Proclamation.

WHEREAS the Hon. JAMES H. GRAHAM, President Judge of the several Courts of Common Pleas in the counties of Cumberland, Perry, and Juniata, and Justices of the several Courts of Oyer and Terminer and General Jail Delivery in said counties, and Samuel Woodburn and John Rupp, Judges of the Courts of Oyer and Termiher and General Jail Delivery for the trial of all capital and other offenders, in the said county of Cumberland, by their precepts to me directed, dated the 15th day of April, 1856, have ordered a Court of Oyer and Terminer and General Jail Delivery to be holden at Carlisle, on the 4th Monday of August, 1856, (being the 25th day,) at ten o'clock in the forenoon, to continue one weeks,

NOTICE is hereby given to the Coroner, Justices of the Peace, and Constables of the said county of Cumberland, that they are by the said precept commanded to be then and there in their proper persons, with their rolls, records, and inquisitions, examinations and all other remembrances, to do those things which to their offices appertain to be done, and all those that are bound by recognizances, to prosecute against the prisoners that are or then shall be in the Jail of said county, are to be there to prosecute them as shall be just.

March 27. H. SAXTON.

Third Annual Fair OF THE Big Spring Literary Institute,

Will be held in Literary Hall, Mount[illegible] Pa., on the 12th, 13th, 14th & 15th days of August, 1856.

TO this Exhibition Farmers and Mechanics, Artists and the Ladies, are cordially invited to contribute the products of their industry and skill.

It has been objected, by some, that in the published list of premiums, too high a reward has been offered for the best Plowman; while nothing has been offered for the *Second Best.* In order to obviate this objection, the officers have agreed to the following changes, viz:

For best plowing a two-horse plow, worth $15.
" 2d best " $5, to be paid by the person to whom the *first premium* shall have been awarded.

For best plowing (by boy under 16)
The Scientific American.

For the purpose of exciting BANDS in the neighboring counties to honorable competition, a Silver E. Flat SOPRANO SAXE HORN, will be awarded to the Band which produces the best music during the Fair.

The *Big Spring Saxe Horn Band*, having procured a set of new Instruments, will be in attendance during the Fair to enliven the occasion with spirit-stirring music.

As quite a number of applications have been made for *space* in which to exhibit, it is desired that those who wish to exhibit many articles, should apply for *room* at as early a date as possible. For full particulars, send for a copy of the Rules and List of Premiums, which we have published in Pamphlet form.

500 Pieces Popular Music, 125 00

☞ This Association is founded upon honest and fair principles. Each book purchaser gets the value of his money in the book, and on account of the great number sold, becomes a shareholder in much valuable property. A certificate will be presented to each book purchaser, entitling the holder to an interest in the above valuable property. As soon as the books are all sold, notice will be given to the stockholders, and a convention will be held in Newville, at the Institute's Hall, when a committee will be chosen, to whom the property will be delivered to be distributed among the shareholders. All the articles that can, will be exhibited at the Institute's Fair on the 12th of August. From the very flattering manner in which this Joint Stock Association is received and patronized, and from the number of tickets already sold, it is confidently believed that the property can be delivered to the shareholders in a few months. For the character of the *"Big Spring Literary Institute,"* and those connected with it, we are permitted to refer to the following gentlemen.

Carlisle, July 3, 1856—6w

Valuable Limestone Farm for Sale.

SITUATE 2 miles east of Carlisle, in North Middleton township, on the Letort Spring, late the residence of Com. O'Brien, now owned and occupied by Christian Klepfer, containing

One Hundred and Sixty Acres,

about six of which are covered with good timber. The improvements are a large two story STONE HOUSE, elegantly finished, with a Stone Kitchen attached. A beautiful stream of water rises but a short distance from the house, upon which is situated a Stone Spring House. There is also a good Cistern at the door. A new two story Frame Tenant House and a well of water at its door. A large Stone and Frame BANK BARN, Wagon Shed, Stone Carriage House, with Cellar under the same. A large Orchard of excellent fruit. Also a new Orchard lately planted with Peaches, Apricots, Cherries, &c. There is a great quantity of young Locust on the farm. The buildings, fences, and every thing connected with the premises, are in good condition and repair.

This property offers rare inducements to purchasers, the location being a beautiful one, a convenient distance from town, and good roads leading to it. The farm is not only one of the most productive in the county, but the situation the most desirable. A desire on the part of the owner to move west prompts him to part with it, otherwise it would not be disposed of.

For terms and further particulars enquire of

WILL be for sale in Carlisle, by Henry L. Burkholder, at the following rates: Reaper, cash, $165; Reaper and Mower, on time, $210; Reaper, $180; $75 on delivery; $75 first of September; and the balance first of December, with freight from the Factory at Harrisburg. The Atkin's Reaper is built of the best material that can be found, and put up in the best workmanlike manner, warranted to cut grain as well as can be done with the Cradle. Farmers getting Atkin's Reaper do not run the risk they would in buying a Reaper about one thousand miles away from home; if there should anything break they can get the castings at the Factory at Harrisburg, at any time. Persons buying this Reaper have the benefit of all improvements free, hereafter, by applying to *H. S. Wright*, at the Factory.

