NEW ILLUSTRATED AND EMBELLISHED

COUNTY MAP

OF THE REPUBLICS OF NORTH AMERICA.

WITH THE Adjacent Countries and Islands; COMPILES, drawn and engraved from the United States Land and Coast and British Admiralty Surveys, and other reliable sources. A Superior Copperplate Engraving. Published by A. J. JOHNSON, New York and Wash-

Ington.

This work exhibits the whole of North America South of the 50th Parallel of Latitude; embracing the Canadas, the United States and Territories, Mexico, Central America, the Isthmus of Panama, the West India Islands, New Brunswick, Nova Scotia, and part of South America. Also, a superior Map of the World. It is on a scale larger by 10 miles to the inch than the largest map of the same territory ever published, and 13 miles to the Inch larger than Monk's, or the map of "Our Country." It occupies a sheet 72 by 80 inches, larger than Sherman & Smith's mammouth map of the Old States (now Colton's), and covering about 4 fimes as much of the earth's surface as that work. It is 1,500 equare inches larger than Colton's, Monk's or Mitchell's map, and gives a geographical delineation of the countries it embraces with an accuracy and fullness of detail altogether beyond the reach of any other; map. All the counties in the United States and Territories are named and colored on the face of the map. Of course it contains all the Raltreads (both the finished and the finishing). The large scale on which the work is projected has sanbled us to give a much otter map of Mexico and Central

of course it contains all the Rallroads (both the finished and the finishing). The large scale on which the work is projected has enabled us to give a nucl better map of Mexico and Central America than has ever before been exhibited in connection with our country. The regions lately in controversy between our country and the Brilish Government, as well as those which Gen. Walker's exploits have raised to recent notoriety, are fully and faithfully delineated—The same is true of Cuba, Jamaica and the West India Islands. In addition to this, the Keys, Banks, Soundings, Channels, Ourrents, and Routes of Vessels in those waters are all exhibited in elegand scientific data inserted; making a complet Marker's Cart of the West India Series, and Gulf of Mexico. The principal materials for this portion were furnished by E. & G. W. Blust. In reading ship news or naval writings, the advantage of such a map can hardly be prized too highly. With the same regard to accuracy and detail, are given also, as far North as settled, the British Possessions of North America. Not only is everything delineated in the States of the Union which the seale will duiled, the work illustrated our works with magnificent and costly Daguerrotype views of the cities of New York, New Orleans, Cliston, St. Joseph, and even the famous New Capitol Building. On a vacant space of the sheet which appears the plan of Moreator's Projection, with the American Continent in the centre. This has the advantage of such a present of the world. We see at a glance our maritime relations, not only with Europe on the East, so the American of the world. We see at a glance our maritime relations, not only with Europe on the East, so the debt, or any part thereof, of any common world, on the west. The new relations which the Price of the debt, or any part thereof, of any common world, or they be prize the price of the scale of the said sinking fund may be designated by a sum not less than two hundred and fifty thouse the present debt, and any additional textent. Scotto

of the world. We see at a glance our maritime relations, not only with Europe on the East, but with the Sandwich Islands, Japan, and Asia, on the west. The new relations which the Pacille Railroad and Telegraph will open to the Commerce of our country, are clearly illustrated by a moment's view of this map; thus cluciding great national questions to the common mind. This is on a much larger scale, and contains far more information, than any similar work extant. This Map of the World shows clearly the Arctic Explorations by Dr. Kane, for the first time on any map. This work has been carefully compiled, drawn and engraved, by D. G. Johnson, who for twenty years has been caregaed in drawing and engraving maps. For sale by travelling agents.

PROPOSING AMENDMENTS TO THE CONSTITUTION OF THE COM-MONWEALTH. Pennsylvania, ss :.

I do certify that the above and foregoing is
the and correct copy of the original "Resol

RESOLVED by the Senate and House of Representatives of the Commonivealth of Pennsylvania in General Assembly met: That the following amendments are proposed to the constitution of the commonwealth in accordance with the provisions of the tenth article thereof.

FIRST AMENDMENT. There shall be an additional article to said constitution to be designated as article cleven; is follows:

ARTICLE XI. OF PUBLIC DEBTS.

RESOLUTION

SECTION 1. The state may contract debts, to supply easual deficits or failures in revenues, or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and themoney arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

and to no other purpose whatever.

Section 2. In addition to the above limited SECTION 2. In addition to the above limited power the slate may contract debts to repel invasion, suppress insurrection, defend the state in war, or to redeem the present outstanding indebtedness of the state; but the money arising from the contracting of such debts, shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SECTION 3. Except the debts above specified

some the debt, or any part thereof, of any courty, city; borough, or township; or of any corporation, or association; unless such debt shall poration, or association; unless such acordinate have been contracted to enable the state to repeture the state of the sta invasion, suppress domestic insurrection, defen itself in time of war, or to assist the state in the discharge of any portion of its present indebt

cdness.

Section 7. The legislature shall not authorize any county, city, borough, township, or incorporated district, by virtue of a vote of its citizens, or otherwise, to become a sockholder in any company, association, or corporation; or to obtain money for, or loan its credit to any corporation, association, institution, or party

There shall be an additional article to said constitution, to be designated as article XII, as

THIND AMENDMENT.

Fröm Éction two of the first article of the constitution, strike out the words, "of the city of Philadelphia, and of each county respectively;" from section five, same article, strike out the words, "of Philadelphia and of the several counties;" from section seven, same article, strike out the words, "neither the city of Philadelphia nor any," and insert in lieu thereof the words, "and no;" and strike out "section four, same article," and in lieu thereof insert the following: .

Religion Office, Chambersburg.

Railroad Office, Chambersburg,

The Atkin's Self-Raking Reaper and Mower, for 1857, is now ready and on hand.

You will save money and labor and avoid injuring your horses by purchasing the Self-Raker. Remember how many good horses had their necks ruined by working in Mowing Reaping machinos with a side draft. We think, we can satisfy you, that, the Self-Raker is by far the best machine in use; having more dinable improvements than can be claimed by any other. It positively is easy work for two horses to operate it; and romember how much it saves by raking the grain ready for binding. This saves two men each day. Machines, that a man has to ride on to do the raking, are dangerous, and is the hardest work over done by farman and take the Atkins Self-Raker, and alone cut and rake 12 to 15-acres each day. There is no hard work about it. It cuts grass uncommonly well and vory rapidly, and has no equal as a combined machine. Some had machines were put out last season inropal bad management that did not work well; but the Atkins Reaper always works satisfactorily when they are well built and properly put together. All the machines for the season are good and in perfect order. This colebrated and uncqualed grain and grass cutter has been a ratifed higher premiums than any other machine in existence. Over 150 first promiums in five years. Gold Medals, Silver Medals, Silver Cups and Money premiums. The facts are self-evident that farwers will find it much to their interest to parchase the Atkins Self-Raker. Order early and call and see the machines. Pamphlets or recommendation furnished to those who desire.

J. W. PATTERSON,

General Agent, Haritteburg.

June 4, 1857—2m

DOUBLE ENTERY BOOK-REEPING, The Atkin's Self-Raking Reaper and Mower for 1857, is now ready and on hand.
