THE ATKIN'S SELF-RAKING

REAPER AND BROWER,

WILL be for sale in Carlisle, by Henry L.
We Burkholder, at the following rates: Reaper, cash; \$165; Reaper and Mower, cash, \$190; Reaper and Mower, on time, \$210; Reaper, \$180; \$75 on delivery; \$75 first of September, and the balance first of December, with freight from the Factory at Harrisburg. The Atkin's Reaper is built of the best material that can be found, and put up in the best workmanlike manner, warranted to cut grain as well as can be done with the Cradle. Farmers getting Atkin's Reaper is do not run the risk they would in buying. At Reaper, ithout, one thousand miles away from home sair-there should unything break they can get the dastings at the Factory at Harrisburg, at any time. Persons huying this Henner have the benefit of all improvements free, hereafter, by applying to J. S. Wright; at the Factory.

CHRISTIAN'STOUFFER, Agent at Chambersburg, in: L. BURKHOLDER, Travelling Agent at Carlisle; Henry Herr. Agent at Harrisburg, and James Patton, General Agent at the Factory, at Harrisburg, for Pennsylvania. Order through the above agents. REAPER AND MOWER,

the Factory, at Harrisburg, for Pennsylvania. Order through the above agents.

What befree evidence of frue worth could be given than such unparalleled increase—I in 1852—3000 in 1856! and though so little known, and all the edium to come of numerous failures of other Self-rakers, yet not two-thirds of the customers could be supplied last year.—More will be dispipointed the next; for, if formers can get a reliable. Self-raker, they are determined to have it; and this is now thoroughly established in the confidence of the farming public. It has a raker always on hand and doing the work, particularly in a heavy or lodged crop, better than aman. Saving at least modifier hand in binding; is even a greater Grain Saver han. Labor Saver, and is also a distinct Mower. If-you intend getting rid of your old fashioned back-breaker, and to get a Raker with Bone and Muscle of Iron and Wood, you must be moving, for 3000 next harvest will by no means surply, the demand, as the 1200 which was so insufficient the past season.

Strong, Reliable, Good Materials; and Well Built. A Reaper that constantly gets out of order is a missance and dear at any price.—Breakages with this have been inconsiderable, notwithstanding the increase of gearing by the Raker, owing to the care used in good materials and putting them together thoroughly.—Many have cut from 100 to 300 acres and over with one, without detention, or any expense for repairs. The harvest is a hurrying season; you want a machine that can be relied upon, and this is the one, as experience shows.

you want it machine that can be free upon, and this is the one, as experience shows.

In ease of Management, this is not surpassed.
Few purchasers the past year, and not one Agent left tenhad had any experience with it; Agone in tenhad had any experience with it; and generally machines were shipped so late as only to be received just at harvest, or after it was begun. Hence there was no time to experiment and learn about, it, which is generally so necessity with now machines. This will be obviated the couling season, with those who are vise in briefing earlier than last spring. Some, too, fell into improper hands, as orders were filled indiscriminately, till the supply failed.—In several instances machines were returned and sold again to proper parties, and they gave excellent satisfaction. Yet under all these disadvantages, not two per cent. gave any serious

A First Rate Mower-Knife Never Chokes A First Rate Mower—Knife Never Chokes. From the litst Introduction of this machine. Farmers have said that to give it the lead far ahead of all others, we had only to make it as good in grass as in grain. We succeeded pretty well with the grass fast season; but the modified of the knife was hardly fast enough to cut prairie-grass, and some other kinds. A laster gear was made and supplied to a part of the pirchasers, which gave excellent satisfaction, and this will be used on all this season. With this motion, and the knife in good order, it could not conclude, we own Murray's patent for put this motion, and the knife in good order, it could not back siekledade, by which choking is obviated; and to guard against contention, and insure our customers against moleculation, we have bought the right to use Green and Forbush's patents on the knife as we build it.—

we have bought the right to use Green and Forbush's patents on the knife as we build it.—
The change from Reaper to Mower is very simple and made in a few minutes; and a wheel is attached to the outer end of the moving bar, to regulate the height of entiting, to facilitate backing, and move from field to fight.

Points to Consider in Buying a Reaper. Every farmer, by himself or with a neighbor, should have a Reaper. If you have none, or even if you have an old-tashioned back-breaker, you will look for one—

1st—To ent well, clean and easy, and with a knife that does not "choke."

21—Strong and reliable, not getting snow when needed:
3d—Easily managed, that you, your boys and hands can work without difficulty.

4th—Not hard upon the Team, neither of heavy draught, galling their neeks by heavy weight upon the pole, nor thumping their shoulders at every obstruction. There should be no side draught. o no side draught

oth-Taking up lodged Grain, and working well-in likinds.

| Typon the first five points no Redper excells Agklu's Self-laker, and few equal-it, notwithstanding the addition of the Raker.
| 6th-Saving one hand in Raking, the hardest work in the harvest field.
| 7th-Saving in Lord time and Raking, the hardest work in the harvest field.
| 8th-Saving in Cutting and Raking, not shattering by the reet, and by the Raker jerking it off the platform.
| 9th-Saving Wastage after binding, the grain being laid so evenly and straight as to be bound securely, preventing scattering: in the after handling, and protecting the heads well when stacked.
| 17 Upon the Sixth, Eighth and Ninth points. well in all kir

Upon the Sixth, Eighth and Ninth points

BC7 Upon the Sixth, Elghth and Ninth points, we unhesitatingly claim superiority over all other Renpers over invented. The saving or wasting grain in harvesting with machines, is a point not properly appreciated. Even between those considered good and the Atkin's there is a difference, at present prices, of ten to twenty dollars per day, and over.

