MARRIAGE,

HAPPINESS AND COMPETENCE.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (with in the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S Private Medical Companion.

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundredth Edition. 18mo., *pp.* 250. *Price*, 50 *cts* [ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, but to female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

FARMERS TO YOUR INTEREST!

STILL GREATER IMPROVEMENT IN GRAIN DRILLS.

PRICE REDUCED TO SIXTY DOLLARS.

MOORE'S

PATENT

SEED AND GRAIN PLANTER.

THIS Machine was Patented July 2, 1850, and has received the highest premium at all the Exhibitions where it has ever been contested; including New Castle county, Delaware, Agricultural Society, Oct. 9th, 1850; Philadelphia and Delaware county Agricultural Society, Oct. 17th, 1850; Maryland State Agricultural Society, Oct. 23d, 1850, and Oct. 24th, 1851, and Michigan State Agricultural Society, Sept. 25th, 1851.

The above Drill is not liable to get out of repair, is exceedingly simple in its construction, will sow point rows in all irregular shaped fields, and possesses superior advantages to all others in the ease and quickness with which it can be regulated to sow any desired quantity of grain per acre, while the draft upon the horses is twenty-five per cent. lighter, and consequently with the same labor, can seed one fourth more ground per day than most other machines now in use. The objection so common to Drilling Machines of becoming Choked if the seed is not perfectly cleaned, is entirely obviated in the simple and peculiar construction of this Drill, as white caps and short straw will not interfere in the least with the regular distribution of the seed. It is warranted to distribute the seed evenly; to sow any quantity per acre commonly sown broadcast; to cut out or break the grains; to be well made of good materials and durable with proper care.

Having sold about 400 of the above Drills the past season; all of which met with the unqualified approbation of the purchasers; and after careful and thorough experiments, which have resulted in still greater improvements, we now feel warranted in saying that Moore's Patent Seed and Grain Planter improved, is superior to any other machine for the purpose, now in the market.

Having made arrangements to furnish 1000 of the above Machines for sale, the coming season, we shall be prepared, at all times, to supply orders without delay.

All orders addressed to the undersigned will warrant prompt attention. Any person in Cumberland county, wishing to examine one of the above machines, will be called on by L. Peirce, by leaving word to that effect with H. L. Burkholder or J. Rheem, of Carlisle, or by addressing him through Carlisle, P. O.
