This is right .--The streets were in a wretched condition, and the health of our citizens as well as the dirty arance of the town, suggested that the filth and rubbish should be removed.

The Defficiency Bill has been sadly scored by nation on the 12th section of the June platform." This is a very pertinent inquiry, and one which deserves to be answered-and that, too, at an carly day. But to the article :

The Deficiency Bill has been sadly scored by the House, and it now remains for continittees of conference to arrange the grounds of adjust-ment between that body and the Schate. The action upon the Bill has been sweeping, but there appears to be a determination to rebuke, and check if possible, that reekless spirit of speculation, which exists among government employees and renders the Deficiency Bill a matter of course at every session of Congress. There is considerable fluttering just now a-mong sundry lobby members and others inter-ested in the items of the Deficiency Bill by an unwargantable borrowing upon the nation's credit? I inited to lay some of the said items before your readers, that they may see "how the money goes." "THE AMERICAN STATE GOUNCIL.—The Council which convended in Maconi, on Wednes-hay, numbered 'about thirty or forty,' as we carn by the Georgia Citizen. "The Georgia Ctrizen of the 10th inst., after publishing the resolutions, **srys**: " These were the resolutions actually pass-ed after an animated discussion of the report of the committee, and the striking out of a reso-lution indirectly endorsing the nomination of Fillmore and Donelson. Several gentlemen were anxious to do this, but we are happy to say, through the able efforts of Dr. M. A. Franklin, of this city, and Jonathan Davis, Esq., of Lee, the American party of Georgia have not been blindly committed to the action of the Phila-delphia Convention. Our renders will recollect that the platform of the F-brury Convention expressly places the American party in oppo-

The Computtee of Ways and Alcans will turn their attention to the Tariff Bill immediately upon the roturn of Mr. Campbell. The bill re-ported to the Senate by Gen. James will be laid before the Committee and probably become the popular measure of the House, with a few tri-fling amendments. This Bill enlarges this free list and differ tailly write the investers and popular measure of the House, with a low tri-ling amendments. This Bill enlarges this free list and effectually protects our importers and the revenue from fraud. I think the provisions of Senator James' Bill to approve them. The Tarift needs remodelling to meet the require-ments of the progress of the age, the only ques-tion can be as to which is the best plan. The movements of Mr. Buchanan are watch-ed here with considerable anxiety by the poli-teians, and it is a matter of speculation with many of them as to where they will go. The

many of them is to where they will go. The Buchanan Presidential stock is at a premium just now. The reseption of Mr. B. in this city will be a grand aflair and every way worthy of so distinguished and able a statesman.
