

AMERICAN VOLUNTEER.

JOHN B. BRATTON, Editor & Proprietor. CARLEISLE, PA., JULY 9, 1857.

Democratic State Ticket.

FOR GOVERNOR, WILLIAM F. PACKER, Of Lycoming County. FOR CANAL COMMISSIONER, NIMROD STRICKLAND, Of Chester County. FOR SUPREME JUDGES, WILLIAM STRONG, Of Berks County, JAMES THOMPSON, Of Erie County.

Standing Committee Meeting.

A meeting of the members of the Standing Committee of the Democratic Party of Cumberland county, will be held at MARTIN'S Hotel, in Carlisle, on Saturday, July 26th, at 10 o'clock, P. M.

The following named gentlemen compose the Committee:

July 9, 1857. Carlisle, West Ward, S. H. Gould; East Ward, A. F. Neek; Dickinson, Charles Horner; East-pennborough, John Wolf; Frankford, John Sanderson; Hopewell, O. R. Fiske; Hampton, David Huns; Lower Allen, John Young; Upper Allen, James Graham; Mechanicsburg, W. C. Houser; Mifflin, Wm. Henry; Monroe, James Burnett; Newville, Jacob Kinlos; Jr.; Newton, Ezekiel Walker; North Middleton, James Cleland; South Middleton, Joseph A. Stuart; Silver Spring, Michael Kosh; Shippensburg, T. P. Blair; Shippensburg, J. Criswell, Jr.; Southampton, L. W. Maxwell; West-pennboro', Wm. G. Myers; New Cumberland, Saml. Trout.

THE 4TH IN CARLEISLE.—The national holiday passed off quietly in our borough. At early cock-crow thirteen rounds of cannon were fired from the square. Soon after sun-rise the busy note of preparation was observed among our brethren, who, in flannel shirts and patent-leather boots, were preparing to take the cars for Chambersburg to join in the celebration at that place. At an early hour they were on the streets with their beautifully decorated engines, and marched to the depot to take the cars. They returned in the evening in good trim, well pleased with their trip. The Junior Cadets, Capt. STEVENSON, had a parade both forenoon and afternoon, and united their efforts with others to scare up the American eagle and call down the shade of WASHINGTON. This company is composed of lads of from 12 to 15 years of age, and is well drilled and presents a fine appearance. The juveniles were also busy in firing crackers, races, &c., to the constant annoyance of sober minded men and our old maids. Several little parties of ladies and gentlemen repaired to the country to enjoy themselves in a quiet manner, and away from the "noise and confusion" of the town. In the evening a fine display of fire works attracted a large crowd of our citizens to the square, who were delighted with the exhibition. The weather was charming, and no accident of any kind occurred in our county that we have heard of.

DICKINSON COLLEGE.—THE COMMENCEMENT.—This being the annual commencement week of Dickinson College, our town is filled with strangers, attracted here to witness the exercises, many of whom have sons, wards, or relatives in the Societies and the graduating class. The exercises that preceded commencement were as follows: On the Sunday morning previous the Baccalaureate Sermon was preached by Prof. JOHNSON. On Monday evening the anniversary of the Belles Lettres Society took place; the exhibition of the Union Philosophical Society followed on Tuesday evening. The regular annual Commencement of Dickinson College takes place to-day, (Thursday), on which occasion addresses will be delivered by members of the graduating class.

A GREAT MAN FALLS!—EX-GOVERNOR WILLIAM L. MARY, late Secretary of State, died suddenly, at Balltown, N. Y., on Saturday last. He was found dead in his room—Gov. Mary was about 70 years of age. His remains have been taken to Albany for interment.

The Court of Appeals of the State of New York have given their decision in relation to the City Police Bill. The decision declares the bill to be constitutional—six of the Judges agreeing to the decision and two dissenting. Mayor Wood has accordingly discharged his police force.

The Philadelphia Times calls Gen. Packer, our candidate for Governor, "a trimmer." The Pittsburg Post says, "a most excellent school-teacher was also called 'a trimmer' by the juveniles under his charge; and Gen. Packer will 'trim' David Willmet & Co., at the next election, as the pedagogic used to 'trim' his pupils.

