Warning to Every Sensible Woman.

WAY FEMALES SUFFER IN HEALTH. Way FERRIES SUFFER IN HEATH. TO woman of delicacy is willing to disclose the puccular ailmonts incident. to her sex, wen to a most intimate family physician. This modesty and delicacy is implanted by nature, and neither should nor need be subjec-ted to the rude abocks inevitable in making known to the other sex these allments belonging exclusively to the female. Except- in extreme cases, her sensitiveness will sacrifice her health rather than her delicacy. The consequences are serious, lamentable, and life-long.

cult, if not dangerous deliveries, and slow an uncertain recoveries!

To the question, how are these to be preven To the question, now are these to be preven-ted i what shall be done i the answer is simple. Let every woman ascertain for herself, with-out violence to her delicacy, the nature and character of the ailment (to which she as a fo-male is subject) the causes from which it may arise, and the proper remedies for its cure and folgues prevention.

arise, and the proper remedies for its cure and future provention. This she can do by possessing a little volume (already possessed by thousands) which tells ber what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. This little volume is enti-tled the Married Woman's PRIVATE MEDI-CAL GOMPANION, by Dr. A. M. MAURICRAY. Professor of Diseases of Womon. One hun-dredth edition (560,000) Isino, pp. 250. [On flue paper, extra binding, \$1,00.] A standard work of established reputation, found classed in the catalogues of the great Trado Sales in New York, Philadeiphia, and other cities, and sold by the principal booksel-lers in the United States. It was first published in 1847, since which time five hundred thousand copies have been sold, of which there were up-wards of one hundred thousand sent by mail, attesting the bigh estimation in which it is held as a roliable popular medical book for every fe-male, the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which here some and by let-ter. Here overy woman can discover, by compar-

Here every woman can discover, by compar-

Here overy woman can discover, by compar-ing her own symptoms with those described, the nature, character, cuses of, and the proper re-medies for, her complaints. The wite about becoming a mother has often need of instruction and advice of the utmost importance to her future health, will find such instruction and advice, and also explain many symptoms which otherwise would occasion aut-iety or alarm, as all the peculiarities incident to her situation are described. It is of conrue impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. The revelations con-tained in its pages have proved a blessing to thousands, as the innumerable letters received by the author (which he is permitted by the writers to publish) will attest.

The subscript of the su can ever repay the congations 1 am under to you, for having been the means of imparting to us the matters contained in "The Married Wo man's Privato Medical Companion." But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left mo-therless."

therless." In consequence of the universal popularity of t the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptilious lafringoments of copyright, and other devices and deceptions, it has been found necessary therefore to Cauton the Public to buy no book unless the words " Dr. A. M. Mauriceau, 129 Liberty Street, N. Y.," is on (and the entry in the Clork's Office on the back of) the title page.

Read! Read! M. DAVID SIPE, of Carlisle, has been ap-hand, for the sale of FISK'S PATENT METAL-LIC BURIAL CASE, which is superior to any of the kind now in use, for ordinary interments and transporting the dead. It provents imme-diate decomposition and obviates the necessity of hasty burials; for, being perfectly air-tight, it prevents any unpleasant odor from escaping and can be kept from day to day, until it suits the convenience of the friends of the deceased to inter. We might offer hundreds of certifi-cates in corroboration of these facts, but the following will sufflee: *Certificates from Clay, Websiter and others.*
