The Commercial Department of these journals involves a large expenditure; contains varied and accurate reports as to all branches of trade; and is second to that of no paper published in New England.

These journals are carefully conducted and edited in a faith in democratic principles, but in a spirit of conciliation to all parties. As not vertising mediums they are unsurpassed; penetrating, as they do, into such a variety of households scattered over the whole Union, and read as they are by all classes of the community, they furnish an opportunity for the diffusion of information which can scarcely be obtained elsewhere.