THE SUPREME COURT NOT SLAVEHOLDERS.—The Washington Union says, the majority of the Supreme Court are not owners of slaves, as has been repeatedly asserted. Four of the Justices reside in free States, and the Chief Justice has not owned a slave for thirty years. They came to him by inheritance, but he voluntarily gave them their freedom, and two, who were too old to take care of themselves, he provided for during their lives.

MURDER IN KANSAS.—A despatch from St. Louis, dated July 2, says that James Lyle was killed on the 29th at Leavenworth, Kansas, by Haller, a Free State man, in an affray growing out of the election of fill vacancies in the City Council. Lyle was County Probate Clerk. Haller had been arrested, and a riot was apprehended.

The Chicago Tribune says because the Free State men stand at the head of the recent election in Kansas, the Pro-slavery force of the Territory was found to be not over 15000. How utterly baseless for the "friends of freedom" then to have declined voting, and how plainly it shows that agitation merely for political purposes has been prolonged.

The New York Commercial says a cat will always sit with her back to the fire before a storm. Let every cat be driven out of doors, and then we shall have clear weather. This will be found an infallible remedy for the conser's tail.

THE NATIONAL ADMINISTRATION.

The administration of Mr. BUCHANAN has been in existence four months, and, if we may judge from the tone of the public press and the sentiments of the people, as expressed in public assemblages, it has more than met the most sanguine hopes of its friends, and rendered satisfaction to the country at large. The difficulties so long existing in Kansas and Utah, will soon be adjusted; a friendly intercourse and good understanding is being cultivated with all foreign States; the revenue of our own country is on the increase, and the Treasury is full to repletion; the husbandman is receiving more than a remuneration for his toil, and general health and prosperity prevails throughout the Union. Indeed, our country has never experienced a greater degree of prosperity, our people were never more happy in the enjoyment of their inestimable privileges. Thus far, then, the administration of JAMES BUCHANAN has been eminently successful, and has made a most favorable impression upon the minds of the masses. Pending the exciting Presidential contest last fall, we contended for the election of Mr. BUCHANAN, not merely from partisan feelings, but because we felt convinced he was the man for the crisis—a statesman possessing experience, ripe knowledge, honesty, and spotless private character; one who had never attempted to conceal or mystify his opinions, and whose patriotism and love of country was proverbial. We felt convinced, that if he should be called to the Presidency, he would not disappoint the expectations of the country nor blanch the hopes of the great Democratic party—a party whose principles he has so long defended and still reveres. We rejoice that our predictions, thus far, have been verified, and that the administration of President BUCHANAN gives such universal satisfaction to the country. We feel satisfied, too, that at the end of his four years term the people will accord to him "well done, good and faithful servant."

Mr. BUCHANAN was peculiarly fortunate in selecting his cabinet. They are all great men—great in mind, influence, character and capacity, and this it is that sheds lustre upon the administration, and furnishes another evidence of the wise discrimination and sagacity of the President. With such administrative talent as is combined in the cabinet of Mr. BUCHANAN, there can be "no such word as fail." The people feel safe and secure when the affairs of their country are confided to such statesmen as BUCHANAN, CASS, BLACK, BROWN, COBB, FLOYD TOUCY and THOMPSON. Four of them are ex-Governors, and, with the exception of Judge BLACK, all of them have served their constituents in Congress, and have earned national reputations.

Such being the men and the character of the administration, it is in vain for a reckless abolition press to attempt to make opposition, and misrepresent the acts of President BUCHANAN. His character for integrity of character and statesmanship, was established and acknowledged before some of his assailants were born, and it is labor lost for them now to attempt to tear the well-earned laurels from his brow. They may, for the sake of manufacturing political capital, try to mislead the people by publishing that which they know to be false, but the acts of the President is what will be looked at, and by them will be judged by his countrymen. Thus far, then, we repeat, the administration of Mr. BUCHANAN has met the most sanguine expectations of the country, and we feel a confidence in predicting for it a bright future.

THE CROPS IN THE SOUTH.—The wheat harvest in Georgia and Alabama, is over, and the papers say, that both as to quantity and quality, it is the best ever had in those States. Oats, rye and barley are all equally good. Corn looks promising. New wheat is selling at \$1 per bushel. In North Carolina and Virginia the wheat is now being harvested, and is also represented as being good. New wheat brings \$1.50 at Fredericksburg, Va.

