THE FALL CROPS .- Our farmers are now daily engaged (when the weather permits) in gathering in their fall crops—corn, potatoes, turnips, winter-apples, &c. Winter is stealing rapidly upon us—the sear and yellow leaf give notice that we may soon expect the rude blasts to greet us. As appro priate at this time, we subjoin the following beautiful lines by Mrs. James Matoon, which she publishes under the caption of "FAREWELL TO SUMMER."

The Berks County Address.

In another column we publish the able address of the Democratic Standing Committee of Berks county, to which we would direct attention. In the language of the Pennsylvanian, the suggestions of the Committee on the subject of organization and unity of action, are cogent and practical, and should attract general attention. Indeed the necessity of unity of action in the promotion of any cause dependent upon popular and are ready and willing to trainp the mon sentiment, is too well established by the events ster in the dust whenever and wherever he of each year, to need discussion; nor can the darcs to show his hydra head? ace of such unity be readily overrated. of when properly organized, and when their principles and policy have been thoroughly disgarian and other European settlers, in northcussed. THE ADJUTANT GENERAL CASE.

THE ADUTANT GENERAL CASE.

Soon after Gov. Pollogs took his Gubernatorial seat, he attempted to nullify the laws of Pennsylvania, by appointing one of his Know-Nothing friends to the office of Adjustan General of the State, then held by Gen. Bowman, and whose term of sorvice had not expired. This infraction of the laws was met by Gen. Bowman in a becoming spirit, and resisted. It was precisely what we had a right to expect from a gentleman of the General's intelligence and patriotism. The matter was carried to the Supreme Court, and decided recently by that tribunal at Sunbury. The attempt to displace Gen. Bowman, without cause, and substitute in his stead Mr. Power, has met with a merited robuke from the Supreme Court.

the Supreme Court.

There are three points in the case decided by the Court, to wit:

1st. That the commission bestowed by Gov.
Pollock on General Powen, is illegal and

Pollok on General Power, is illegal and void.

2d. That Gen, Bownan is the legally commissioned Adjutant General of the State, for three years from the date of his appointment by Gov. Biolar, and his commission does not terminate until October, 1856.

3d. That although Gen. Bownan is in law the Adjutant General of the State, and entitled to the office, yet the Court refuse to grant a mandamis on the State Treasurer to compet the payment of his salary, because he has not, as yet, complied with the precedent condition of the Millitia Law, requiring certain official bonds first to be entered up by him.

Gen. Bownan has finalle one of the most efficient Adjutant Generals of the State we have ever had. He has been uniformly courteous to all in his official relations, showing special favors to none, save whose merit alone demanded a recognition of his claims, a fact which will be generally conceded by the military without distinction. He was Adjutant General during the minimistration of Gov. Shure, and it is well remembered to this day with what energy and patriotism he organized two regiments and a detachment of yolunders in Pennsylvania, for the Mexican way. In the absence of appropriations, Gov. Shure, and it is effection.