CHRISTIAN STOUFFER, Agent at Chambersburg; H. L. BURKHOLDER, Travelling Agent at Carlisle; Henry Herr, Agent at Harrisburg, and James Patton, General Agent at the Factory, at Harrisburg, for Pennsylvania. Order through the above agents.

What better evidence of true worth could be given than such unparalleled increase—1 in 1852—3000 in 1856! And though so little known, and all the odium to come of numerous failures of other Self-rakers, yet not two-thirds of the customers could be supplied last year.—More will be disappointed the next; for, if farmers can get a reliable Self-raker, they are determined to have it; and this is now thoroughly established in the confidence of the farming public. It has a raker always on hand and doing the work, particularly in a heavy or lodged crop, better than a man. Saving at least another hand in binding; is even a greater Grain Saver than Labor Saver, and is also a first-rate Mower. If you intend getting rid of your old fashioned back-breaker, and to get a Raker with Bone and Muscle of Iron and Wood; you must be moving, for 3000 next harvest will by no means supply the demand, as the 1200 which was so insufficient the past season.

Strong, Reliable, Good Materials, and Well Built. A Reaper that constantly gets out of order is a nuisance and dear at any price.—Breakages with this have been inconsiderable, notwithstanding the increase of gearing by the Raker, owing to the care used in good materials and putting them together thoroughly.—Many have cut from 100 to 300 acres and over with one, without detention, or any expense for repairs. The harvest is a hurrying season; you want a machine that can be relied upon, and this is the one, as experience shows.

In case of Management, this is not surpassed. Few purchasers the past year, and not one Agent in ten had had any experience with it; and generally machines were shipped so late as only to be received just at harvest, or after it was begun. Hence there was no time to experiment and learn about it, which is generally so necessary with new machines. This will be obviated the coming season, with those who are wise in ordering earlier than last spring. Some, too, fell into improper hands, as orders were filled indiscriminately, till the supply failed.—In several instances machines were returned and sold again to proper parties, and they gave excellent satisfaction. Yet under all those disadvantages, not two per cent. gave any serious trouble; and we will guaranty much less next season.

A First Rate Mower—Knife Never Chokes. From the first introduction of this machine, farmers have said that to give it the lead far ahead of all others, we had only to make it as good in grass as in grain. We succeeded pretty well with the grass last season; but the motion of the knife was hardly fast enough to cut *prairie grass*, and some other kinds. A faster *gear was made and supplied to a part of the purchasers, which gave excellent satisfaction*, and this will be used on all this season. With this motion, and the knife in good order, it never chokes. We own Murray's patent for putting on the back sickle edge, by which choking is obviated; and to guard against contention, and insure our customers against molestation, we have bought the right to use Green and Forbush's patents on the knife as we build it.—The change from Reaper to Mower is very simple and made in a few minutes; and a wheel is attached to the outer end of the moving bar, to regulate the height of cutting, to facilitate backing, and move from field to field.

Points to Consider in Buying a Reaper. Every farmer, by himself or with a neighbor, should have a Reaper. If you have none, or even if you have an old-fashioned back-breaker, you will look for one—

1st—To cut well, clean and easy, and with a knife that does not "choke."

2d—Strong and reliable, not getting sick when needed.

3d—Easily managed, that you, your boys and hands can work without difficulty.

4th—Not hard upon the Team, neither of heavy draught, galling their necks by heavy weight upon the pole, nor thumping their shoulders at every obstruction. There should be no side draught.

5th—Taking up lodged Grain, and working well in all kinds.

☞ Upon the first five points no Reaper excells Atkin's Self-Raker, and few equal it, notwithstanding the addition of the Raker.

6th—Saving one hand in Raking, the hardest work in the harvest field.

7th—Saving at least another hand in Binding, by having the gravels well laid.

8th—Saving in Cutting and Raking, not shattering by the reel, and by the Raker jerking it off the platform.

9th—Saving Wastage after binding, the grain being laid so evenly and straight as to be bound securely, preventing scattering in the after handling, and protecting the heads well when stacked.

☞ Upon the Sixth, Eighth and Ninth points, we unhesitatingly claim superiority over all other Reapers ever invented. The saving or wasting grain in harvesting with machines, is a point not properly appreciated. Even between those considered good and the Atkin's there is a difference, at present prices, of ten to twenty dollars per day, and over.

10th—Convertable into a Mower, with little trouble and small cost.

☞ Some old-fashioned back-breaking Reapers can be used for mowing, but no other Self-Raker; and no convertable machine claiming to be a good Reaper is superior to ours in grass.

11th—Knife never chokes. By Murray's back sickle edge, for which we own the exclusive patent, the great trouble in Mowing Machines—the choking—is effectually obviated.

