IMPORTANT FROM EUROPE.

Justice to the Administration.

We extract the following from the Washington correspondence of the Louisiana Courier:

"The results of Whig mismanagement and wrong in the Treasury Department, admonish the country against any further investment of confidence in Whig professions of integrity and good faith. Every citizen recalls with indignation the shameless Gardiner fraud, the lighthouse contract, the lending of the public credit to speculators, and other wrongs. All these practices have ceased under the present firm and fearless Administration of the public treasury. And the system of economy does not end here. Judgo Campbell early set to work with great energy in the Post-Office Department; Mr. McClolland, in the Interior; Mr. Dobbin, in the Navy; and Jefferson Davis in the Department of Wsr. Nothing during the past years has been so pregnant of evil to the true interests of the people as the loose and wanton expenditures of the public treasure, and the corrupt an law less transactions of eminent officials.

A republic to firm and effective must be conducted fringally and faithfully. Waste and the complicity of public men in private operations, will, if not severely checked, soon become the chronic disease of our system, and, if persist od, in, will ultimately result in the most pernicious consequences. Let the public commence to the propose our eading the persist of the people and faithfully or sequestered by able and fdishonest men—and a blow is inflicted upon republican institutions from which therewere recover.
