THE COUNTY MEETING.

In another column will be found the proceed ings of the Democratic County Meeting, to which we invite attention. The meeting was the largest that has been held in this county for a long time, and the good feeling and harmony that prevailed, gave evidence of a determination on the part of the Democracy to carry things their own way this fall. This is as it should be, and we rejoice to see this spirit prevail. It is the sure precursor of success, for when our Democratic friends are united, we may rest confident of gaining the day. The Whigs have, for ars, been enjoying the emoluments of office in this county, and all owing to dissenceiving good aid from the Democratic party .--Let us, therefore, take warning from past experience, and support the entire Democratic ticket from top to bottom. We can and WILL elect our ticket, if all Democrats are true to themselves and to their principles. From presthat many of the leading Whigs of the State the case. Now, was not this good argument and good sense? Was it not just such council as the real friends of temperance would profit by? No honest man will deny this. And yet for these sentiments Mr. CHAMBERS has been abused in the most idalous manner by every Whig-Know-Nothing paper in the State. Because, forsooth, he refused to denounce Gov. What positive evidence does this furnish that the friends of POLLOCK desire to nake political capital out of the temperance question? The fact is they care nothing about mperance, except to use the question as a umph. habby to ride into office, so that they may again rob the people as they invariably have done when they were in power. If they had it of Philadelphia, states for the information of in their power to pass a prohibitory law to-morrow, they would not do it, as they could ot then turn the question to political account.
