Any person or persons wishing to view the above described farm, can have an opportunity of doing so, by calling on the undersigned, who resides, one-fourth of a mile north of the same, or on Samuel Hale, who resides on the premises, either of whom will be pleased to show it.

GRAIN DRILLS FOR 1855.

Moore's Patent Grain and Seed Planter.

FOR planting Wheat, Rye, Oats, Indian Corn, Timothy seed, &c.

The operation of this machine has been highly satisfactory and successful wherever introduced and tested. Notwithstanding the great competition in the manufacture and varied inventions of this important agricultural implement, "Moore's Patent" continues to maintain its superiority over others now known to the farmer.

Its principal points recommending it are, 1st. Its durability. 2d. Its perfect simplicity of construction. 3d. The easy manner of regulating the machine to sow any desired quantity of grain to the acre. 4th. The exactness with which it distributes the seed, operating equally well on uneven or sidling grounds as on the level surface. 5th. The easy draught, being about 25 per cent. less than any other seeding machine now in use.

The undersigned begs leave to inform the farmers of Cumberland county, that he is authorized by the manufacturer to sell the above drill. All orders will be promptly attended to and full satisfaction given, by calling upon, or writing to me at Carlisle. Send in your orders early.

STARTLING, BUT TRUE!

Warning to Every Sensible Woman.

WHY FEMALES SUFFER IN HEALTH.

NO woman of delicacy is willing to disclose the peculiar ailments incident to her sex, even to a most intimate family physician. This modesty and delicacy is implanted by nature, and neither should nor need be subjected to the rude shocks inevitable in making known to the other sex those ailments belonging exclusively to the female.

Except in extreme cases, her sensitiveness will sacrifice her health rather than her delicacy. The consequences are serious, lamentable, and life-long.

Thus what at first could have been easily remedied, or perhaps better still, not incurred, becomes a complication of diseases, not only ruining the health of the mother, and embittering her days by sickness and suffering, but entailing broken constitutions upon her children, and embarrassing, if not distressing, the business and pecuniary prospects of the husband. Let every sensible woman *take warning in time*, (as thousands have done) by the bitter experience and sufferings of others, of the dreadful consequences she entails upon herself and those endeared to her, by her ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice! How many suffer from *prolapsus uteri* (falling of the womb,) or from *fluor albus* (weakness, debility, &c.)—How many are in constant agony for many months preceding confinement! How many have difficult, if not dangerous deliveries, and slow and uncertain recoveries!

To the question, how are these to be prevented? what shall be done? the answer is simple.

Let every woman ascertain for herself, without violence to her delicacy, the nature and character of the ailment (to which she as a female is subject) the causes from which it may arise, and the proper remedies for its cure and future prevention.

This she can do by possessing a little volume (already possessed by thousands) which tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. *This little volume is entitled the Married Woman's* PRIVATE MEDICAL COMPANION, *by Dr. A. M. Mauriceau, Professor of Diseases of Women. One hundredth edition (500,000) 18mo., pp. 250.* [On fine paper, extra binding, $1,00.]

A standard work of established reputation, found classed in the catalogues of the great Trade Sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time *five hundred thousand copies* have been sold, of which there were upwards of one hundred thousand sent by mail, attesting the high estimation in which it is held as a reliable popular medical book for *every female*, the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands, both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author (which he is permitted by the writers to publish) will attest.

Extract of a Letter from a gentleman in Dayton, Ohio.

DAYTON, May 1, 1847.

Dr. A. M. Mauriceau:

"My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in "The Married Woman's Private Medical Companion." But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless."

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary therefore *to Caution the Public* to buy no book unless the words "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by mail, and address Dr. A. M. Mauriceau.

☞ Upon receipt of one dollar "The Married Woman's Private Medical Companion" is sent *(mailed free)* to any part of the United States, the Canadas and British Provinces. All letters must be post-paid, and addressed to Dr. A. M. Mauriceau, box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.
