STARTLING, BUT TRUE!

Warning to Every Sensible Woman.

WHT FEMALES SOFFER IN HEALTH. No woman of delicacy is willing to disclose the peculiar ailments incident to her sux, even to a most intimate family physician.
This modesty and delicacy is implanted by nature, and neither should nor need be subjected to the rude shocks inevitable in making known to the other sex those ailments belonging exclusively to the female.

Except in otterne cases, her sensitiveness.

nature, and neither should nor need be subjected to the rude shocks inovitable in, making known to the other sex those aliments belonging scalusively to the female.

Except in extreme cases, her sensitiveness will sacrifice her health rather than her delicacy. The consequences are serious, lamentable, and life-long.

Thus what at first could have been easily remedled, or perhaps better still, not incurred, becomes a complication of diseases, not only tuining the health of the mother, and embittering her days by sickness and suffering, but entailing breken constitutions upon her children, and embirterings her days by sickness and suffering, the business and pecuniary prospects of the husband. Let every sensible woman take warning in time, (as thousands have done) by the bitter experience and sufferings of others, of the dreadful consequences she entails upon herself and those endeated to her, by her ignorance of the sinplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy, incridis seeking medical advice! How many suffer from prolapsus uteri (falling of the womb.) or from flour albus (welkness, doblity, &c.)!—How many are in constant agony for many months preceding confinement! How many have difficult, if not dangerous deliveries, and slow and uncertain recoveries!

To the question, how are these to be prevented? what shall be done? The astise is simple? This she can do by possessing a little volume (already possessed by thousands) which tells her what is the intaiter, and tells her what to do for it, in simple but chaste words, and such as she can understand. This little volume, and other efties, and sold by the principal booksel. In the under the delicacy in the under thousand copies have been sold, of which there were upwards of one hundred thou

Here every woman can discover, by compar-

ing her own symptoms with those described, the nature, character, causes of, and the proper resemedies for, her complaints.

The wife about becoming a mother has often meed of instruction and advice of the utmost importance to her future health, will find such instruction and advice, and also explain many symptoms which otherwise would occasion and electronic and advice, and also explain many symptoms which otherwise would occasion and electronic and e

Extract of a Letter from a gentleman in Daylon, Ohio. Onio.

Datton, May 1, 1847.

Dr. A. M. Mauriccau:

"My wile has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; overy successive one, more and more doblitated and prostrated her, putting her life in liminient danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this time (now about two months) I heard your book, highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery for M. M. Desomeaux provided a remedy. If opened a prospect to me which I little conceived was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in "The Married Woman's Private Medical Companion." But for this, cre another year would have passed over my head, in all human probability my wite would have been in her grave and my children left motherless."

In consequence of the universal popularity of DATTON, May 1, 1847.

North Middleton tp., Sept. 20, '65.
