A correspondent of the Albany Evening Journal, witting from Monclining pays; "Owing to difficulties between the Hawalian and French governments, growing out of the duties on brandy amported here," and some other causes; it, is not sunlikely that the American flag will, be hoisted frere in a few months. There is no doubt here that Mr. Allen, United States consult here, was sent home by this government. no doubt here that Mr. Allen, United States consul here, was sent home by this government, to nek, in the name of Kamehameha 3d, protection ogainst the French; and in case the United States government would not, or build not, otherwise interfere, to offer to code the severeignty of these islands to the United States, and annex them to the Union. All classes here are keenly alive to the union and the second of the severeignty of these islands to the Union and the second of the islands; the English in a rage about it, foreseeing in such a measure a death-blow to their commercial interests, in the North Pacific. The French menofixed will, be here in three or four months, when, unless there is an American force here to prevent it, (which, by, the, way, we confidently expect, it, (which, by the, way, we confidently expect, they will doubtless enforce their demands against the government, by that most conclusive of all armosts, camen balls."

THE RECENT DUEL IN SQUIR CAROLINA .- The Charleston papers maintain a profound silence in egard to the causes that led to the duel which place near that city last week. The Wash-on Star, however, supplies the following par-

icolars: grane in a source in which we place comfidence, that, the very recent duel between Messrs: Dunovant and Davidson Legare, occurring in the vicinity, of Charleston, grew out of some difficulty, about a lady, to whom the former is said to be engaged. Legare challenged, and Dunovant accepted the challenge, choosing pistols, distance three paces; the first fire to be determined by tossing up. Dunovant went it and of course, shot three paces; the first fire to be determined by tossing up. ...Dunovant won it, and, of course, shot his antagonist through the heart, his pistol being within five or six feet of L.'s breast. It was a cold blooded murder; the murdered man, however, deserving as little sympathy as his executioner, far assenting to the terms which placed him, practically disarmed, in such a position. The only reason for regret connected with the affair is, that Dunovant will go scot free of punishment for such a murder under the pretence of fighting a duel."

THE INDIANS .- Speaking of the condition of the Indian tribes, the Union says:

Indian tribes, the Union says:

"The United States has regarded them as under its sovereign wardship and tutorage—her statute books are replete with laws for their protection, and her Indian Department and military power on the frontiers are employed to enforce those law. That this benevolent policy, will be rigidly enforced by President Pierce—who seeks their admission to every just and practical right—to-the setting a part further colonies of refugo for them, where they may dwell, and develop themselves under their own laws, and reach to respectability in arts, labor, letters, and religion, we have essurances of the bischest moral. religion, we have assurances of the highest moral weight, and cannot be mistaken."

Markets.
