To the question, how are these to be prevented? what shall be done? the answer is simple.
Let every woman ascertain for herself, without violence to her delicacy, the nature and character of the ailment (to which she as a faile is subject) the causes from which it may arise, and the proper remedies for its cure and fiture prevention.

This she can do by possessing a little volume (alrewly possessed by thousands) which tells her what is the matter, and tells her what to do for it, in simple lift chaste words, and such as she can understand. This little volume is entitled the Married Woman's PRIVATE MEDI-

A standard work of established reputation, found classed in the catalogues of the great Trade Sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time fire hundred thousand copier have been sold, of which there were upwards of one hundred thousand sent by mail, attesting the high estimation in which it is held as a reliable popular medical book for every female, the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands, both in person and by letter.

The wife about becoming a mother has often inhed of instruction and advice of the utmost importance to her future health, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. The revelations contained in its pages have proved a blessing to thomsands, as the innumerable letters received by the author (which he is permitted by the writers to publish) will attest. riters to publish) will attest.

resigned myself to meet the worst. At this
time (now about two months) heard your book
light speckers, and containing some matters time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages impartied to my wife, on learning that the great discovery of M. M. No pecuniary consideration cun ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in "The M writed Woman's Private Medical Companion." But for this, ere another year would have passed over this, ere another year would have passed ove my head, in all human probability my wife would
