The American attempts to justify the Town Council for removing JOSEPH STUART from the office of Borough Constable. Of course! That paper appears to be the particular pet of our Councilmen, receives all the feels disposed to cry " amen" to all their dir-"Mr STUART was not removed on political grounds," says the American, "but on the ground of gross dereliction of official Tell that to the Marines, sapient American : we know better, our citizens know the case if he dared to exercise the right of a freeman, and vote as he pleased. If he had not performed his duties as an officer, how happened it that the Council never found this out till the day after the election ? What was it that brightened up the visions of our Councilmen at that particular time?

We care very little about the removal of Mr. STUBAT, but yet, as he had been appointed by the present Council, we could not but deprecate the motives that prompted his removal .of contemptable littleness.

In answer to our strictures, two weeks Conneil the American swells up, and asks us, with child-like simplicity, "is it not contemptible littleness in our present Roman Catholic Post-Master-General to remove every petty knee to the Pope of Rome?" The American's reference too, to "the miserable, contemptible Pierce dynasty," as it is pleased to designate the National Administraon, is in exceeding bad taste at this time .-Within the last few months thirteen States of this Union have recorded their verdict-ELEVEN in favor of the Administration, and Two against it, and these two by reduced majorities! Such has been the verdict of the people. They have spoken in an earthquake voice against the BUNTLINE. In about an hour and a half we shot ten beautiful plump partridges—that is, our friend and ourself shot them—for we don't wish to claim all the credit of the shooting. For the hospitality bestowed upon us by our friend, Judge SPEART bestowed upon us by our friend, Judge STEART and lady, we both felt under many obligations. Speaking of field sports, Mr. HEBBERT-alias "Frank Forrester"-an author of considerable eclebrity, thus writes:

"There is certainly no more manly, no more salubrious, no more animating sport, than the pursuit of game, with the trained dog and the gun. It naturally induces hardihood, and atrength of limb, freeness of breath, vigor of constitution; it makes men familiar with the works of God, in the field and forest, which are unknown to the dwellers of pent un cities! - A CHANGE IN THEIR TACTICS.

There is nothing more common now a days, han for a scoundrel detected of horse stealing, r some other felony, to change his name if he unate to escape; or, if so unfortunate s to suffer imprisonment, to change his mode on proceeding on his release from the State pri-on, in order in the first case to balle pursuit, and in the second to lull, by a pretended refor-mation, the suspicions of those upon whom he collectively with the master spirits of corrupt re need but point to the exemplars of Knowthe "only old line Whig elected to any office in it in the second. Like their prototype above entioned, they changed its name "Know-Nothing" into "American," after they had made the first an abomination by their individual assassinations, midnight orgies, and wholesale shaughters. They hoped by that means to clude he popular indignation, and escape with their oantling, that broad brand of infamy which an indignant people seldom falls to impress upon the brows of its betrayers. How futile the expectation! The Arnolds and the Burrs of the country bore its indelible impress, and the same fate as certainly awaited Know-Nothingism. It attacts a certainly awaited Know-Nothingism. It is attact as could not avail it. Identified as the presiding genius of Louisville, like a guilty wiretch it was dragged before the popular tribunal, and condemned by those it counted among its victims. If the analogy holds any further between the principles of the parties here associated, we may soon expect a corresponding change in the tactics of those Know-Nothing leaders: they too will endeavor by a pretended reformation to repress the suspleion of those who are too wary to be deceived by their old professions. That there will be such a change, is a fact as orident to us as is the necessity of one to themselves. We will not attempt to define tit, but mark our word, the last election has opened their eyes to the necessity of one to themselves.