10th—Convertable into a Mower, with little trouble and small cost.

10T Some old-fashboned back-breaking Reapers can be used for mowing, but no other Self-Raker; and no convertable machine claiming to be a good Reaper is superior to ours in grass.

11th—Knite never chokes. By Murray's lack sickle edge, for which we own the exclusive patent, the great trouble in Mowing Satsive patent, the great trouble in Mowing !! chines—the choking—is effectually opviated. Cantiste, Pa., Sept. 5, 1856.

J. S. Wanger, Esq. Dear Sir.—Having purchased in July last, Atkin's Self-Ridding Respectant Mower from your agent, H. L. Burkholder, Esq., I take pleasure in recommending it as the most commineal Reaper for the farmer to buy. I am sure I never before cut and put up the same amount of grain with so little expense, so little help, and so well. I believe I have saved the one-third of the price of the Reaper this year. Not only that, but it runs light on the horses. The Raker saves a good man. The oven and regular depository of the gravels will save one man in four in binding. We have had from twenty to thirty farmers looking at it when going, many of whom had other Keapers but not the Raker, and the most of them said it was the best, and it performed well. I know of no REFERENCES:

I be the on the Reaper this plant condition of the price of the Reaper this plant state, and the horse and the one child of the price of the Reaper this plant state, and it be plant state, and it is the plant state, and it performed well. It have seven and regular depository of the gravels will have an and regular depository of the gravels will have an and regular depository of the gravels will have an and regular depository of the gravels will have an and regular depository of the gravels will be longer, many of whom had other Reaper this poar.

The price are do low that people can't help buying. For sale at Saxton's.

JAMES McKEEHAN,
Seet'y, Of the Big Spring Literary Institute, and the best, and it performed well. The now of an accidence of the mand from twenty to thirty furners looking at the when yello

the most complete, economical labor-saving machine of the kind yet introduced into this part of the bountry; lathough my farm is hilly, it performed its work to my entire satisfaction, and to the admiration of a great number of farmers who were present on the occasion of its final. Besides making the cleanest work of any Reaper! I have ever, seen, it requires but half the power to move it that Reapers do generally. Two horses or mules can draw it with ease, though I used four on account of the land being somewhat rough and orieven.

To, all farmers having large, crops to cut I would advise as a matter of convenience and economy to procure one of Alkin's Soil-raking Reaping Machines... Yours Respectfully, JAOB NOFFSINGER.

Reaping Machines., Yours Respectfully,
JACB NOFFSINGER.

MR. HENRY L. BURKHOLDER—Dear, Sir—L
take great pleasure in bearing testimony to the
invaluable character of "Atkin's Self-raking
Reaper and Mower," I had both in use on my
farm and each performed its work to my entire
satistaction, and to the admiration of many
farmers who witnessed them in operation. I
recommend this machine, as one of the mostimportant inventions for the farmer, and a great
economical labor-saving machine.
You, as the agent for Mr. J. S. Wright, have
done a lasting benefit to our farming community
by the introduction of the Reaper into this
county.

Odkland, Cumb. co., Pa.

Oakland, Cumb. co., Pa.

York Struck Springs, Pa., Oct. 1, 1855. J. S. Wribur-Dear Sir -Automaton Self-raking Reaper I bought of you did its work well, cutting and raking better than I have over lad grain litted from a hand rake, and taking of

the heaviest and most weighty bundles. It is of easy, draught and well built, and I think is will give perfect satisfaction to every farme that wants one. I would not have any other. W. F. BONNER. W. F. BONNER. Павизвива, Ра., Sept. 30, 1855. J. S. Whomt-Dear Sir-The Reaper that I bought of your agent, Albert Jaques, I fried on my farm in the presence of some fifty of the best farmers in Dauphin county, and it gave perfect satisfaction to them all. I cut my harvest with the Reaper; and if I could not get subther I would not take one thousand dollars for it. If the lie of one or we to you with the I feel.

this is of any use to you, you may use if as you choose. HENRY HERR. TRENTON, N. J., Oct. 17, 1855. J. S. Whight, and S. S. Whigh and J. S. Whigh and J. S. Whigh and J. S. Whighly delighted with; it done its work to my entire satisfaction in grain and grass, and I consider it the best Reaper in

done has not and I consider it the beauties, and I recommend it to the farm ELIJAH MOUNT. MARIETA, Pa., Oct. 18, 1855. J. S. WRIGHT-DER Sir-in regard to Alkin's Self-raking Reaper and Mower I bought of your agents. P. Morris & Co., of Philadelphia, and I must say, it done lig work with entire satisfaction in grass and groin, and would recommend it to the fairners of Pennsylvania.

