A FARM\* Within the Reach of Every Man. 27,000 ACRES of good FARM AND COAL LAND WELK COUNTY,

Senzinger. Township, Pennsylvania, for salo giving a Farm of 25 acres for \$200, payable in astalments of \$1 per week, or at the same rate nonthly.

giving a Farm-of. 25 acres for \$200, payable in instalments of \$1 per week, or at the same rate monthly.

Farms of 50, 76, 100, or more acres adjoining in proportion. Each Farm fronts upon a road thirty feet in width.

"THE SOIL is a rich limestone loam, and especially adapted to cultivation, as it is neither hilly nor stony, but gently rollings or fine table land. Around and through first property there are already some 20,000 acres under cultivativation, and its fertility has been established from the crops produced. Upon this subject it is tasy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the CHEATEST, as land of a similar quality is selling at much higher prices adjoining, and expecially such as contains coal.

THE COAL.—This in particular is the Coci, District, superal veins underlaying the whole property, and the attention of miners, and those adjoining, and especially such as contains coal. THE COAL.—This in particular is the Obely District, saveral veins underlaying the whole property, and the afternion of inhers, and those aguainted with coal lands, is specially called to it. It has the advantage of being the hearest to the great lake market, with which it will be connected by the Sunbury and Eric Railroad now under contract and in course of completion from Eric to Hidgeway, with desconding grade the whole way. The soil over hitminious coal, is the best, for instance England and other countries. The price per acre is strifling for the coal alone, as it will certainly, in so Awarable a location within a short time pay largely. This important as an immense coal trade will son open. Four coal companies have already been started to work mines in the vicinity, and there are now fifteen openings around St. Mary's.

THE TIMBER, Stockholders also receive.—There is no reservation whatever either of timber or coal. It is very valuable, and will pay for a great part of the land. On account of the excellence of streams there are fine opportunities for mills.

For health, the location is much recommended by Elveriating.

ties for mills.
For health, the location is much recommended by Physicians. The chills and forers are
unknown, also pulsionary complaints, being
protected from the desirth east winds by the Al-

protected from the forth east winds by the Alleghands. The water is pure and amongst the best, the land abounding on fine springs.

Four Railroads will shortly be completed connecting it by a direct confunction with New York. Philadelphia, Pittsburg, Eric, Burfalo, and all the effice on the Lakes. They are the Sunburg and Buffalo, and the Yenango.—Energetic exertions are being made for the building of the Tyrone and Clearfield, which also passes through this property. The office of this upon trade, and general development, as well as the coal, may be imagined. "The large and flourishing town of St. Mary's is in the centre of the trace, unmbering near by." The large and flourishing town of St. Mary's is in the centre of the tract, unmbering near 8; 000 inhabitants. It has Hotels, good public schools, saw and grist mills, stores, well stock act and avorything desired. There are 256 halears lots in the town of St. Mary's which will be sold and the proceeds equally divided amongst those who buy farms. Ridgeway, the country seat, where an extensive business is done, adjoins the tract on the west. The whole district is intersected by good turnpike and other roads.

done, addons not race to heavest. The whole district is intersected by good turnpike and other roads.

This is a rare opportunity offered to these who wish to farm or have a good inyestment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, Italiroad facilities, and its location, a correct judgement may be formed of its present advantages and ultimate increase.

By writing to the office directions will be given to those who wish to visit the land. A system of excursions will shortly be adopted.

There is an excellent opening for various brittless of mechanical business, especially tannorles, wheelwrights, axe-handle makers, shoemakers, carpenters and others.

Farms can be bought by enclosing the first instalment. Ladies can hold sharea, in their own right. Title unquestionably good, and warantee deeds given. Address or apply to Samuel W. Cattell, Secty, 155 Waluut street.
