FARMERS TO YOUR INTEREST!

STILL GREATER IMPROVEMENT IN GRAIN DRILLS.

PRICE REDUCED TO SIXTY DOLLARS.

MOORE'S

PATENT

SEED AND GRAIN PLANTER.

THIS Machine was Patented July 2, 1850, and has received the highest premium at all the Exhibitions where it has ever been contested; including New Castle county, Delaware, Agricultural Society, Oct. 9th, 1850; Philadelphia and Delaware county Agricultural Society, Oct. 17th, 1850; Maryland State Agricultural Society, Oct. 23d, 1850, and Oct. 24th, 1851, and Michigan State Agricultural Society, Sept. 25th, 1851.

The above Drill is not liable to get out of repair, is exceedingly simple in its construction, will sow point rows in all irregular shaped fields, and possesses superior advantages to all others in the ease and quickness with which it can be regulated to sow any desired quantity of grain per acre, while the draft upon the horses is twenty-five per cent. lighter, and consequently with the same labor, can seed one fourth more ground per day than most other machines now in use. The objection so common to Drilling Machines of becoming Choked if the seed is not perfectly cleaned, is entirely obviated in the simple and peculiar construction of this Drill, as white caps and short straw will not interfere in the least with the regular distribution of the seed. It is warranted to distribute the seed evenly; to sow any quantity per acre commonly sown broadcast; to not cut or break the grains; to be well made of good materials and durable with proper care.

Having sold about 400 of the above Drills the past season, all of which met with the unqualified approbation of the purchasers; and after careful and thorough experiments, which have resulted in still greater improvements, we now feel warranted in saying that Moore's Patent Seed and Grain Planter improved, is superior to any other machine for the purpose, now in the market.

Having made arrangements to furnish 1000 of the above Machines for sale, the coming season, we shall be prepared, at all times, to supply orders without delay.

All orders addressed to the undersigned will warrant prompt attention. Any person in Cumberland county, wishing to examine one of the above machines, will be called on by L. Peirce, by leaving word to that effect with H. L. Burkholder or J. Rheem, of Carlisle, or by addressing him through Carlisle, P. O.
