organized by the election of JOHN B. PARKER, Esq., President, and E. BEATTY, Secretary pro tem. The Council then proceeded to the election of the various borough officers, which re sulted in the choice of the following persons:

Secretary.—James Mullin.
Treasurer.—Daniel Eckles.
Market Master.—Stephen Keepers.
Tax Collector.—Alexander Woods.
Street Commissioner.—Worley Matthews.
Street Regulators.—Jacob Spangler, John Rurner, William Line.
High Constable.—Joseph Stuart.

The following Standing Committees of Cour to were also appointed:

Committee on Ordinances.—Messrs. Parket Gutshall and Bretz.

Committee on Accounts.—Messrs. Beatty
Monyer and Inhoft.
Committee on Streets to Many Gommittee on Streets, &c.—Messrs. Rhoads Myers and Egbert. We learn from the Herald that the Counci

time and attention to the discharge of his duties.

Our new Burgess, Col. Armstrong Noble, it is said, has expressed himself to the effect t at he is determined to perform his whole duty promptly, and "without fear, favor or affecefficient a Burgess as he did a Colonel, we may sleep safely and soundly o' nights.

The Late Fire---Large Reward Offered. We see by a handbill posted up at different public places, that Col. Noble, the Chief Bur gess of the borough, has, by direction of the Town Council, offered a reward of One Hundred and Fifty Dollars for such information as may lead to the detection and conviction of the in dividual or individuals who on the night of the 28th ultimo, set fire to the stable of Mr. Ggo.

From this it would appear that our borough authorities are fully convinced that the recent disastrous fire was the work of an incendiary and that they are determined to leave no means untried in order to discover and bring to justice the guilty perpetrator of so infamous a crime. That they may be successful, must be the carnest prayer of every good citizen and right-thinking man. The crime of arson is the most dangerous, and at the same time the most malignant and cowardly act which can be committed, and it is to be hoped that the author of the recent cala mity may yet be discovered and severely dealt with. He who, in his sane mind, deliberately, and in the darkness of night, applies the torch of the incendiary to his neighbor's premises, defen Michael thus endangering the lives and property of an entire community, is a miscreant unfit to dwell Baincle Go among his fellow men, and should be compelled Barber Elizabeth to pass the remainder of his days within the walls of the Penitentiary.

NEW SPRING GOODS.—The spring trade now opening bids fair to be exceedingly lively. Many of our merchants have already opened their respective stocks, and solicit the attention of the public. Our advertising columns will show the purchaser where every description of goods may be found, and the rule is a good and true one, that the man of business who advertises, can be dealt with to the best advantage. See in anodella with the the dealt with the dealt spective stocks, and solicit the attention of the ther part of to-day's paper the advertisements Gleave Isaac L Ginger John of Mr. Ogilby, of East High street; Mr. Phillip Gorden William Annold, North Hanover street; Messrs. DAGUERREOTYPES.—We have been shown recently several daguerrectypes, taken by Mrs.

There is no more expressive or valuable memento of those we love, than a handsome and faithful likeness. Those cently several daguerrectypes, taken by Mrs. R. A. THE WATER WORKS.—We learn that these works are now being pushed forward with mach of summer they will be completed. On South Hanover street, just in front of our office, some huge cast iron pipes have been deposited, and the digging of the trenches for their recoption will be commenced in a few days. When finished and in operation, these Works will be of immense benefit to the borough, and in case of fire, our firents could act with great efficiency. We trust that the slight opposition which has been manifested to them will cease entirely.

NEW SCHOOL HOUSES.-We are pleased to see that the Directors of our Common Schools have advertised for proposals for the building of two additional brick school houses, for the accommodation of three of the public schools of sembly, as follows, viz: the borough—the proposals to be received until Wednesday the 12th inst. We learn from the Herald that the Council has increased the salary of the High Constable to \$225 a year. This, we think, a very liberal salary, and we hope that that officer will now faithfully perform the duties appertaining to the office. Heretofore, the office of High Constable has been a snug little sinecure, the incumbent pocketing the salary and performing little or no service as an equivalent. At the salary now allowed, that officer should devote his whole time and attention to the discharge of his duties.

PROF. MILLAR,

Has the honor to announce to the inhabitants of Carlisle, that he has taken apartments in the second story of Trout's New Building, on Main street for the purpose of giving instructions in his New System or Waiting.

It is needless to urge upon an intelligent community the importance of being able to write handsomely, and with facility, in these business and enlightened times. The absolute necessity, indeed, of possessing a knowledge of the beautiful and useful Art of Penmanship, must be at once admitted, by every rational mind, and with the aid of Prof. M's. hand-brace which is used by him only. It only remains for each individby him only. It only remains for each individ-ual to say, whether or not he or she will learn to write handsombly and correctly, when so desir-able an object can be attained in a short time, to

a cortainty.
