AN AGRICULTURAL SOCIETY .- We are gald to see that the farmers of this county are at length beginning to awake to the importance of attending to their own interests. By a notice in another column it will be seen that a meeting of farmers and others is proposed to be held in the Court House, in Carlisle, on Saturday the 17th inst., to take the necessary preparatory measures for the formation of an Agricultural Society for Cumberland county. This is an important movement, and if carried into effect, will secure to our farmers many lasting benefits. Almost every county in the State can boast of its Agricultural Society, and that Cumberland has so long remained without one, is a matter of surplise to us. We know that there are many farmers in our midst who are not only anxious for the formation of such a Society, but who will also contribute liberally both of their time and money to promote its objects and extend its usefulness. We trust this spirit will animate all our farmers, and that in a short time we shall have an Agricultural Society established on a firm and permanent

At the proposed meeting on the 17th, we expect to see hundreds of the "bone and sinew of the county in attendance, for without their participation and hearty co-operation, the efforts of others to organize a society, no matter how well their plans may be laid, will be futile and worse than useless.
