

Wreck of the San Francisco.

TERRIBLE DISASTER.

TWO HUNDRED AND FORTY LIVES LOST!

SAFETY OF THE WOMEN & CHILDREN.

New York, Jan. 13.—By the arrival of the bark Three Bells, intelligence has at last been received from the wreck of the steamship San Francisco. It is rendered certain that 240 of those on board perished, having been swept overboard by the sea during the gale on the 23d of Dec., by which the vessel was crippled.

Among the lost were Maj Taylor and wife, with Col Washington, Lieut Smith, and Capt Field. On board the bark Three Bells are 230 of the saved, including Major Wynn and Lieut Winder.

Others of the rescued, including Colonel Gates, Maj Merchant, Col Burke, Capt Judd, Lieut Fremont, Lieut Looser and Lieut Van Voort, including all the ladies except the wife of Col Taylor, are on board the brig Killyb, bound for Boston.

Lieut C S Winder and Lieut Chandler are on board the ship Antarctic, bound to Liverpool. All the troops saved are divided between the three vessels.

The San Francisco remained afloat from the 23d ult., until the 5th of January, when she went down.

ADDITIONAL PARTICULARS. The following additional particulars in regard to the disaster to the Steamer San Francisco, are understood to be authentic:

The steamer was caught in the gale of the night of the 24th December, (Saturday), and disabled. Soon after, a heavy sea swept the decks, washing overboard, and in immediate death two hundred and forty passengers.

The wreck drifted about until Jan. 5th, when she was fallen in with, in latitude 38 deg., longitude 69 deg., by the ship Three Bells, of Glasgow, the bark Killyb, of Boston, the ship Antarctic, for Liverpool, which vessels took off the wreck and the remaining passengers.

G W Asplwall, Esq., of Philadelphia, was saved, and is on board the bark Killyb. The Three Bells brings in 230 from the wreck. All the women and children of the steamer were blown away, in the gale of the 24th, at 1 1/2 o'clock. On the morning of the 25th, Christmas day, the engine stopped working, the piston-rod breaking off, and thus leaving the vessel totally unmanageable.

The sea every moment struck her tremendous blows under her guns, tearing up the planking fore and aft, on both sides. At the same time, the ship commenced to leak, when the troops were organized into battalions.

At 9 o'clock, on the morning of the 25th, the sea struck amidships with terrible force, carrying away both the smoke stacks, all the upper saloon and staving in the quarter deck, entering through, washing overboard a large number of passengers, including Col Washington and others, (as mentioned above,) two ladies, names unknown, in addition to the wife of Capt Taylor, three civilians, names also unknown, and 150 United States troops. At the same moment three men, the Carpenter's brother, Mr. Duckett, were killed by the crushing of the timbers.

On the 26th of December, spoke to the bark Killyb, of Boston, bound for New York, who lay by the wreck until 3 o'clock on the 29th, when the work of getting the passengers on board was commenced. With considerable difficulty upwards of 100 persons got on board the bark, men, women and children, including the officers above mentioned, with their families, the wife of Lieut Smith, Lieut Fremont and family, G W Asplwall, Esq., J M Graham. At night, the wind increasing, with squally weather, the Killyb let go the hawser at 10 o'clock, after which time nothing further was seen of the bark by those left on board the wreck.

The gale continued throughout the 30th and 31st, and a large number of the men were perfectly exhausted, many sick and dying.

On the morning of Sunday, Jan. 1st, eight days from the time the ship was disabled, the despairing hearts of the hapless people on board were cheered by the sight of the ship Three Bells, which, having been spoken, came down for the wreck, and lay by until 3 P. M., when her boat came alongside.

The same day, the ship Antarctic, from New York, for Liverpool, also bore down for the wreck, and on Wednesday, the 4th inst., both ships commenced taking off the wreck, and a large amount of provisions and water, and by sunset of the 6th all the passengers were removed from the wreck. Next morning the crew and officers of the ship were taken off, Capt Watkins being the last man to leave the wreck.

The Three Bells brings 230 souls, including passengers, troops, officers, and the seamen of the steamer. There were eleven deaths among the crew of the steamer from the time she was disabled to the 8th inst., including two who were washed overboard.

It is said that after all had left the San Francisco, she was scuttled, in order to remove the vessel from the way of passing vessels.

Shocking Occurrence. This morning, soon after 11 o'clock, Dr. Wm. R. T. Lutner, of the 4th ward, was found lying on the floor of his office, 458 Broadway, corner of Grand street, and perfectly dead. On partially moving the body, a single barbed pistol was found lying on the floor, it having been discharged, and, on examining the deceased, it was found that he was shot in the back of the head.

When first seen dead, he had a morning paper clutched firmly in his right hand. A report was soon circulated that an individual was in the Doc tor's office this morning, and on having some words, threatened to shoot him. Coroner Gambell was notified, and will investigate the lamentable affair this afternoon, if the necessary evidence can be procured.

The deceased was a very fine looking man, 35 years of age, was married and lived in Hellgate, where he has a wife and two children.—N.Y. Express, 10th inst.

WASHINGTON, Jan. 15.—The city is full of news. Col. Jeff Davis was elected Senator from Mississippi, and C. C. Clements, of Alabama, will go into the War Department. This looks well for Guibrio resigns the Treasury Department, and Mr. Breckinridge, of Ky., takes his place. Some say Mr. Cushing takes the Treasury, and Mr. Breckinridge the Attorney Generalship. The Mexican Treaty surprised the Secretary of State, as well as some other people here in Washington. It is believed that it was made without instructions—perhaps by the influence of outsiders. The treaty is nevertheless a good one, and will be ratified by the Senate without the least difficulty—so say the leading Senators.

New Daguerrean Room.

NEXT DOOR TO THE NEW PRISON.

JOHN S. MAIN, would announce to the public that he has lately fitted up a Daguerreotype permanent room of the first class. He has given his attention to the art for some time past, and is acquainted with all the late improvements and will be in constant receipt of all that is new in the Heliographic art, having made arrangements for which he will receive all such information as soon as it is adopted by the first class operators of the cities. His instruction has not been of the ordinary kind, but he has been initiated into the mysteries of the art as well as the mechanical parts of his profession, and it now only requires a continuation of the patronage he has so liberally received to establish in Carlisle such a gallery as can only be found in the large cities.

All who have paid attention to art, know that the beauty of a Daguerreotype depends upon chiaroscuro, and it cannot be expected that those who know nothing of its laws should be able to produce fine artistic likenesses, unless by mere chance. For perfection, in this respect, J. S. Main has produced pictures that he is not ashamed to place before the best that have yet been produced.

Call at his room, Sign of the Gilded Banner, where he is always ready to take pictures at the shortest notice. He is also prepared to take the likenesses of infirm or deceased persons whenever called on.

They are said to have raised a fund of \$100,000 to be disbursed at this point, to carry through their object. We have seen signs signifying us of the truth of this story.
