Mr. DAVID SIPE, of Carlisle, has been appointed Agent for the county of Cumberland, for the sale of FISK'S PATENT METALLIC BURIAL CASE, which is superior to any of the kind now in use, for ordinary interments and transporting the dead. It prevents immediate decomposition and obviates the necessity of hasty burials; for, being perfectly air-tight, it prevents any unpleasant odor from escaping and can be kept from day to day, until it suits the convenience of the friends of the deceased to inter. We might offer hundreds of certificates in corroboration of these facts, but the following will suffice:

Certificates from Clay, Webster and others.

WASHINGTON, April 5th.

GENTLEMEN—We witnessed the utility of your ornamental "Metallic Patent Burial Case," used to convey the remains of the late Hon. John C. Calhoun to the Congressional Cemetry, which impressed us with the belief that it is the best article known to us for transporting the dead to their final resting place. With respect we subscribe ourselves. Yours, &c.

The above described Burial Cases can, at all times, be obtained of the subscriber, at his Ware-rooms nearly opposite the Bank, North Hanover street, Carlisle.

Valuable State Farm at Public Sale.

On Saturday, June 9th, 1855.

THE subscriber having determined to change his location, will sell his Farm at public sale on reasonable terms. It is situated in Frankford township, Cumberland county, nine miles north-west of Carlisle, one mile north of Frain's mill, and a quarter of a mile east of Blosersville. The farm contains

129 ACRES,

and 120 Perches, strict measure; about 20 acres of which are covered with valuable timber, and the residue cleared, of which a large portion is meadow or bottom land. The improvements

are a good substantial LOG HOUSE, LOG BARN, and all other necessary out-buildings. The farm is under good fence, and there is a fine young Orchard of good fruit. There is an unfailing well of good water near the house, running water on the farm, and a never failing spring of good Sulphur water adjoining this farm and but a short distance from the house. This farm is susceptible at ordinary expense of great improvement by means of liming, for lime can be purchased cheap at a distance of only two or three miles, and as the farm has a desirably even surface which effectually prevents washing. It may be limed permanently and profitably. It is also a well known fact, that slate land by reason of its cheapness and moderate taxes, pays much better than limestone land considering the extravagant prices and oppressive taxes of the latter. The subscriber having resolved to change his location and engage in his profession, for which reason the said property will absolutely be sold. The right and title to this property is perfectly good. For further information enquire of the subscriber and proprietor who resides in Carlisle. Those who wish to see said farm prior to the sale can do so by calling upon his tenant, Henry Smith, who lives upon the farm. The terms of sale will be easy. Sale to commence at 1 o'clock, P. M., when attendance will be given and terms made known by

Aug. 3, 1854. J. W. EBY.

To the Stockholders of the Carlisle Gas and Water Comp'y.

YOUR Works have not yet been finished, but have made such progress as to insure their completion, we hope, by the 1st of October next. The amount of stock subscribed is $50,000, all of which has been fully paid except $3,250, of which not exceeding $250 will be lost by reason of the inability of the subscribers to pay. It has been a question of expediency with your Board of Directors whether to increase the amount of stock or borrow the money to enable them to complete the Gas-Works; and at a late meeting of the Board, the President was authorized to borrow $20,000 for that purpose, at the rate of six per cent. per annum, pledging by mortgage the income and Works for its re-payment. Part of that sum has been borrowed and the erection of the Gas-Works has commenced, with the expectation that they may be completed by the 1st of October.

Since the opening of this season all our force has been directed to the completion of the reservoirs, which are being done in so substantial a manner as will ensure their permanency, and afford the utmost security that a full supply of water may at all times be relied upon.

Without entering at all into the amount of work which has been done thus far or the expenditures which have been made since the opening of this season, which could not, because of their progressive condition, be satisfactorily stated, the cost and expenditure for each item of the work up to the 1st of February, 1855, may be thus stated:

Cost of the Pipes and Ditching,	$32,171 65
" Dam,	1,966 33
" Reservoirs,	5,797 57
" Water-House,	2,403 55
On account of Pumps,	51 06
Team account,	301 76
Salary of Engineer and Foreman,	1,040 18
Miscellaneous Expenses,	156 70
	$43,987 80
To which add amount expended in the purchase of Gas Pipes and laying the same in the principal sts.,	7,652 10
And you have the sum of	$51,639 90

actually expended up to that period. Since that time preparations have been made to complete the Reservoirs and to erect the Gas-Works in the most modern, complete and substantial manner; for which purpose a lot of ground containing two and one-half acres has been purchased, which lies along the railroad, east of the Borough.