In some portions of Maryland, particularly on the Eastern Shore, the arm worm has been very destructive to the wheat, grass and corn crops. In the western section of the State the wheat is said to be very fine.

THE CASES OF DEER BEES.—The graziers and drovers have been hindered for months to keep up the prices of beef and forming monopolies. "A Grazer," in the Germantown Telegraph, who feels that both sides should be heard, defends his brethren from these charges, and says the simple truth is, that the consumption of beef in this country is gradually becoming greater than its capacities of supply, and that it is the same case in France and England! He asserts that the graziers make no more profit at present from cattle than they did several years since, if we consider the enhanced value of everything they themselves have to purchase, for they now procure cattle from the drover at an advance of 50 per cent. over what they then did, and he believes, from the scarcity and value of cattle everywhere, is compelled to purchase of the drover at the same increased price. The truly remedy then suggests itself, which is, to be less wasteful in the consumption of beef than we have hitherto been, and to cease the slaughter of our calves. "Grazier" contends that with the wide domain still possessed in each of our States for pasturage, the rearing of cattle should be a portion of every farmer's business, large and small, and that a system of judicious pasturage will produce his soil, and increase its power of production beyond any other means he can adopt. His advice is "to keep our calves and raise them, and let the knights of the cleaver do without vent for their city friends, while in the meantime we may permit the laws of trade to regulate a matter which they have always done and always will do." There appears much force in these remarks, and as the subject is one that largely interests the general community, we should like to hear a more feasible plan for obtaining cheap beef, if it can be devised.

COINAGE OF THE MINT.—During the month of June, the coinage at the U. S. Mint in Philadelphia was \$2,843,832 pieces, of the value of \$310,000, of which \$23,496 was in gold; \$205,000 in silver, and \$222,000 in copper. The gold coins numbered 2,200,000. The gold bullion deposited amounted to \$217,000, of which \$207,451.50 was from California, silver bullion deposited \$1,197,150, of which \$1,161,000 included purchases, and \$36,150 Spanish and Mexican fractions of a dollar, received in exchange for new cents. Of old style copper cents, received in exchange for new cents, the value was \$9,280. Of coins on hand at the close of the month the value was \$351,135.27 in silver and cents, and \$377,008.72 in gold.

THE LARGEST MAN IN THE WORLD.—The West Tennessee Whip announces the death of Mr. Miles Ward, near Lexington, in that State, and says: The deceased was, beyond all question, the largest man in the world. His height was seven feet six inches—two inches higher than Porter, the celebrated Kentucky giant. His weight was a fraction over a thousand pounds. It required seventeen men to put him in his coffin, and it took over one hundred feet of plank to make his coffin. He measured around the waist six feet and four inches.

The Main Line.—When Will the Purchasers Take Possession?

Since the sale of the Main Line of the Public Improvement, the question has been repeatedly asked, when will the Pennsylvania Railroad Company take possession of their purchase? A reference to the act under which the sale was made, gives us the information sought for:

1. The purchasers, on the day of sale, to deposit \$100,000 in cash or State bonds, in the hands of the Governor, as a pledge for complying with the terms of sale, and to be forfeited in case of non-compliance.

2. The amount of sale to be paid in the bonds of the Company, bearing interest at the rate of 5 per cent. per annum, \$100,000 of which bonds shall be payable on the 31st of July, 1858, and annually thereafter, until the 31st of July, 1860, when \$1,000,000 of the residue shall be payable, and \$1,000,000 annually thereafter until the whole is paid.

3. As soon as the purchasers shall make the payment and deliver the bonds required, and fully comply with the conditions of the act, the Secretary of the Commonwealth shall transfer to such purchasers, under the Great Seal of the State, the whole Main Line of Public Works, between Philadelphia and Pittsburg, consisting of the Philadelphia and Columbia Railroad, the Eastern division, the Juniata division, and the Western division of the Pennsylvania Canal, and the interest of the State in the bridge at Duncan's Island, and all the property, buildings, machinery, locomotives, cars, materials, &c., belonging to the same; subject to all existing contracts made by the State in respect to the use of said Works.

