Apology .- For the last week or more we have been suffering from a severe and obstinate cold, and have folt no disposition to attempt to ribute much to our columns this week .---If flax-seed, rock candy, lemon-juice, licorice root, and a hundred other nostrums are of any avail, we hope to be about again in "a few davs."

Thanksgiving day was appropriately observed by our citizens generally. There was a general suspension of business and religious excreises were held in the churches.

LEFT FOR WASHINGTON .- Mr. TODD, member of Congress elect from this district, left Carlisle on Tuesday morning for Washington, to enter upon his duties.

SECOND LECTURE OF THE COURSE.-The sec ond lecture of the course before the Union Fire Company, will be delivered at Marion Hall, or Thursday evening, the 6th of December, by WILLIAM HENRY WELSH, ESq., of York. Mr. WELSH is a chaste and finished speaker, and has had enosiderable experience as a lecturer. He has selected for his subject -"The influence of Utilitarianism on Social Life." We hope to see the Hall crowded to its utmost capacity on this occasion, as a rich intellectual trea may be expected.

The Fair commences, as and so lightly appreciated as the compromi ve stated in our last, on the 24th of December and will continue for one week.

MR. M'CLINTOCK'S LECTURE .-- The first of series of Lectures for the benefit of the Union Fire Company, was delivered on the evening of the 22d inst. at Marion Hall, by Rev. Joux M CLINTOCK, of Carlisle. Subject-" Impressions in Europe." The Hall was tilled with attentive listeners, and a large number of ladies were in attendance to cheer on the good work with their

bright glances and approving smiles. Of the lecture of Mr. M'CLINTOCK we nee say but little, for our evidence is not wanting to satisfy the people here of the speaker's talents or the ability with which he treated his subject Suffice it to say, then, that the address was not only well delivered, but was filled with choice historical facts, and a great deal of highly inte resting information

We hope to see these lectures encouraged by our citizens. But, there is one suggestion we would make to the gentlemen composing the Union Fire Company, and that is that they prohibit the delivery of political lectures. Our people have no desire to pay for hearing Know. Nothing speeches and falsehoods. They had enough of that last winter, and they don't wish

LATE FROM EUROPE .--- By the arrival at Now f the steamship North Star, we have news from Europe one day later. From the Crime there is nothing new, except that there is a great movement at Simpheropol, many of the inhabitants removing north, and all the hospitals be ing removed to Perekop, Nicolaief and Chern. Provisions were uncommonly dear at pheropol. The Santhal insurrection in India is still unsubdued, but the depredations o

the insurgents were fewer and within very con fined limits. A large and heavily arme cal fleet has been destroyed or dispersed north of Shanghae by a British cruiser. The arrival of the Canada, puts us in posse

sion of foreign news one week later. The exoftement in England, in relation to a war with the United States, had abated. There is nothing new from the seat of war, excepting unrelia ble rumors of battles near Perekop and Sin pheropol, and the bombardment of Nicolaieff eace rumors are numerous, but unrellable.

Strenuous efforts have been made to bring Swe den into the alliance. Unfriendly relations ar arising between England and Spain. The excitement in England respecting a wa

with the United States had quite subsided, and the leading journals, ashamed of the panic they created, attempt to excuse it, and let themselves down gontly by attributing what they call the hostile attitude of the American Government to an election ruse on the part of the President and his Cabinet, although it is notorious that the excitement was begun, fostered and kept alive by the London Times.

Anxiety is now manifested to learn how the news of the excitement and the comments of the Times will be received in America. Intelligent arguments and decided that a lady should spend Englishmen, of all ranks, express themselve pained and humiliated by the whole affair.

THE RIOTS, IN BATH, MAINE.-Peter M' aughlin, the Catholic priest of Bath, has is sucd a card to the people of that city, thro' the columns of the Tribune, in regard to the recent disgraceful riot in that city, by which the Catholics were prevented from lying the corne last week for some Northern port. He says that if the officers had notified him er postponed or abandoned the ceremony; and rthermore, that he leaves it with the citizen of Bath to decide whether the corner-stone shall be laid, and will not knowingly offend them in anything. ANOTHER CONFESTED SEAT .- The new ter

ritories will give some work to Congress at the prening of the session. Kansas sends two laimants for a gast in Congress, and Nebras ka, it appears, is in the same trouble. Mr. Bennett, the Whig candidate, claims the first

MANUPACTURES.-Our citizens should stin themselves to their own interests, by encoura ging the location of manufactorics in our midst. Labor is the foundation of wealth, as well as progress, in a town. It is true that population is steadily increasing-that strangers are attracted slowly by the excellent schools, publie and private, as well as the brautiful location of the town, but our citizens should not rest satisfied by this slow progress, but exert themselves to add to the present sources of progress those other important aids which flow rom labor giving employments.
