Now, suppose the Governor had signed the batch of bank bills that he returned to the Legislature, what course would our neighbor of the Herald have pursued towards him? Why, beyond question he not have been saved." We never made use of would have denounced the Governor and the whole such language, and the editor of the News manu-Democratic party because of their inconsistency on factured the falsehood from the whole cloth. On the subject of banks. This would have been the the contrary, in our remarks on the veto message, Herald's course, had the Governor signed the sleven we decidedly approved of the Governor's course, bills he vetoced. And he is now donounced by the and participarity did we state that the friends of same hancest paper because he did veto these bills.— the Carlisle Deposite Bank had no right to expect bills he vetoed. And he is now de Indeed, our neighbor is too hard to plasse-he is like that the Governor could select it from the batch a fratful child---nothing will please him--every thing our article on the sense or hears only sggravates him more. Some times a cross child is benefitted by receiving a good friends of the Cartisle Doposite Bank that the Go-

Smart, that. We should like to know by what kind of logic the editor arrived at that conclusion. Our neighbor is strong in words, but no one but himself can see either sense or argument in his sage conclusions. We repeat what we said on a previous occasion, that "Gov. Bigler performed a righteous duty when he vetoed that batch of Bank bills." Had he fuiled to perform this duty, we should, dd him as a traitor to his principles, and an enemy the business counters, such as the stockholders to in the rights of the people.