4. As soon as the purchasers shall give notice to the Governor of their readiness to take possession of the Works, he shall cause notice thereof to be given to all the Superintendents, Collectors, Officers and Agents of the Commonwealth employed on the same, who shall thenceforth continue in their several duties and employments, at the expense of the purchasers, until removed or re-appointed.

This is the substance of those portions of the Act which relate to the terms of sale, and of time and mode of transfer. It will be seen that the execution of the bonds is all that is necessary to enable the Pennsylvania Railroad Company to take immediate possession of the Works. We presume the change of ownership will be made within the next ten days.

From intelligence brought by the late European steamer it appears the weather in England has been delightful for some time past. The crops are described as looking splendid beneath a brilliant sun, and through the whole agricultural world there is a cheerful promise of an abundant harvest. People are leaving London, Liverpool and Manchester for the country. Excursion trains go to Ireland, Scotland, France, Holland and Germany, and the railways take crowds to all sorts of pleasant places. A joyous company recently started for Bordeaux, and there is even talk of an excursion steamer to Canada and the United States. The vine and silk crops in France are coming out strong and healthy, having almost entirely recovered from the diseases which have sorely afflicted them for the past two years. The elections are creating excitement and liveliness in the French empire. That the government is somewhat troubled at the activity of the Republicans is generally believed—their ideas of the elective franchise are not deemed by Louis Napoleon as suitable for France, however practicable they may be for Belgium! The pope Pio Nono's entry into Bologna is the last incident of his present tour through his dominions. His holiness was received in a most becoming manner by the authorities amidst grand demonstrations of rejoicing.

THE NEW TARIFF.—The revised tariff, as altered by Congress at its last session, went into operation on the 3d inst. It reduces the duties on nearly all articles which enter into the general consumption of the country, and places many materials in the composition of our manufactures. Iron, cotton, woolen fabrics, hemp and sugar have a reduction of one sixth on the present duties. Distilled spirits and liquors are reduced from 40 to 75 per cent., with a general reduction of 20 per cent. on all articles not carried to the free list or reduced either to 4 or 8 per cent. Wool costing less than 20 cents per pound will henceforth be free. In anticipation of the reduction, a large amount of goods imported recently has been left in public store. The withdrawal of sugar, it is said, will be large for re-exportation this week and next, but very light for consumption. The withdrawals of raw wool will be considerable.

The great event of the English racing season, the Epsom Derby, occurred May 27th. Derby day in England is almost a national holiday. Parliament adjourns, the courts are not in session, and churchmen and laymen, peer and plowman, flock to Epsom Downs to see or two horses run two or three minutes. The winning race was a small mare called Blink Bonny. The Derby stakes were instituted in 1779, and have been run every year since, and it is a somewhat remarkable fact that mares are seldom winners. Blink Bonny being only the second mare that has won since 1801. Blink Bonny was not the favorite with the betting ring, and consequently they were heavy losers. Sir Robert Peel, it is stated, lost £70,000 by backing his horse Anton for the same race. Blink Bonny is now as famous as Childers or Eclipse, and will be backed heavily for other great stakes.

Mr. Ten Broeck has entered Prior and Priors on two handicaps at the York August meeting. "Handicapping" is a modern invention, and consists in piling weight upon the backs of the stoutest and fastest horses, until they are supposed to be on a level with the poorer horses. Thus, a slim "weedy" three year old, carrying but 70 pounds, stands, according to this logic, the same chance that a splendid four-year-old, carrying 130 pounds. The object of handicapping is to give the poorer horses something of a chance, and the odds are generally in favor of the "weedy" three year old carrying feather weight. Prior and Priors will have to carry weight, and will probably be beaten. If they win, it will be an astonishing victory.