CARLISLE, Pa., Sept. 5, 1855.

J. S. WRIGHT, Esq.—Dear Sir—Having purchased in July last, Atkin's Self-Raking Reaper and Mower from your agent, H. L. Burkholder, Esq., I take pleasure in recommending it as the most economical Reaper for the farmer to buy. I am sure I never before cut and put up the same amount of grain with so little expense, so little help, and so well. I believe I have saved the one-third of the price of the Reaper this year. Not only that, but it runs light on the horses. The Raker saves a good man. The even and regular depository of the grain well save one man in four in binding. We have had from twenty to thirty farmers looking at it when going, many of whom had other Reapers but not the Raker, and the most of them said it was the best, and it performed well. I know of no machine equal to it. The Mower, after we had it started, cut 9½ acres from 6 o'clock to 10 o'clock. It was timothy. If these lines can be of any avail to you, you may use them as you think best.

Yours Respectfully,
JOHN S. STERRETT.

CARLISLE, Oct. 9, 1855.

To J. S. WRIGHT, Esq.—Dear Sir—In July last I purchased of your agent in Carlisle, H. L. Burkholder, one of Atkin's Self-Raking Reaping Machines, and can fairly recommend it as the most complete, economical, labor-saving machine of the kind yet introduced into this part of the country; although my farm is hilly, it performed its work to my entire satisfaction, and to the admiration of a great number of farmers who were present on the occasion of its trial. Besides making the cleanest work of any Reaper I have ever seen, it requires but half the power to move it that Reapers do generally. Two horses or mules can draw it with ease, though I used four on account of the land being somewhat rough and uneven.

To all farmers having large crops to cut I would advise as a matter of convenience and economy to procure one of Atkin's Self-raking Reaping Machines. Yours Respectfully,

JACOB NOFFSINGER.

CARLISLE, Oct. 8, 1855.

MR. HENRY L. BURKHOLDER—Dear Sir—I take great pleasure in bearing testimony to the invaluable character of Atkin's Self-raking Reaper and Mower," I had both in use on my farm and each performed its work to my entire satisfaction, and to the admiration of many farmers who witnessed them in operation. I recommend this machine, as one of the most important inventions for the farmer, and a great economical labor-saving machine.

You, as the agent for Mr. J. S. Wright, have done a lasting benefit to our farming community by the introduction of the Reaper into this county. Very Respectfully,

W. M. HENDERSON,
Oakland, Camb. co., Pa.

YORK SULPHER SPRINGS, Pa., Oct. 1, 1855.

J. S. WRIGHT—Dear Sir—Automaton Self-raking Reaper I bought of you did its work well, cutting and raking better than I have ever had grain lifted from a hand rake, and taking off the heaviest and most weighty bundles. It is of easy draught and well built, and I think it will give perfect satisfaction to every farmer that wants one. I would not have any other.

W. F. BONNER.

HARRISBURG, Pa., Sept. 30, 1855.

J. S. WRIGHT—Dear Sir—The Reaper that I bought of your agent, Albert Jaques. I tried on my farm in the presence of some fifty of the best farmers in Dauphin county, and it gave perfect satisfaction to them all. I cut my harvest with the Reaper, and if I could not get another I would not take one thousand dollars for it. If this is of any use to you, you may use it as you choose.

HENRY HERR.

TRENTON, N. J., Oct. 17, 1855.

J. S. WRIGHT—Dear Sir—The Reaper that you sent me I was highly delighted with; it does its work to my entire satisfaction in grain and grass, and I consider it the best Reaper in use, and I recommend it to the farmers of New Jersey. ELIJAH MOUNT.

MARIETTA, Pa., Oct. 18, 1855.

J. S. WRIGHT—Dear Sir—In regard to Atkin's Self-raking Reaper and Mower I bought of your agents, P. Morris & Co., of Philadelphia, and I must say, it done its work with entire satisfaction in grass and grain, and would recommend it to the farmers of Pennsylvania.

JOHN MUSSER.

TRENTON, N. J., Oct. 1, 1855.

J. S. WRIGHT—Dear Sir—Your agent, H. G. Bennet, called on us this summer, to see if we would accept the agency of the Atkin's Self-raking Reaper. We had made up our minds not to accept the agency of any Reaper or Mower, until we could get one that we could have confidence in to recommend to our customers, as we are manufacturing agricultural implements at Trenton. Now, Sir, we would be glad to accept the agency of Atkin's Reaper here, as we have implicit confidence to recommend it to the Farmers of New Jersey and Pennsylvania.

MULLICK & QUICK.

Carlisle, May 15, 1856.

Cumberland Valley Bank.

PROPRIETORS,

WILLIAM KER, ROBT. C. STERRETT, RICH'D. WOODS, JOHN C. DUNLAP, MELCHOIR BRENNEMEN, JOHN DUNLAP, JOHN S. STERRETT, H. A. STURGEON.
