THE MARRIAGE STATE: Thall Happiness and Health, or Misery Sickness, allend it?

MOST STARTLING CONSIDERATIONS I Reflections for the Thoughtful.

Strange that countless human beings exist and drag through life as do the beasts of the field, or the insects of the carth, evincing no micre thought or reflection than though the noble faculties of mind were not vouchasfed to them.

Many much are husbands and fathers, upon whom are dependent the health, the well-being, and the happluses of a conditing and affectionate wife, with perhaps a family of children.

HOW OFTEN IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR

WIFE LINGERS FROM YEAR TO YEAR
In that pitiable condition as not even for one day to
feel the happy and exhilerating influence incident
to the enjoyment of health.
She may not be an invalid confined to her bed,
or even to her room; as her pride, ambition and
energy induce and norve her to take personal
charge of her household, even when her health will
not admit of it; but she is nevertheless perceptibly
sinking from day to day, and always alling.
Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the
bope of recovery no longer remains. And thus

THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, debilitated wife, with frame emneated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an uttor physical and mental prostration.

Sometimes this deplerable change may and does arise from organic or countitutional causes. But oftener, by far oftener, to gross and inexcussable ignurance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

Hereditary Complaints upon the Children

"UNTO THE THIRD AND FOURTH GENERATION,"
Fransmitting CONSUMPTION, SCHOFULA,
HYPOCHONDRIA, INSANTY, GOUT,
KING'S EVIL, and other diseases,
as a DREADFUL INHERITANCE

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cown, the nature and character of the soil we possess, the texture and character of the soil we possess, the texture and quality of our goods and merchandiss; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happinesement, involving our future peace and happinesement all that concerns the health and wolfare of the wife of our affections, and the mether of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most BENIGHTED IGNORANCE

AS CULPABLE AS INEXCUSABLE!

How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wife and mother be ignorant of the nature, character and causes of the various womb and sexual complaints, embittering her days by suffering—suffering office prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever closs our eyes to the results of physio-jogical science by which we may arrive at an understanding of ourselves as mon and women, subject to serious life-long enduring diseases, and perpetuating them to our children.

LET EVERY WIFE AND HUSBAND PONDER No husband or wife need be ignorant of what concerns them most to know to secure their health and happiness. That knowledge is contained in a little work entitled
