A great many persons lose their winter applies, not because they will not keep, but because they will not keep, but because they tilo inot know how to keep them. We commend the following to the attention of all.—Recollect that too much importance cannot be attached to keeping apples in a cool place, but when they, will not freeze.

The keeping of apples and other fruits depends very much upon the care with which they are gatherful, and the place in which they are deposited! hence a few hints on the subject will not be valueless to the orchardist and gardéner.

dener.

"Life autumn and winter apples belong to that class of fruits which are gathered before righturity, and ripened in the fruit room or cellar; and they should be picked when they have received from the tree all the valuable elements the teason will allow it to give them. English gardeners have a rule that no fruit should be suffered to remain on the trees after they cease to vegetate, and this is in general a good one. The applies above species of a swell as peared. to vegetate, and this is in general a good one. The applies above spoken of, as well as pears of the same class, may remain ungathered until there is danger of injury from frost, as the sun and air, and the still remaining vigor of the tree seems necessary to their perfection and maturi-

Apples designed for long preservation should as far as practicable be picked by hand, carefully and separately, and when they are not wor by dew or rain. They should be handled so as not to bruise them in the least, as carefully althought as eggs or glassware. Lay them gently upon the floor of a cool dry room, a foot deep, to sweat and season for two or three weeks; and then on a clear dry day, sort and pack the apples in clean dry barrels, filling them as full that the apples cannot move after being headed in. The very best, which will soft paper before packing, or they may be placed in layers with dry chaff around between them.

Soft paper before packing, or they may be placed in layers with dry chaff around between them.

them. Most cellars and ground floors are too damp for the perfect keeping of apples through the winter and spring, and also of too variable a temperature—the latter should not vary much from forty degress. If an upper room can be said Bank the rights and privileges of a bank of so perpared as to retain about the same degree of heat, dryness, and darkness, it is a very desirable locality for the preservation of fruit, not only apples, but pears, granes, &c. To the preservation of the two last named, considerable attention has recently been given.

**Said Bank the rights and privileges of a bank of liste, to change the name to that of "The Carlisle Bank," and to increase the capital stock one hundred and fifty thousand dollars, if practicable. By order of the Board of Directors.

other preparation: We could give you many certificates corroborating, our magerification is single trial is worth more than all. This remedy is prepared and sold at the Drug store of B. J. KEIFFER, South Hanover street, a tow doors south of he Court-house, Carlisle, June 15, 1854.

LE BAGLE HOTEL.

No. 381; Market Streit, Philadelphia.

The subscriber takes this method to inform his friends and the public in general, that he has taken this well 'known stand, and hopes, by strict attention to business, to gain a share of the public patronage heratofore so liberally extended to him while in the above business in, Lancaster county, and recently in Cumberland county, Pa. The House has been neatly firmished throughout, and the rooms are large and airly, and for comfort are unsurpassed in the city. The Table is always supplied with the best the market can afford, and his Bân can compete for choice liquors with the best bars in the City. The Stables are large and newly fitted up for drovers and the public in general.

My charges are as reasonable as any other in Market street. Give me a call.

PRED'K. ZARRACHER.
