Democratic State Ticket.

FOR GOVERNOR, WILLIAM F. PACKER, Of Lycoming County. FOR CANAL COMMISSIONER, NIMROD STRICKLAND, Of Chester County.

ADMITTED TO PRACTICE .--- On Thursday last on motion of Hon. FREDERICE WATTS, JOHN LEE, Esq., was admitted to practice law in the several Courts of Cumberland county. Mr. LEE is a young man of fine abilities and

good acquirements. He is a thorough student, and well versed in the mysteries and technicalities of the law. We learn that he passed a very satisfactory and creditable examination. He is a young man of much promise, and will make a good counsellor and a prompt and safe business attorney.

COUNTY SCHOOL SUPERINTENDENT .-- It will be observed, by reference to our advertising col-umns, that the School Directors of the several districts of Cumberland county, are required to meet in Convention on Monday, the 4th day hardy population-with water power in abund-of May next, for the purpose of electing a Coun-ance, and a climate unsurpassed, if our citizens. of May next, for the purpose of electing a Counyears, and to determine the annual salary of the their duty, it is solf-evident that our "ancient

They will have to be brought to a sense of their villanics by the strong hand of the federal law; for, from all accounts they are in open rebellion against the authority of the land, affording plenty of reason for interference in their "domestic concerns." We have strong faith that Mr. Buchanan will put an end to eir vile pranks and settle the Mormon question satisfactorily and forever.

THE WRATHER .- April, thus far, has been the most unpleasant month of the year. On Sunday afternoon it commenced snowing, hailing, raining and blowing all at once, causing podestrians to shiver again. The thermometer was almost at freezing point, and it has been getting no better fast. It continued to snow all getting no better fast. night and part of Monday, and, notwithstan- ments which may be made during the summer ding most of it melted as fast as it fell, the ground in places was well covered, and the mountains presented a winter-like appearance. creeted two very neat and convenient two story Some of the people who have gone from here to brick tenant houses. the west, are, we learn, writing back and saying that they have no doubt we are in the midst of genial spring while they are shill in the grasp of winter. No such thing at all. The trees are as lifeless as a girdled forest, and it is only here and there that the grass has struggled into its green jacket in spite of the biting frost .--The weather might be worse, but we do not exactly understand how things could be managed to bring it about.

APPORTIONMENT BILL. - The Apportion ment Bill, as it passed a final reading in the Senate on Saturday, makes Cumberland county a Representative district, with one member and Comperland and Dauphin a Senatorial district, with one Senator. It is a very unfair and infamous bill, and we hope to see it defeated in the House. The people of Cumberland, as we said before, will not submit to be hitched to Dauphin. There is no business connection and no communication between the inhabitants of the two counties, and never will be .-They are strangers to each other, with wholly different views and inclinations, and separated from intercourse by the Susquehanna river .--It is therefore extremely unjust to all the people of the proposed district to connect them, as well as impolitic and unwise. We trust this bill will not pass.

SALE OF THE MAIN LINE. -One of our mem bers of Assembly, Mr. ANDERSON, has favored us with a copy of the bill now before the House providing for the sale of the Main Line of our public improvements, and he asks us if we fa-