THE CROPS IN PENNSYLVANIA.—The editor of the Germantown Telegraph has been on a tour through the interior of the State, and in his paper of yesterday, he gives the result of his observations regarding the crops. He says: We never saw the land more affluent in every where, or more promising in God's alms. It is literally a wide-spread canopy of grain, grass, corn and potatoes, and with the exception of the corn, these crops have never prospered so excellently in luxuriance at this time of the season. Corn was very short, being fully two weeks behind ordinary seasons, but what is satisfactory in respect to this crop is that, in every instance noticed, the plants were all there, very few hills falling short of their complement. This fact particularly attracted our attention, as the weather has been unusually cold and moist. We do not think the wheat looked so well in Chester and a portion of Lancaster county as it did farther west; and even in Perry county, one of the most fertile in the State, where it adjoins the railroad, the crop was excellent. In Blair county, near Tipton, in the cleared field, sown in the spring, we saw beautiful wheat. It is true some fields were much fallen, but bright sun would probably raise most of it again. It was nowhere so good beyond Lancaster as in this neighborhood. But the oats everywhere, were promising in prospect. As the public display of fireworks was progressing upon the Common, a shell mortar rocket burst, killing George F. Lewisberry, formerly Harbor Master of this port. Also, Lully, Patrick Cook and John W. Mahon, and badly injuring Mr. Wiseman Marshall, the tragedian, and Jno. O. Robinson.

AN EMPLOYMENT.—A Petersburg correspondent of the Richmond Dispatch writing under date of the 23d says: An employment occurred late last night, which has created the most intense excitement. James M. Lee, a tall, raw-boned man, with Miss M. Lee, a lady of respectable young lady, 16 years of age. The parties have gone North. Lee is a married man.

HIGH PRICES AND LABOR.

We are at a loss to account for the fact, says the Baltimore Dispatch, that while every article, whether of use or luxury, whether of the most absolute household necessity, or such as may be dispensed with without inconvenience, but especially everything in the shape of food, has risen enormously—in fact fully, if not more than doubled—wages have not advanced. Why should they have remained stationary? With the present extravagant prices for all which a family consumes, we do not see how many men of wages could continue to keep soul and body together. It is evident that the disproportion now existing in this respect cannot long continue. The cost of the necessities of life must either come down, or the wages of labor and rates of salaries must go up. The inequality is too glaring and too onerous. It would really seem, if combination and speculation had achieved a complete victory over the people, and that, as was the case, the last cent must be wrung from the tradesman, artisan, and laborer to swell the pockets of those whose operations in the estate are to form their road to fortune. The extravagant speculations in western lands, and the inflated prices thus put upon real estate, have the effect of raising the price of the products of the soil; and in this way the poor man in every situation of life, and more than all the dwellers in cities, are found to contribute to build up the fortunes of the speculator, of the man who adds nothing whatever to the wealth or products of the country.

The capital thus backed up in these western land speculations forms another source of embarrassment, as it checks the current of trade, stagnates business, and consequently interferes with the demand for labor, and precludes the possibility of obtaining the advance which would equalize labor with the cost of living. But the reaction must come; the promissory symptoms are already felt, and many who in the haste to get rich have rushed into reckless investments and purchases of land at 50 and 75 per cent. beyond their present value, or even their possible actual value for many years, will find themselves engulfed in the ruin. When this reaction shall have arrived, and not before, we may look for the inequality between wages of labor and the cost of living to be remedied.

THE DEEDS OF WARREN.—The Syracuse Journal, in an excellent article on the use of water for the purpose of bathing and personal cleanliness, says: "Bathing is a high moral duty. Let a man who is about to commit some disgrace upon himself, or some injustice upon his fellow, resort to the free use of cold water, followed up by towels, brushes and clean linen, and as soon as this is accomplished, he is willing to wager that he will hesitate to engage in what he had before determined upon. If water will not save a man, salt will. No man keeping a gun in the house, and before he knows what he is about his unjust family will be brought in on him. These are facts which a gentleman who is a friend of the colored man, should know that as soon as he can get a divorce, probably from the Tappan Legislature as they call it. This man is one of the loudest shriekers for a 'Bleeding Kansas' in the Territory, and he is a man who is as soon as certain speculations which he is maturing and which promise to make money, are fully consummated, that some friends of that poor woman's children are keeping a sharp look out, and before he knows what he is about his unjust family will be brought in on him. These are facts which a gentleman who is a friend of the colored man, should know that as soon as he can get a divorce, probably from the Tappan Legislature as they call it.
