THE MARRIAGE STATE; Thall Happiness and Health, or Muery Sickness, attend it ?

MOST STARTLING CONSIDERATIONS !

Reflections for the Thoughtful.

Strange that countiess human beings exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought or reflection than though the noble facilities of mind were not wouchasted to them. Many such are humands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children.

BOW OFFES IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR WIFE LINUERS FROM YEAR TO YEAR
In that pitiable condition as not even for cee day to
feel the happy and exhilterating influence incident
to the enjoyment of health.

She may not be an invalid confined to her bed,
or even to her room; as her pride, ambition and
energy induce and nerre her to take personal
charge of her household, even when her health will
not admit of it; but she is nevertheless perceptibly
inking from day to day, and always alling.

Thus, day after day, and nouth after month tranfire. Her health daily einks, till finally even the
tope of recovery no longer remains. And thus

THE BLOOMING BRIDE,

But a few years ago in the finth of health and youth, and buoyanny of spirits, rapidly, and appa-ently incepticably, becomes a feeble, sickly, de-bilitated wife, with frame amaciated, nerres un-strong, spirits depressed, countenance bearing the unpress of suffering, and an utter physical and mental wonstration.

impress of suffering, and an utter physical and montal prostration. Sometimes this deplorable change may and does arise from organic or constitutional causes. But oftener, by far oftener, to gross and inaxensable ignorance of the simplest and plainest rules of health as connected with the marriage state, the riolation of which entails disease, suffering and misery, not only to the wife jut often.

And must this continue 3 Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cows, our oxen, the nature and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happiness in all that concerns the health and reliase of the wife of are affections, must be mother our children; in all that concerns the mental and physics well being of store children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE.

BENIGHTED IGNORANCE, AS CULPABLE AS INEXCUSABLE!

AS CULPABLE AS INEXCUSABLE!

How long shall this ignorance provail so productive of its bitter fruits! How long shall the wife and mother be ignorant of the nature, character and causes of the various womb and sexual complaints, embittering her days by suiforing—suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves us mon and women, subject to serious life-long enduring diseases, and perpetuating them to our children.
