MARRIAGE OF NAPOLEON III. New York, Feb. 7.

The American Mail Steamship, Atlantic, Capt. West, with Liverpool dates to the 26th ult., being four days later than the advices received by the Canada at Boston, on Saturday, arrived at 10 o'clock this morning.

FRANCE.—On Saturday, the 23d, the various functionaries of the State presented themselves at the Tuilleries to receive from the Emperor the announcement of his intended marriage.

By and by the Duke of Cambaceres entered from the apartments of the Emperor, with the announcement of "His Majesty's" intention to marry the Emperor's daughter, the Princess Marie Louise.

"Messieurs—I assent to a wish so often expressed by the nation and come to you to announce my intended nuptials. The alliance and contract is not in accordance with the old political traditions, and therein lies its advantage.

"If you wish a suggestion as to the suitable occupation of your idle hours, I will point you to the field of your own country; the unemployed wants of your own people of England. In view of your palace, there is misery and suffering enough to excite your most active sympathies.

"I must be admitted, however, that in 1810 the marriage of Napoleon 1st with Marie Louise was a great event. It was a guarantee for the future and real satisfaction to national pride to see the ancient and illustrious House of Austria, which had so long been at war with us, sell the alliance of the elected chief of the new Empire.

"I come then, Messieurs, to say in France, that I have preferred the woman whom I love and respect, to any unknown lady whose alliance would have brought advantages mingled with sacrifices.

"The Government is making inquiries of the various railway companies how many men and horses and munitions of war they can carry in a specified time to certain points in case of an emergency.

"The English ship builder, has received an order from the French Emperor to build him 16 frigates. The English Admiralty, however, cancelled the order and gave Napier a similar order. Dr. Peira, the author of the Elements of Materia Medica and Therapeutics, died at London, on the 20th.

On the 15th inst., by Rev. A. Height, Mr. JOHN G. GAZZ, to Miss ELIZABETH BURTON, both of Silver Spring township.
