will be mended by Mr. Shunk, and adopted by the Legisla. Murder and Suicide

New Yong, Aug. 7.—Margaret Garraty, an Irish girl, killed Edw. Drum last night in the street, while he was walking with his wife, whom he had lately married. She stabbed him with a large corving kulfe, and immediately after killed herself with the same weapon. Drum had been engaged to her, and had broken his engagement, to marry another woman.

Of all the public men of this State, we are aware of none whose course has been characterized by a greater want of consistency and honest principles than this individual. He once was a one term man. Now he bege office

The once was an term man. Now he beginnes for a second term.

He once was a democrat. Now he is a federal Whip of the most reckless character.

He once advocated a faithful execution of the National Constitution, by "a summary remedy," in, reference to fugitives from labor. Now he repudiates all that he then said.

He was largely instrumental in fastening an energiage of the second control of the control of

all that he then said.

He was largely instrumental in fastening an ener-mous debt upon the State. New he would like to avoid the responsibility of that debt, by attempting

nation the responsibility of the same state of the Bank reform to fasten it upon others.

He at one time professes to be for the Bank reform and a sound currency—and at another he is the advocate of an issue of shinplasters.

BE CAREFUL OF DIET.—This is the season of the year when disorders of the bowels are perticularly prevalent; and the tables of mortality show that these diseases are even more common, this year, than usual. We would caution all persons, therefore, to be esutions in their cliet. The esting of unrips fails is. fertile source of diarrhose and diseases or similar type. It is equally unwise, at a time like this to eat to excess. Very few individuals, we are sorry to say, can resist the temptation of a favorite luxury, so as to stop before having eaten too much; and thus odibles, harmless in themselves, frequently become the prolific source of disease, by being indulged in to repletion. With caution in diet, there is little fear; but otherwise the peril is, indeed, imminent. We say this not to alarm; but to put people on their guard. Late hours, undue fatigue, or excesses of any kind, whether mental or physical, should also be avoided.—Phila. Bulletin. BE CAREFUL OF DIET .- This is the season of the