JOHN MUSSER.

TRESTON, N. J., Oct. 1, 1855.

J. S. WRIGHT-Dear Sir-2 Your agent, II: G. Bennet, called on us this summire, to see if we would accept the agency of the Atkla's Solf-raking Reaper. We had made up our minds not to accept the agency of any Reaper or Mowor, until we could get one that we could have copilidence in to recommend to our customers, as we are manufacturing agricultural implications at Trenton.: Now, Sir, we would be glad to accept the agency of Atkin's Reaperbore, as we have implicit confidence to recommend it to the Farmers of New Jersey and Pennsylvania.

A FARM

Within the Reach of Every Man. 27.000 ACRES of good FARM AND COAL BAND IN Elk County, Benzinger Township, Pennsylvania, for said giving a Farm of 25 acres for \$200; payable this instalments of \$1 per week, or at the said fatter mouthly.

giving a Farin of 25 acres for \$200; payable my instalments of \$1 per week, or at the same rate mouthly. Farms of \$60,75,100, or more acres wishing in proportion. Each Farm fripht open to rad therty feet in width.

THE SOIL is a rich limestone fount, and esting in proportion, but gently rolling or fine table lind. Around and through this property there are already some 20,000 acres under cultivativation, and its fertility has been established from the crops produced. Upon this subject it is easy to be fully satisfied. There is a ready cash market, for produce which is mirch better than trade. It is the Cilipar Est, is land of a similar quality is selling at much higher prices adjoining, and especially such as contains coal. THE COAL.—This in particular is the Collistict, several veins underlaying the whole property, and the attention of miners, and those contained to it. It has the advantage of being the nearest to the great take market, with which it will be connected by the Sunbary and Eric Raftood now under contract and in course of complete from Eric to Ridgeway, with descending grade the whole whole way. The soil over bituminous took is the best, for instance England and other conditions, as if will certainly, In as survenible a location within a short time pay largely. This is important as an immense coal trade will soon open. Four coal companies have already been started to work mines in the vicinity, and shore are now fifteen openings around St. Mary's.

THE TIMBER, Stockholders also recolve.—There is no reservation whatever either of time ber or coal. It is very valuable, and will pay for a great part of the land. On account of the excellence of streams there are line opportunities for mills.

For health, the location is much recommendate the Publicians. The chills and fewer as in the cash is the land. On account of the excellence of streams there are line opportunities for mills.

executive or streams there are an opportunities for mills.

For health, the location is much recommended by Physicians. The chills and fivers are unknown, also pulmonary complaints, being protected from the north east winds by the Alexandra Management of the protection of the prote

protected from the north east winds by the Alleghanies. The water is pure and amongst the best, the land abounding on fine springs.

Four Unificads will shortly be completed connecting it by a direct communication with New York, Philadelphia, Pittsburg, Eric, Biditalo, and all the cities on the Inkes. They store the Sunbary and Eric, the Alleghanty Valley, the Pittsburg and Buffalo, and the Venango.—
Energetic exertions are being hade for the building of the Tyrone and Clearleld, which also passes through this property. The effect of this upon trade, and general development, as well as the coal, may be imagined.

The large and flourishing town of St. Mary's is in the centre of the tract, numbering near 3, 000 mbabitants. It has Hotels, good public schools, saw and grist mills, shores, well stocked and everything desired. There are 235 have are left in the town of St. Mary's which will be sold and the proceeds equally divided

acre for in the fown of St. Mary's which will be sold and the proceeds country wilded amongst those who buy farins. Ridgeway, the country seat, where an extensive business is done, adjoins the fract on the west. The which district is intersected by good turnpike and

done, adjoins the fracton the west. The whold district is intersected by good tutinpike and other roads.

This is a rare opportunity offered to those who wish to farm or have a good investment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, Railroad facilities, and its location, a correct indegenent may be formed of its present advantages and ultimate increase.

By writing to the office directions will be given the facture of excursions will shortly be adopted.

There is an excellent opening for various branches of mechanical business, especially tanneries, wheelvrights, axo-haddle makers, shoenakers, carpenters and others.

Farms can be longite by circlesting the first instalment. Ladies can hold shates in their own right. Title unquestionably good, and warantee deeds given. Address or apply to Sanuel W. Cattell, Sec'ty, 135 Walnut street, between Fourth and Fifth Streets, Philadelphia.

crator. L. Wilmarth, Esq., Pittsburg, Pennal Borough Connell of Sil Muli's to the Famile.

This is to certify that, having been over the treat, owned by the Ridgeway Farm and Coal Company and given it a thorough examination, we find the representations of that Company to be correct.

We find the soil to be the most fertile—the Coal and from Ore to lie in inexhaustable quantities, through the whole district—the Farms in exactlent order, and the intelligence and prospering of the people to be of the most gratifying character. We know that there is no healthier totation in the State, and we consider it a most desirable, place of settlement.

We make this declaration, as we believe there may be many persons who are unacquassised with these lands, and we are satisfied, from our knowledge of the subject, that information apon it will be a public benefit.
