THOMAS. CONLYN.

FARMERS, TAKE NOTICE.

THE ATKIN'S SELF-RAKING

REARER AND MOWER,

WILL be for sale in Carlisle, by Henry L.
Workholder, at the following rates: Reaper, cash, \$165; Reaper and Mower, cash, \$190; Reaper and Mower, cash, \$190; Reaper and Mower, on time, \$210; Reaper; \$180; \$75 on delivery; \$76 first of September, and the balance first of December, with froight from the Factory at Harrisburg. The Atkin's Reaper is built of the best material that can be found, and put up in the best workmanlike manner, wardingted to cut grain as well ab can be done with the Cradle. Farmers getting Atkin's Reaper do not rup the risk they would in buying a Reaper about one shousand miles away from houle; if there should anything break they can get the castings at the Factory at Harrisburg, at any time. Persons buying this Reaper have the hancest of, all improvements free, hereafter, by applying to J. S. Wright, at the Factory.
CHRISTIAN STOUFFER, Agent at Ohambersburg; H. L. BURKHOLDER, Travelling, Agent at Carlisle; Henry Herr, Agent at Harrisburg, and James Patton, General Agent at the Factory at Harrisburg, for Pennsylvania, Order through the above agents.

What better evidence of true worth could be REAPER AND MOWER,

the Factory, at Harrisburg, for Pennsylvania, Order through the above agents.

What better evidence of true worth could be given than such unparalleded increase—1 in 1852—2000 in 1856! And though, so little known, and all the odium to come of numerous faitures of other Self-rakers, yet not two-thirds of the customers could be supplied last year.—More will be disappointed the next; for, if farmers can got a reliable Self-raker, they are determined to have it; and this is now thoroughly established in the confidence of the farming public. It has a raker always on hand and deing the work, particularly in a heavy or lodged crop, better than a man. Saving at least another hand in binding; is even a greeter Grain Sav.—I er than Labor Saver, and is also a first-rate Mower. If you intom getting rid of your old fashioned back-breaker, and to get a Raker with Bone and Muscle of Iron and Yood, you no means supply the demand, as the 1200 which was so insufficient the past season.

Strong, Reliable, Good Materials, and Well Built. A Resper that constantly gets out of some stream of the reliable of the reliable of the reliable of the Raker, owing to the care used in good maters last and pultting them together thoroughly—Many have cut from 100 to 300 acres and over with one, without defention, or any exposse for repairs. The harvest is a hurrying season you want a machine that can be relied upon, and this is the one, as experience shows.

In case of Management, this is not surpassed.

for repairs. This harvest is a hurrying season; you want a machino that can be relied upon, and this is the one, as experience shows.

In case of Management, this is not surpassed. Fow purchasers the past year, and not one Agent in ten had had any experience with it, and generally machines were shipped so late as only to be received just at harvest, or after it was begun. Hence there was no time to experiment and learn about it, which is generally so, necessary with new machines. This will be obviated the coming season, with those who are wise in ordering earlier than last spring. Some, too, fell into improper hands, as orders were filled indiscriminately, till the supply failed,—In several instances machines were returned and sold again to proper parties, and they gave excellent satisfaction. Yet under all these disactionatings, not two per cent. gave any serious trouble; and we will guaranty much loss next season.

scason.

A First Rato Mower—Knile Nover Chokes, From the first introduction of this maching, farmers have said that to give if the lead far ahead of all others, we had only to make it as good in grass as in grain. We succeeded prety well with the grass last season; but the motion of the knile was hardly fast enough to cat prairie grass, and some other kinds. A faster gear was made and supplied to a part of the purchasers, which gave excellent satisfaction, and this will be used on all this season. With this motion, and the khife in good order, it nover clokes. We own Murray's patent for putting on the back sickle edge, by which choking is obviated; and to guard against contention, ing on the back sickle edge, by which choking. Is obviated; and to guard against contention, and insure our customers against molestation, we have bought the right to use Groon and Forbush's patents on the knife as we build it.—The change from Reaper to Mower is very slimple and made in a few minutos; and a wheel is attached to the outer end of the moving bar, to regulate the height of cutting, to facilitate backing, and move from field to field.

Points to Consider in Buying a Reaper. Every farmer, by himself or with a neighbor, should have a licaper. It you have none, or oven if you have an old-fashioned back-breaker, you will look for one—

1st—To cut well, clean and casy, and with a knife that does not "choke."

2d—Strong and reliable, not getting stork when needed.

3il—Easily managed, that you, your boys and hands can work without difficulty.

4th—Not hard upon the Team, nelther of heavy draught, gailing their necks by heavy weight upon the pole, nor thumping their shoulders at every obstruction. There should be no side draught.

5th—Taking up lodged Grain, and working well in all kinds.

C. Upon the first five points no Reaper excells Atkin's Solf-Raker, and few equal it, not-

well in all kinds.

— Upon the first five points no Reaper excells Atkin's Solf-Raker, and few equal it, notwith-standing the addition of the Raker.

— Oth—Saving one hand in Raking, the hardest
work in the harvest field.

— Tth—Saving at least another hand in Binding,
by having the gravels well haid.

— Sth—Saving in Cutting and Raking, not shattering by the reel, and by the Raker jerking it
off the platform:

— Wh—Saving Wastage after binding, the grain
being laid so evenly and straight as to be bound

being laid so evenly and straight as to be bound securely, preventing scattering in the after handling, and protecting the heads well when stacked.

C. Upon the Sixth, Eighth and Ninth points. we unhesitatingly claim superiority over all other Respers over invented. The anylog or wasting grain in harvesting with machines, is a point not properly appreciated. Even between those considered good and the Akin's there is a difference, at present prices, of ten to twenty dollars per day, and over.

10th—Convertable lute a Mower, with little

deliars per day, and over.

10th—Convertable into a Mower, with little
trouble and small cost.

117—Some old-fusilioned back-breaking Reapers can be used for mowing; but no other SelfRaker; and no convertable machine chiming
to be a good Reaper superior to ours in grass.

11th—Knife nover chokes. By Murray's
back sickle edge, for which we own the exclulive patent, the great trouble in Mowing Machines—the cholding—is effectually obviated.

Carling, Pa., Sont, 6, 1855.

Associate Judge.

To the free and independent voters of Cumberland County.

TELLOW-CITIZENS:—I offer myself to your consideration as a candidate for the your consideration as a candidate for the offee of Associate Judge of Cumberland county, at the ensuing election, and promise if elected to discharge the duties of said office with fidelity.

Carlisle, July 31, 1856.

WRICHES, JEWELRYAND STEPHER AND SILVER WARE, and because the started, cut 63 acres from the form of the price of the Rapper this way one man in four. In binding. We have had the largest and handsomest stock of SILVER WARE, and the most of them said it was the last of the largest and handsomest stock of SILVER WARE, and the most of the most of them said it was the least, and it performed well. I know of no fany avail to you, you may use them as you think best.

Your Respectfully.

SILVER WARE Large practices the strength of the price of the Rapper this way one man in four. In binding, We have had the started, cut 63 acres from 6 o'clock to 10 o'clock. It was timothy. If these lines can be of any avail to you, you may use them as you think best.

Yours Respectfully.
