Warning to Every Sensible Woman. WHY FEMALES SUFFER IN HEALTH.

Nux Females Suffer in Health.

No woman of delicacy is willing to disclose the be-peculiar allmosts incident to her sex, even to a most intimate family physician.

This modesty and delicacy is implanted by nature, and heither should nor need be subjected the rade shocks inevitable in making shown to the other sex those allments belonging endualvely to the female.

Except in extreme cases, her sensitiveness will sacrifice her health rather than her delicacy.

The consequences are serious, lamentable.

The consequences are serious, lamentable and life-long.

The what at first could have been easily rem comes a complication of diseases, not only fulling the health of the mother, and embittering her days by sickness and suffering, but entailing broken constitutions upon her children, and embarrassing, if not distressing, the business and pecuniary prospects of the husband. Let every sensible woman take warning in time, (as thankands have done) by the bittor-experience and sufferings of others, of the dreadful consequences she entails upon herself and those endiamedita her, by her ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

How many are suffering from obstructions or fregularities peculiar to the female system, which undermine the health, the effects of which they are ignormat, and for which their delicacy working medical adviced How many suffer from prolapsus uteri (falling of the womb), or from fluer albus (weakness, debility, &c.)—How many are in constantagony for many months preceding confinement! This little volume is entitled the Married Woman's PRIVATE MEDICAL COMPANION, by Dr. A. M. MAURICEAU, Professor of Diseases of Women. One hundred the dition (500,000) 18mo., pp. 250. [On fine paper, extra binding, \$1,00.]

A standard work of established reputation, found classed in the catalogues of the great Trade Sales in New York, Philadelphia, and ofter eltes, and sold by the principal booksellers in the United States. It was first published in 1847, since which time fire hundred thousand copies have been sold, of which there were upwards of one hundred thousand sent by mail, steesting the high estimation in which it is held as a reliable popular medical book for crey female, the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands, both in person and by letter.

instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

It is of course impracticable to convey fully the various subjects treated of, as they are of a mature strictly intended for the married or those contemplating marriage. The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author (which he is permitted by the writers to publish) will attest.

DATTON, May 1, 1817.

Dr. A. M. Mauriceau:

"My wite has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this, time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, Teamoto express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomean x provided a remedy. If opened a prospect to me while I little conceived was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in "The Married Woman's Private Medical Companion" But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless."
