Late and Important from intexico.

New Orleans, April 26.—By the arrival of the steamer Texas, from Vera Cruz we have dates from that city to the 22d inst., and from the city of Mexico to the 19th inst. Communication with the capital is open from all parts; and the country in a peaceful condition. Tamarez had escaped on board the British war steamer Pouclone, having reached Vera Cruz disnear descripted on board the fiftish war steam-or Ponclope, having reached Vera Gruz dis-guised, as a drayman. The church property had been selzed by the military, on account of the Bishop refusing to surrender the same. It is said that the Archbishop of Mexico had offered Gen. Comfort \$500,000 to have the deree revoked, but the proposition was not accepted.

The Railroad Riots at Eric.

Buppalo, April 26.—A despatch from Erie Pa, states that a mob assembled there last night and destroyed the office of the "Constitutional" ewspaper, which had advocated the railroad iterests and defended the action of the Penn nylvania Legislature, in passing the act restor-ng the charter of the Eric and Northeast Rali-coad Company. The mob was also threatung to destroy the railroad property.

More Troubles in Kansas--- The Military Ordered Ont.

CANINE SAGACITY .- The most wonderful case f canine sagacity is related py the Hartford

Times:

Mr.—, a venerable and worthy man, had a Newfonddland dog which used to go a short distance and get the Daily Courant, bringing it home in his mouth, evineing great anxiety until the had procured the paper. The paper changed owners, and at the same time became more vascillating in principles than before.—It advocated Sam. As soon as this change took place the dog was noticed to appear ashaned when the paper was given him to carry home; he would sometimes drop it in the streets, let it lie, and put for home. At last he refused te go for the paper at all; he was of no use to the owner except to get his paper, and as the dog positively refused to have, anything to do with it any longer, he procured a Know-Nothing to kill him, paying him the sum of twenty-five cents for the Job.

DECLINE IN BREADSTUFFS .- The New York Decline in Breadstuffs.—The New York Journal of Commerce, says:

For the first time in many many months, we see that common to good New York State flour is quoted by wholesale at a fraction under six dollars a barrel. When the channels of communication with the interior are fully open, an avalenche of breadstuffs and provisions will be down upon us; and as the demand from abroad is diminished, except a reduced prices, there is a fair chance that consumers will yet reap some benefit from the immense crops of last year. The farmers, millers, and dealers have had their chance: the consumers will now have theirs.—Mach, however, will depend upon the prospects of the growing crops, which thus far, so far as we have learnest, are generally favorable.

ed by Physicans. The chills and fovers are unknown, also pulmonary complaints, being protected from the north east winds. by the 'Algebanies. The water is pure and amongst the best, the land abounding on the springs.

Four Railroads will shortly be complaints, New York, Philadelphia, Pitisburg, Erie, Baffialo, and all the crities on the Lakes. They are the Sunbury and Erie, the Allegiany Valley, the Pitisburg and Buffalo, and the Venango—Energetic exertions are being made for the building of the Tyrone and Clearfield, which also passes through this property. The effect of this upon trade, and general development, as well as the coal, may be imagined.

The large and flourishing town of St. Mary's is in the centre of the tract, numbering near 8,000 inhabitants. It has Hotels, good public schools, saw and gust mila, stores, well stock. ed and everything desired. There are 235 haif acre lats in the town of St. Mary's which will be sold and the proceeds equally divided amongst those who buy farms. Ridgeway, the country seat, where an extensive business is done, adjoins the tract on the west. The whole district is intersected by good turnpike and other roads.

This is a rare opportunity offered to those who wish to farm or have a good investment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, Railroad facilities, and its location, a correct judgement may be formed of its present advantages and ultimate increase.

By writing to the office directions will be given of excursions will shortly be adopted. There is an excellent opening for various branches of mechanical business, especially shoemakers, carpenters and others.

By writing to the office directions will be given. Address or apply to Samuel W. Cattell, Secty, 135 Walnut street, but warsn'te deeds given.
