STARTLING, BUT TRUE!

This modesty and delicacy is implanted by mature, and neither should nor need, be subjec-ted to the rude shocks inevitable in making invonto the other sex those aliments belonging invonto the other sex those aliments belonging involution to the other sex those aliments belonging in the consequences are serious, lamentable, and life-long. Thus what at first could have been contract the subscriber having closed are the subscriber having

will sacrine other nearth rather than her defactly. The consequences are serious, lamontable, and life-long. Thus what at first could have been easily rem-effiel, or porhaps better still, not incurred, be-comes a complication of diseases, not only ruin-ing the health of the mother, and embittering fire days by sickness and suffering, but entailing broken constitutions upon her children, and ombartassing, if not distressing, the business atd' pecuniary prospects of the husband. Let every sensible woman take warning in time, (as thousands have done) by the bitter experience and sufferings of others, of the dreadful conse-ginences she entails upon herself and these en-deared to her, by her ignorance of the simplest and plainest rules of health as connected with the marings state, the violation of which entails disease, suffering and misery. How many are sufficing of the dirend of which they are ignorant, and for which their defices of which they are ignorant, and for which their defices forbids seeking medical advice! How many suffer from prolapseus derivers, and show and uncertain recoveries! To the question, hew are these to be preven-ted? what shall be done / the answer is simple.

uncertain recoveries! To the question, how are these to be preven-ted? what shall be done *i* the answer is simple. Let every woman ascertain for herself, with-out violence to her delicacy, the nature and character of the alluent (to which she as a fo-malo is subject) the causes from which it may arrise, and the proper remedies for its cure and future prevention.

male is subject) the causes from which it may arise, and the proper remedies for its cure and future prevention. This she can do by possessing a little volume (already possessed by thomsands) which tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. This little volume is enti-tled the Married Woman's PRIVATE MEDI-CAL COMPANION, by Dr. A. M. MAURICAR, Professor of Discasses of Women. One hun-dredth edition (500,000) Ismo, pp. 250. [On flue paper, extra binding, \$1.00.] A standard work of established reputation, found chased in the catalogues of the great Trade Sales in New York, Philadelphia, and other cities, and sold by the principal booksel. Jers in the Unled States. It was first published in 1847, since which time *hick hundred* thousand oppies have been sold, of which there were up-wards of one hundred thousand sent by mail, attesting the high estimation in which it is held as a reliable popular medical book for cerery fe-male, the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which the is yearly con-sulted by housands, both in person and by let-tor.

Here every woman can discover, by compar Hore every woman can discover, by compar-ing here own symptoms with those described, the nature, character, causes of, and the proper re-medies for, her complants. The wife about becoming a mother has often need of instruction and advice of the atmost immediates to her divise health will field each

need of instruction and advice of the atmost importance to her future health, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxi-lety or alarm, as all the peculiarities incident to her attuation are described. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. The revelations con-tained in its pages have proved a blessing to thousands, as the immunerable letters received by the author (which he is permitted by the writters to publish) will attest. Extract of a Letter from a gentleman in Daylon, Obio.

Extract of a Letter from a gentleman in Dayton, Ohio. DATTON, May 1, 1817. Dr. A. M. Mauriceau: "My wite has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting ber life in imminent d'anger, and which was on the last occasion despaired of. I suppo-sed that this state of thing away inevitable, and resigned myself to meet the worst. At this time (now about two months) theard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. Desoneaux provided a remedy. If opened a prospect to me which I little conceiv-ed was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in .- The Marield Wo-man's Private Meduel Companies." But for this, ere another year would have passed over my head, nall human probability my wife would have been in her grave and my children left mo-theres."

MR. DAVID SIPE, of Oarlielo, has been ap-pointed Agent for the county of Cumber-land, for the sale of FISK'S PATENT METAL-LIO BURIAL CASE, which is superior to any of the kind now in use, for ordinary interments and transporting the dead. It provents imme-late decomposition and obviets the macasette and transporting the dead. It prevents imme-diate decomposition and obviates the necessity of hasty burials; for, being perfectly air-tight, it prevents any unpleasant ador from escaping and can be kept from day to day, until it suits the convenience of the friends of the deceased to inter.