The Board entertain the hope that the additional sum of $2 ,000 for which they have authorized the loan, will enable them to complete the work.

We cannot but congratulate you that in the plan and execution of the work we were so fortunate as to procure the experienced and able services of Mr. A. F. Smith and the industry and talents of Mr. Theodore Irish, his assistant, to carry these plans into execution. To which we feel bound to add, that in every stage of our work, we have had constant occasion to feel and know that we have had the cordial support and kind feelings of the Borough authorities and of every enlightened and good citizen.

So far as the work has been done we have no hesitation in assuring you that it has been executed in the most economical and substantial manner, and that when the whole shall have been completed, you will have the cheapest and best Works of the kind that have ever been built. By order of the Board.

REMOVAL.

THE subscriber begs leave to inform his customers and the public in general, that he has removed his Gentlemen's Furnishing Store to the room lately occupied by Mr. Elliott as a Drug Store, next door to Hitner's store, East Main street. He has just received his Spring and Summer supply of Cloths, Cassimeres, Vestings, &c., which he is prepared to make up at the shortest notice on reasonable terms. His Goods have been carefully selected by himself, and are warranted to be what they are represented.

Carlisle, May 10, 1855.

Land for Sale or Barter.

I WILL sell or barter, a tract of land, in Monroe township, Bedford county, Pa., containing *Six Hundred and Sixty-five Acres.* It is situated 3 miles from the town of Clearville, 10 miles south of Bloody-run, and 18 north of Hancock, Md., the latter place situate on the Chesapeake and Ohio Canal, and contiguous to the Baltimore and Ohio Railroad, affording at all times an excellent market for lumber, produce, &c., and furnishing supplies of plaster, salt and groceries, at very little above city prices. About two hundred acres of this tract is cleared, fifteen of which are meadow, the balance in a tolerable state of cultivation. The soil is of medium quality, part slate and part red slate, flint, &c.

The improvements are a good two-story Log House and Kitchen, Log Barn, and a good Saw-Mill. This property would divide very well into three farms, giving to each a portion of cleared land, with a good spring in a suitable place for building; or it would altogether make an extensive stock farm, for which it is well adapted, being well watered and having a large quantity of meadow land yet to clear. The terms will be made easy for the purchaser.

"New Institute." "Extra News." "Great Excitement."

Arrival of Dr. C. H. Bodge,

CHRONO-THERMAL PHYSICIAN and SURGEON, from New York.

Nervous trembling among the "Quacks" for the safety of their "Sugar Powders" and "Calomel." Humbuggery exposed and destroyed. New System of medicine introduced.

Dr. C. H. Bodge, offers his services to the inhabitants of Carlisle and the surrounding country, and flatters himself that he can perform cures by his system where all others have failed. He has taken the office in South Hanover Street, formerly occupied by Dr. J. K. Smith. He will at all times be found in his office, unless professionally engaged.—Every disease of the Eye and Ear cured by a new mechanical apparatus. Blood Suckers and Bone Destroyers, Barometer makers of the human constitution, take notice that one man can chase a thousand "Quacks," and two put ten thousand fools to flight, who willingly use mineral poison to cure the sick, or pretend to give health to the poor afflicted soul and body.

P. S. Patients can be accommodated with good board and scientific medical and surgical attendance at Dr. C. H. Bodge's Chrono. Thermal medical and surgical Institute, located in South Hanover street, Carlisle, Pa. For further particulars enquire at the Institute.

Washington Hotel.

West High St., Corner of the Public Square,

CARLISLE, PA.

THE subscriber respectfully informs his numerous friends and the travelling community, that he has leased that well known tavern stand formerly occupied by H. L. Burkholder, and recently by C. G. Stough, and is now fully prepared to accommodate all who may favor him with a call. The House has been fitted up in a neat and comfortable manner, and every thing will be done on my part to make all feel at home who may be pleased to stop with me. The Table will be supplied with the best that the market can afford, and served up in a way that cannot fail to please. The Bar will always be supplied with choice Liquors. A careful and obliging Ostler will always be in attendance.

CEMENT.

THE superior Cement, manufactured by J. Garver & Co., of Scotland, Franklin county, can be had in large or small quantities at H. SAXTON'S Hardware store, Main Street, Carlisle. All who have tried this Cement pronounce it the best article they ever used. From a great number of certificates given to the manufacturers, we select the following:

CHAMBERSBURG, Feb. 20, 1855.

To JACOB GARVER:—Sir—There has been used during the past year, under my direction, in the construction of "The Carlisle Water Works," and work of this Company, about 80 barrels of your Hydraulic Cement, which has proved to be a good and reliable article, and I take pleasure in recommending it to others as such.
